Fantasy And Mimesis Responses To Reality In Western Literature:

Fantasy and Mimesis Kathryn Hume, 1984 **Fantasy and Mimesis (Routledge Revivals)** Kathryn Hume, 2014-08-01
Since Plato and Aristotle's declaration of the essence of literature as imitation western narrative has been traditionally discussed in mimetic terms Marginalized fantasy the deliberate from reality has become the hidden face of fiction identified by most critics as a minor genre First published in 1984 this book rejects generic definitions of fantasy arguing that it is not a separate or even separable strain in literary practice but rather an impulse as significant as that of mimesis Together fantasy and mimesis are the twin impulses behind literary creation In an analysis that ranges from the Icelandic sagas to science fiction from Malory to pulp romance Kathryn Hume systematically examines the various ways in which fantasy and mimesis contribute to literary representations of reality A detailed and comprehensive title this reissue will be of particular value to undergraduate literature students with an interest in literary genres and the centrality of literature to the creative imagination *Fantasy and Mimesis* Kathryn Hume, 1984-01-01 *Fantasy and Mimesis* Kathryn Hume, 1984 *Fantasy Fiction* Lucie Armitt, 2005-04-13 This is a series of introductory books about different types of writing One strand of the series will focus on genres such as Science Fiction Horror Romance and Crime The other strand will focus on movements or styles often associated with historical and cultural locations Postcolonial Native American Scottish Irish American Gothic These introductions all share the same nine part structure 1 A broad definition of the genre and its essential elements 2 A timeline of historical developments 3 Critical concerns to bear in mind while reading 4 Detailed readings of several key texts 5 In depth analysis of major themes and issues 6 Signposts for further study 7 A summary of the most important criticism in the field 8 A glossary of terms 9 An annotated critical reading list Writers covered in this book include Lewis Carroll Edward Lear George Orwell J R R Tolkien Mary Shelley J K Rowling H G Wells Thomas More Jonathan Swift Charlotte Perkins Gilman Yann Martel Jeanette Winterson and William Gibson **International Companion Encyclopedia of Children's Literature** Peter Hunt, 2004-08-02 Children's publishing is a huge international industry and there is ever growing interest from researchers and students in the genre as cultural object of study and tool for education and socialization **Key Concepts in Contemporary Popular Fiction** Bernice M. Murphy, 2017-03-01 Key Concepts in Contemporary Popular Fiction represents an invaluable starting point for students wishing to familiarise themselves with this exciting and rapidly evolving area of literary studies It provides an accessible concise and reliable overview of core critical terminology key theoretical approaches and the major genres and sub genres within popular fiction Because popular fiction is significantly shaped by commercial forces the book also provides critical and historical contexts for terminology related to e books e publishing and self publishing platforms By using focusing in particular on post 2000 trends in popular fiction the book provides a truly up to date snapshot of the subject area and its critical contexts *Topophrenia* Robert T. Tally, 2018-11-09 What is our place in the world and how do we inhabit understand and represent this place to others *Topophrenia* gathers

essays by Robert Tally that explore the relationship between space place and mapping on the one hand and literary criticism history and theory on the other The book provides an introduction to spatial literary studies exploring in detail the theory and practice of geocriticism literary cartography and the spatial humanities more generally The spatial anxiety of disorientation and the need to know one's location even if only subconsciously is a deeply felt and shared human experience Building on Yi Fu Tuan's topophilia or love of place Tally instead considers the notion of topophobia as a simultaneous sense of place consciousness coupled with a feeling of disorder anxiety and dis ease He argues that no effective geography could be complete without also incorporating an awareness of the lonely loathsome or frightening spaces that condition our understanding of that space Tally considers the tension between the objective ordering of a space and the subjective ways in which narrative worlds are constructed Narrative maps present a way of understanding that seems realistic but is completely figurative So how can these maps be used to not only understand the real world but also to put up an alternative vision of what that world might otherwise be From Tolkien to Cervantes Borges to More Topophobia provides a clear and compelling explanation of how geocriticism the spatial humanities and literary cartography help us to narrate represent and understand our place in a constantly changing world

The Mythic Fantasy of Robert Holdstock Donald E. Morse, Kálmán Matolcsy, 2014-01-10 Robert Holdstock was a prolific writer whose oeuvre included horror fantasy mystery and the novelization of films often published under pseudonyms These twelve critical essays explore Holdstock's varied output by displaying his works against the backdrop of folk and fairy tales dissecting their spatiotemporal order and examining them as psychic fantasies of our unconscious life or as exempla of the sublime The individual novels of the Mythago Wood sequence are explored as is Holdstock's early science fiction and the Merlin Codex series
