*Rural Young Women, Education, and Socio-Spatial Mobility* Wendy Geller, 2015-10-08 Much of the literature on globalization has centered on the large macro level forces that influence the ways ideas people and various forms of capital move around the world From this vantage point discussions about the progressive feminization of migration in particular the feminization of out migration from rural areas indicate an intriguing trend Simultaneously the local experience of global forces is an important way of exploring how macro level processes are navigated by social actors on the ground This provides added texture to our understanding of why and how people make decisions about their lives within an increasingly interconnected social economic and political environment This volume explores whether concurrent patterns in identity development social relations and youth behaviors on the micro level might help explain similarities observable at the macro level Through a triangulated approach that balances between statistical backdrops extant quantitative research and in depth qualitative interviews this book theorizes about shifts in gender normativity efforts towards social mobility and the possible effects of an increasingly globalized society To do this it examines the decision making processes employed by high achieving young women from rural areas in Vermont and Leinster Ireland as they figured out who they wanted to become as adults and where they wanted to be those people Remaining mindful of structural constraints and using the lens of the psychic landscape Reay 2005 to view class as a reflexive practice this book peers into the ways certain types of identity evident among blue collar students seem to be carving out some potential for social and spatial mobility amidst both global and local trends

**Real Democracy** Frank M. Bryan, 2010-03-15 Relying on an astounding collection of more than three decades of firsthand research Frank M. Bryan examines one of the purest forms of American democracy the New England town meeting. At these meetings usually held once a year all eligible citizens of the town may become legislators they meet in face-to-face assemblies debate the issues on the agenda and vote on them. And although these meetings are natural laboratories for democracy very few scholars have systematically investigated them. A nationally recognized expert on this topic Bryan has now done just that. Studying 1,500 town meetings in his home state of Vermont he and his students recorded a staggering amount of data about them: 238,603 acts of participation by 63,140 citizens in 210 different towns. Drawing on this evidence as well as on evocative witness accounts from casual observers to no lesser a light than Aleksandr Solzhenitsyn Bryan paints a vivid picture of how real democracy works. Among the many fascinating questions he explores why attendance varies sharply with town size how citizens resolve conflicts in open forums and how men and women behave differently in town meetings. In the end Bryan interprets this brand of local government to find evidence for its considerable staying power as the most authentic and meaningful form of direct democracy. Giving us a rare glimpse into how democracy works in the real world Bryan presents here an unorthodox and definitive book on this most cherished of American institutions. *Companies We Keep* John Abrams, 2008-11-08 Part memoir and part examination of a new business model the 2005 release of *The Company We Keep* marked the debut of an important new voice in the literature of American business. Now in *Companies We Keep* the revised and expanded edition of his 2005 work John Abrams further develops his idea that companies flourish when they become centers of interdependence or communities of enterprise. Thoroughly revised with an expanded focus on employee ownership and workplace democracy *Companies We Keep* celebrates the idea that when employees share in the rewards as well as the responsibility for the decisions they make better decisions result. This is an especially timely topic. Most of the baby boomer generation the owners of millions of American businesses will retire within the next two decades. In 2001 50,000 businesses changed hands. In 2005 that number rose to 350,000. Projections call for 750,000 ownership transitions in 2009. Employee ownership in both the philosophical and the practical sense is gathering steam as businesses change hands and Abrams examines some of the many ways this is done. *Companies We Keep* is structured around eight principles from *Sharing Ownership* and *Cultivating Workplace Democracy* to *Thinking Like Cathedral Builders* and *Committing to the Business of Place* that Abrams has discovered in the 32 years since he cofounded South Mountain.

Company on the island of Martha's Vineyard Together these principles reveal communities of enterprise as a potent force of change that can and will improve the way Americans do business [Vermont Magazine](#) ,2001 [Forthcoming Books](#) Rose Army,2000 *Business* □□□□□□□□,2003 **Encyclopedia of Social Networks** George A.
