Korea Engineer School Library (Fort Belvoir, Va.),1950 China Only Yesterday, 1850-1950 Emily Hahn,2015-07-28 A fascinating journey through 100 years of Chinese history beginning with the historic Treaty of Nanking and ending with Mao Tse tung s creation of the Chinese People s Republic by the the acclaimed New Yorker correspondent who lived in China from 1935 to 1941 For centuries China s code of behavior was incomprehensible to Westerners whom the Chinese viewed as irredeemable barbarians Presenting historical events with an immediacy that makes you feel as if you were there Hahn takes readers through isolationist China s difficult and often costly adaptations to the invasions of Western foreign devils from the Treaty of Nanking in 1842 which gave the West access to five 5 of China s eastern ports to the British colonization of Hong Kong the rise of the tea trade the Opium Wars the arrival of Christian missionaries and the Boxer Rebellion Hahn also illuminates the revolutionary movement led by Sun Yat sen the overthrow of the Ch ing Dynasty the escalating tensions between the Communist and Nationalist parties and the Japanese invasion on the eve of World War II which Hahn witnessed firsthand The final chapters cover the civil war which ended with Chairman Mao s formation of the People s Republic of China and Chiang Kai shek s retreat to Taiwan With an insider s knowledge of Chinese culture and the politics Hahn delivers a sharply observant book that illuminates an unforgettable era in China s tumultuous past The Rise of the West William H. McNeill,2024-05-31 The most stimulating and fascinating book that has ever set out to recount and explain the whole history of mankind H R Trevor Roper The New York Times Book Review The Rise of the West winner of the National Book Award for history in 1964 is famous for its ambitious scope and intellectual rigor In it McNeill challenges the Spengler Toynbee view that a number of separate civilizations pursued essentially independent careers and argues instead that human cultures interacted at every stage of their history The author suggests that from the Neolithic beginnings of grain agriculture to the present major social changes in all parts of the world were triggered by new or newly important foreign stimuli and he presents a persuasive narrative of world history to support this claim In a retrospective essay titled The Rise of the West after Twenty five Years McNeill shows how his book was shaped by the time and place in which it was written 1954 63 He discusses how historiography subsequently developed and suggests how his portrait of the world s past in The Rise of the West should be revised to reflect these changes The most lucid presentation of world history in narrative form that I know

While the story leads up to the predominance of the West in the modern age it also takes full account of the expansion of civilization eastwards as well as westwards from its birthplace in the Fertile Crescent I am sure that anyone who reads this book will gain from it a greater insight into the long and complicated historical process that has resulted in the world in which we are living today Arnold Toynbee author of A Study of History The Russian Far East Irina V.
