Fashion and Fiction Aileen Ribeiro, 2005-01-01 Relatively few garments survive from before the eighteenth century and the history of costume in the preceding centuries must therefore rely to a great extent on literary and visual evidence This book the first of its kind examines Stuart England through the mirror of dress It argues that both artistic and literary sources can be read and decoded for important information on dress and the way it was perceived in a period of immense political social and cultural change Focusing on the rich visual culture of the seventeenth century including portraits engravings fashion plates and sculpture and on literary sources poetry drama essays sermons the distinguished historian of dress Aileen Ribeiro creates a fascinating account of Stuart dress and how it both reflected and influenced society Supported by a wealth of illustrative images she explores such varied themes as court costumes the masque the ways in which political and religious ideologies could be expressed in dress and the importance of London as a fashion center This beautiful book is an indispensable and authoritative account of what people wore and how it related to Stuart England's cultural climate

Dress, Distress and Desire J. Batchelor, 2005-05-11 Dress Distress and Desire explores representations of sartorial experience in eighteenth century literature Batchelor's study brings together for the first time canonical and non canonical texts including novels conduct books and women's magazines to investigate the pressures that the growth of the fashion market placed on conceptions of female virtue and propriety It shows how dress dispelled the sentimental myth that the body acted as a moral index and enabled the women reader to resist some of sentimental literature's more prescriptive advice

Fashion and Authorship Gerald Egan,2020-02-13 Studies of fashion and literature in recent decades have focused primarily on representations of clothing and dress within literary texts But what about the author How did he dress What where her shopping practices and predilections What were his alliances with modishness stylishness fashion The essays in this book explore these and other questions as they look at authors from the eighteenth century through the postmodern and digital eras cultural producers who were also men and women of fashion Alexander Pope Hester Thrale Mary Robinson Lord Byron William Thackeray Charlotte Bronte Wilkie Collins Margaret Oliphant Virginia Woolf Rebecca West Trudi Kanter Angela Carter and Martin Margiela The essays collected here ultimately converge upon a fundamental question what happens to our notions of timeless literature when authorship itself is implicated in the transient and the temporary the cycles and materials of fashion Gerald Egan s provocative introduction to this exciting new book poses a bold question How are authorship and literature so often linked to ideas of transcendence implicated in the transient trends and stuff of fashion The thirteen chapters that follow track authorship s complex implication in the discourses and materiality of fashion and fashionable
