exciting and joyous time of year a time of family friends and traditions You will delight in reading the 101 merry and heartwarming stories about holiday traditions family and goodwill Remember all our stories are 2Santa safe3 so they can be enjoyed by the whole family     *A History of Sport in Europe in 100 Objects* Daphné Bolz,Michael Krüger,2023-04-27 Modern sport originated in Europe During the age of Enlightenment gymnastics and athletics from Antiquity were rediscovered and changed into new cultural and educational forms which shaped both the body and the mind The industrialisation of Britain and Europe eventually introduced organisational patterns that gave sport not only a name but also a new structure This was a distinctive product of European civilisation which spread across the modern world The 100 objects that are collected here are both material objects and forms of communication which explore the transformation and diversity of sports games and physical education in Europe whether for training performing or as part of other forms of celebration or festivity This book is the first attempt to create a kaleidoscopic history of European sport through its rich material culture and emerged from a desire to develop transnational research in sports history 110 authors from 39 countries have participated in a genuinely pan European project introducing the reader to the fascinating range of people institutions and places which made up the world of modern European sport     *Fu Shan's World* Qianshen Bai,2020-03-23 For 1 300 years Chinese calligraphy was based on the elegant art of Wang Xizhi A D 303 361 But the seventeenth century emergence of a style modeled on the rough broken epigraphs of ancient bronzes and stone artifacts brought a revolution in calligraphic taste By the eighteenth century this led to the formation of the stele school of calligraphy which continues to shape Chinese calligraphy today A dominant force in this school was the eminent calligrapher and art theorist Fu Shan 1607 1685 Because his work spans the late Ming early Qing divide it is an ideal prism through which to view the transformation in calligraphy Rather than seek a single explanation for the change in calligraphic taste the author demonstrates and analyzes the heterogeneity of the cultural social and political processes behind it Among other subjects the book covers the late Ming interaction between high and low culture the role of publishing the Ming loyalist response to the Qing and early Qing changes in intellectual discourse In addition to the usual approach of art historians it adopts the theoretical perspectives of such fields as material culture print culture and social and intellectual history     *The Gift Economy* David Cheal,2015-07-03 Until recently we have known more about gift giving practices in pre industrial societies than about those of industrial western society In this book first published in 1988 David Cheal shows that the process of present giving and receiving is a vital element in contemporary social life relevant to some of the most important theoretical traditions in sociology particularly those of Durkheim and Weber and to the social constructionism of Peter Berger and Thomas Luckmann This volume is the result of a major study of gift rituals carried out by David Cheal and his associates in which general themes are richly illustrated with details from individual case histories gathered during the research It is highly significant that in western society women are more active gift givers than men and while their voices explain how emotions and interests are interrelated within the gift economy the author shows how that in
