Farm Communities At The Crossroads Challenge And Resistance:

Farm Communities at the Crossroads University of Regina. Canadian Plains Research Center, 2003 This book is an outgrowth of a conference that analyzed transformations in farming farm communities and discussed what might be done to achieve a more socially responsible development It contains papers that address the pace of change in work rural society which has proceeded so rapidly that every new development appears to be a cross roads in which something precious is in danger of being left behind but something valuable may be gained by taking the right route Topics of the papers include the importance of work the family farm community building knowledge skills in the farm community coping with the farm crisis land reform short line railways farm co operatives agricultural chemicals agribusiness sustainable alternatives for agriculture game farming co operative intervention in the farm machinery sector conservation tillage globalization agricultural policy agrarian radicalism on the prairies and farm income support systems Includes index Practicing Care in Rural

Congregations and Communities Jeanne Hoeft, L. Shannon Jung, Joretta Marshall, L Shannon Jung, 2013-07-01 Pastoral care in rural communities is different from care in other locales Despite these differences rural churches and communities also hold a particular wisdom from which the rest of the church might benefit Small towns and rural areas have particular challenges and in seeking to live out the Christian life in the midst of those local churches have unique and useful insights into what it means to care for one another **Transforming the Prairies** Shannon Stunden Bower, 2024-11-01

Transforming the Prairies proposes a new understanding of Canada s Prairie Farm Rehabilitation Administration PFRA complicating common views of the agency as a model of effective government environmental management Between 1935 and 2009 the PFRA promoted agricultural rehabilitation in and beyond the Canadian Prairies with mixed and equivocal results The promotion of strip farming as a soil conservation technique for example left crops susceptible to sawfly infestations The PFRA s involvement in irrigation development in Ghana increased the local population s vulnerability to various illnesses And PFRA infrastructure construction intended to serve the public good failed to account for the interests of affected Indigenous peoples The PFRA is revealed as being a high modernist state agency that produced varied environmental outcomes and that contributed to consolidating colonialism and racism This investigation affirms the importance of engaging historical perspectives to help ensure that contemporary environmental management efforts support more just and sustainable futures

Work in Tumultuous Times Vivian Shalla, Wallace Clement, 2007 Offering a critique of how social structures and relations as well as ideologies shape workplaces labour markets and households in contemporary Canada this work exposes the uncertainty insecurity and instability that characterise both paid and unpaid work It also proposes alternative policies and practices The Forgotten Church Glenn Daman, 2018-05-01 Winner of Christianity Today s Award of Merit for The Church Pastoral Leadership 2018 Whether it s because of the 2016 Presidential election or books like *Hillbilly Elegy* Americans are beginning to understand the tremendous influence people in rural areas have in our nation But rural America not urban

America is also the new center of poverty. Thus the rural church stands at the crossroads of strength and struggle. It carries the gospel, the very hope and power needed. Yet its ministry efforts are hamstrung because urban and suburban churches often don't realize their need for rural churches and the rural church itself rarely understands its unique assets and values. The *Forgotten Church* addresses these problems and provides an overview of rural ministry, explores opportunities, recent trends, and showcases the remarkable benefits of suburban, urban, and rural churches working together. This book is essential for any pastor, whether from the city or the sticks, because we are one body and we need each other. **The Trajectories of Rural Life** University of Regina, Canadian Plains Research Center, Saskatchewan Institute of Public Policy, 2003. Rural communities have been profoundly affected by recent political, economic, demographic, and cultural change. In Canada, the impacts of these changes are all about us in the absolute population declines in Saskatchewan and Newfoundland, in the crises of the east and west coast fisheries, in the farm crisis, in serious ecological problems, and in the reorientation of rural social services. There is a tendency to view these problems in stark terms as part of a qualitatively new era in Canadian history, triggered perhaps by the forces of globalization or urbanization or the rise of the service sector economy. In important ways, however, the problems of rural Canada are not particularly new. Rural migration, pollution, wildlife conservation, and other matters have been long-standing, persistent concerns of rural Canadians. This book attempts to both resist the seemingly persistent urge to romanticize and prognosticate about rural Canada and the people who live geographically outside the urban environment and suggest different ways of looking at rural life. In this sense, its goal is to build upon an increasingly strong base of research and writing on rural Canada to suggest different perspectives on the countryside, the small town, the environment, and the landscape. The Prairie Agrarian Movement Revisited Kenneth Murray Knuttila, 2007. The formation of the Territorial Grain Growers Association in 1901 was not the only important event in the early history of what has come to be known broadly as the agrarian movement in the Canadian prairies, but it was a defining moment in some respects. Arguably, it signalled the formation of an agrarian class, but at least it was an indicator of an awakening of a democratic consciousness among family farmers. Ultimately, the Association provided a venue for analysis and critique, the development of strategies and tactics, and of course the nurturing of leadership and organizational forms that would have a profound influence upon politics and the state in the three prairie provinces and the Dominion, as well as the creation of co-operatives and other forms of direct action. These eighteen essays, honouring the 100th anniversary in 2001 of the formation of the TGGGA, explore important aspects of the historical legacy of the agrarian movement and contemplate their relevance to the current setting for the rural prairies. Rural Women's Health Beverly Leipert, Belinda Leach, Wilfreda Thurston, 2012-09-17. The well-being of rural communities affects the well-being of those who reside in towns and cities because of rural-urban connections through food, drinking water, infectious disease, extreme environmental events, recreation, and for many, retirement residence. In rural areas themselves, women play a critical role in the health of their

