Young, 1866 Drive to Survive Chris Daly, 2020-03-12 Drive to Survive The Art of Wheeling the Rig provides an in depth examination of fire apparatus vehicle dynamics This is not your average driver training textbook Fire apparatus operators must understand how a vehicle maneuvers at roadway speed and more importantly why does it crash Just as a doctor cannot heal the human body without a thorough understanding of anatomy and physiology an emergency vehicle operator cannot safely drive a fire apparatus without an in depth knowledge of vehicle dynamics Drive to Survive goes beyond talking about pump operations aerial operations and preventative maintenance it fills in the gaps between vehicle dynamics and crash causation After 15 years of training and research Chris Daly developed a training program combining his fire service and crash reconstruction training experience This book provides an in depth knowledge of topics required in the following NFPA standards NFPA 1002 Standard for Fire Apparatus Driver Operator Professional Qualifications NFPA 1451 Standard for Fire and Emergency Service Vehicle Operations Training Programs NFPA 1500 Standard on Fire Department Occupational Health and Safety Program Fire apparatus operators will learn the

limits of driving an emergency vehicle and will understand that no matter how long they have been driving or how good they think they are at some point physics will take over and the vehicle will lose control We can reduce the number of emergency vehicle crashes throughout the world by addressing key issues and providing emergency vehicle operations course EVOC instructors with methods to convey these concepts Concepts you learn in this book relate to more than just driving a fire apparatus These principles apply to anyone who drives a vehicle including your family members and loved ones **A to Zoo** Carolyn W.
