*The Emerald Modem* Richard Leviton, 2004-05-04 Twenty years ago in England author Richard Leviton discovered the planet Following quite specific guidance he began a long process that amounted to an apprenticeship My mentors dispatched me to various specific locations in the Somerset landscape and at all hours of the night and day I sat on hills and valleys and rocks under sunlight moonlight rain snow and fog and had visions I started to see another landscape behind the apparent landscape It was an apparitional landscape with stars planets galaxies angels spirits of Nature mythic deities divinity As time went on he found himself talking with angels visiting celestial cities and following gnomes He came to understand that at one level we are the planet and that both we and it have an intimate relationship with our galaxy I found myself living inside the myths of the world as if they were expert scripts for real life inner adventures I never once thought I was crazy Why should I Quite the opposite I believed I was finally getting grounded in something real But it would take me twenty years to make sense of it That sense is embodied in *The Emerald Modem* The Emerald Modem includes direct correspondences between human chakras and the Earth's energy features and the galactic originalstables listing locations of sacred sites around the planet where you may experience this relationship explanations of world myths which provide clues to this unsuspected visionary world around us This is the first book to synthesize all the fragments of geomantic perception sacred sites energy points vertexes etc into a global interactive model that ties human consciousness directly to it Leviton describes 85 subtle features in the planetary landscape places you can go for mystical experiences They are features of the Earth's energy body almost all invisible to conventional sight But psychic cognition can be trained and you can usefully interact with any of these types of sites today without seeing what you're doing Your intent to interact for the benefit of yourself and the planet is all that's required Just as modems dial us into the Internet so the features of the Earth's energy body described in *The Emerald Modem* help us get online with the galaxy You can learn to visit Grail Castles experience a Mount Olympus or walk through the stars in a landscape zodiac and you can learn enough to become confident that you're not traveling alone

what it will take to bring it back Bennett draws on his experience as a lawyer judge and law teacher as well as upon oral histories of lawyers and judges in his exploration of how and why the legal profession has lost its ennobling mythology Effectively using examples from history philosophy psychology mythology and literature Bennett shows that the loss of professionalism is more than merely the emergence of win at all cost strategies and a scramble for personal wealth It is something more profound a loss of professional community and soul Bennett identifies the old heroic myths of American lawyers and shows how they informed the values of professionalism through the middle of the last century He shows why in our more diverse society those myths are inadequate guides for today s lawyers And he also discusses the profession s agony over its trickster image and demonstrates how that archetype is not only a psychological reality but a necessary component of a vibrant professional mythology for lawyers At the heart of Bennett s eloquently written book is a call to reinvigorate the legal professional community To do this lawyers must revive their creative capacities and develop a meaningful professional mythology one based on a deeper understanding of professionalism and a broader more compassionate ideal of justice
