Health And Behaviour Selected Perspectives:

Health and Behaviour David A. Hamburg, Norman Sartorius, 1989-08-17 There is clear evidence of causal links between specific forms of behaviour and the improvement or deterioration of health states Unless human behaviour can be influenced there can be no progress in promoting health preventing disease and alleviating suffering

United Nations Legal Order Oscar Schachter, Christopher C. Joyner, American Society of International Law, 1995 The purpose of these volumes is to examine explain and appraise contributions made by the United Nations system to international law and the law creating process The work assesses the effect UN institutions have had on the law making process and the extent to which that law has been accepted by and evidenced in contemporary state practice It is divided into three main parts The first examines the practical as well as conceptual aspects of the UN system as a source of law The second part deals with different fields of activity which have become the subjects of legal rules and processes Areas covered include human rights use of force and economic relations In addition topics that have not previously been examined in such a comprehensive manner such as shipping aviation and private international law are also discussed The third part covers the internal law of the UN system international civil services and financial contributions

Human Rights and Disabled Persons Theresia Degener, Yolán Koster-Dreese, 2021-10-18 The United Nations Decade of Disabled Persons has served as a time for standard setting in the field of human rights and disability and has created the need to evaluate the relevant human rights instruments for disabled persons This volume responds to this need by offering a collection of essays on the subject of human rights and disability and an extensive compilation of international and regional human rights instruments guidelines and principles which are of special relevance to disabled people It should serve organizations of disabled people as well as governments throughout the world as a resource and as an introduction to human rights and disability This shortcoming may be one reason for the widely prevailing notion that disability is a welfare issue rather than a human rights issue

Handbook of Immigrant Health Sana Loue, 2013-11-11 Here is the first comprehensive cross disciplinary work to examine the current health situation of our immigrants successfully integrating the vast literature of diverse fields epidemiology health services research anthropology law medicine social work health promotion and bioethics to explore the richness and diversity of the immigrant population from a culturally sensitive perspective This unequalled resource examines methodological issues issues in clinical care and research health and disease in specific immigrant populations patterns of specific diseases in immigrant groups in the US and conclusive insight towards the future Complete with 73 illustrations this singular book is the blueprint for where we must go in the future

Promoting Mental Health Internationally Giovanni De Girolamo, 1999 Provides descriptions and commentaries on the main aspects of the last 30 years of the WHO programme in mental health

Learning to Live Together David A. Hamburg, Beatrix A. Hamburg, 2004 With a view to deepening our understanding of sources of hatred and prejudice this book uses a developmental and evolutionary perspective to explore and explain the process by which our beliefs are conveyed to the youngest members of society Discussing the psychological obstacles to peaceful relations between groups the authors focus on the developmental processes by which we can work to diminish ethnocentrism prejudice and hatred which children learn from a very early age Until now scholarship and practice in international relations have gravely neglected crucial psychological aspects of these terrible problems and have not yet explored the educational opportunities related to them Addressing these promising lines of inquiry and innovation this book fosters a more humane and less violent development in childhood and adolescence Educators religious leaders developmental and social psychologists will find this a valuable resource as will a socially concerned segment of the public who are looking for practical ways to work for peace

Safety assurance during food processing Frans J.M. Smulders, John D. Collins, 2023-08-28 Microbial agents particularly bacteria represent the greatest risk to public health The traditional end product oriented food inspection systems are inadequate for identifying and eliminating the usually symptomless animal carriers of agents causing foodborne infections and intoxications Modern risk based prevention approaches are the only effective way to reduce the prevalence of these hazards from our foods As an additional safety valve microbial decontamination procedures are currently being suggested and its implementation in industrial food processing has at least in some parts of the world met with governmental approval The residues in foods of some non microbial agents have more recently also caused substantial consumer disquiet This equally applies to non conventional foods containing GMO s In this publication these issues are addressed by invited expert scientists from various disciplines many of which have key positions in EU funded research programmes on these very topics and or are advisers to international public health bodies The editors firmly believe that the very nature of the theme the excellence of the papers and the holistic approach chosen will draw an audience from both an industry and academic background
