Quarterly Review of Military Literature ,1973 **History's Greatest Tank Battle** World History,2024-10-08 By 1943 Adolf Hitler had realised that the German Army was no longer capable of fighting an offensive war The army was short of men guns and tanks and the Luftwaffe could not afford to lose more aircraft Consequently when Hitler flew to his forward headquarters in Ukraine in February 1943 he brought with him a clear message the German Army would no longer go on the offensive For the next year it would instead defend its positions and let the Red Army exhaust itself in futile attacks As we know that's not how history turned out At the meeting in Ukraine Hitler's generals identified a vulnerable spot on the front line where hundreds of thousands of enemies could be captured and the Soviets weakened before they launched their summer offensive After weeks of deliberation the Führer was persuaded to make a fateful decision All forces were to be deployed to the front line salient where they would trap the Red Army near the city of Kursk 500 kilometres southwest of Moscow For the next few months both the German Army and the Red Army staked everything on winning the coming Battle of Kursk Soviets in their thousands built impenetrable defensive lines while German units transported newly developed Tiger tanks and Wespe Wasp guns by the hundreds to the front line Finally on 5th July 1943 Soviet artillery shattered the silence of