families and communities yet women's health is often marginalized or ignored. There have been limited studies to date about rural women and health in Canada. Filling an important gap in scholarship, this collection identifies priority issues that must be addressed to ensure these women's well-being and offers innovative theoretical and methodological ideas for improvement. *Rural Women's Health* integrates perspectives from rural practitioners, residents, and scholars in a variety of fields including nursing, sociology, anthropology, and geography to tackle issues relevant to diverse settings across the country. As such, it presents a national perspective on the nature of women's health while respecting internal and regional diversity as well as viewpoints from international scholarship.

Second Promised Land Harry H. Hiller, 2009 Explosive economic growth in resource-rich Alberta has led to a stunning increase in its population. In contrast to Ontario and British Columbia, which have grown primarily through international migration, Alberta has become a magnet for internal migrants, contributing to population redistribution within Canada with significant national social and economic consequences. Combining statistical analysis and ethnographic study, Harry Hiller uncovers two waves of immigration to Alberta. His innovative approach begins with the individual migrant and analyzes the relocation experience from origin to destination. Through interviews with hundreds of migrants, Hiller shows that migration is complex and dynamic, shaped not just by what Alberta offers but also prompted by a process that begins in the region of origin that makes migration possible and helps determine whether migrants stay or return home. By combining a social psychological approach with structural factors such as Alberta's transition from a regional hinterland province to its emerging role in the global system, discussions of gender, the internet, and folk culture, *Second Promised Land* provides a multi-dimensional and deeply human account of a contemporary Canadian phenomenon.

Qualitative Analysis Margaretha Järvinen, Nanna Mik-Meyer, 2020-02-06 Introducing eight analytical approaches that are key to successful social science research, this book helps you get to grips with theory and apply it to qualitative analysis. With two matched chapters dedicated to each approach, it provides a balance between theory and analytical method. The first chapter grounds the approach in theory, and the second uses real-world examples to show how to conduct your own analysis using the approach. Drawing on the contributing authors' wealth of experience, the book highlights how analysis relates to the entire research process and helps you position your analysis within the larger context of your research. Provides a strong theoretical foundation for building good qualitative analysis. Guides you through translating theory into real-world practice in your own research. Detailed, clear, and accessible, this book is perfect for students who want to understand the theory behind qualitative analysis before conducting their own research or develop their understanding of specific approaches.

Divided JoAnn Jaffe, Patricia W. Elliott, 2021-10-08T00:00:00Z *Divided* looks at the last fifteen years in Saskatchewan during which time the Saskatchewan Party government sought to reforge the province's image into the New Saskatchewan.

Transforming Gender and Food Security in the Global South Jemimah Njuki,John Parkins,Amy Kaler,2016-11-25 Drawing on studies from Africa Asia and South America this book provides empirical evidence and conceptual explorations of the gendered dimensions of food security It investigates how food security and gender inequity are conceptualized within interventions assesses the impacts and outcomes of gender responsive programs on food security and gender equity and addresses diverse approaches to gender research and practice that range from descriptive and analytical to strategic and transformative The chapters draw on diverse theoretical perspectives including transformative learning feminist theory deliberative democracy and technology adoption As a result they add important conceptual and empirical material to a growing literature on the challenges of gender equity in agricultural production A unique feature of this book is the integration of both analytic and transformative approaches to understanding gender and food security The analytic material shows how food security interventions enable women and men to meet the long term nutritional needs of

their households and to enhance their economic position The transformative chapters also document efforts to build durable and equitable relationships between men and women addressing underlying social cultural and economic causes of gender inequality Taken together these combined approaches enable women and men to reflect on gendered divisions of labor and resources related to food and to reshape these divisions in ways which benefit families and communities Co published with the International Development Research Centre **Remaining Loyal** David McGrane, 2014-10-01 When social democratic politicians in the 1990s moderated their ideas and policies as part of a turn towards the third way they were assailed as traitors to the cause Remaining Loyal demonstrates that while third way social democrats in Quebec and Saskatchewan supplemented certain social democratic ideas with more right wing economic programs their public policies remained true to the original spirit of social democracy Drawing on a range of archival resources David McGrane traces the evolution of social democracy in Quebec and Saskatchewan from their respective origins in social Catholic thought and agrarian protest movements at the turn of the twentieth century to the most recent Parti Qu b cois and New Democratic Party governments In doing so he reconstructs the public policies of traditional social democracy from the postwar era and the third way in the 1990s and early 2000s and finds both differences and continuities McGrane contends that remaining loyal to core social democratic values is exactly what differentiates the third way from neo liberalism in Saskatchewan and Quebec The first historical comparison of social democracy in Saskatchewan and Quebec Remaining Loyal challenges how we think about the recent ideological evolution of left wing parties in Canada and the rest of the world
