Sexual Culture in

Germany in the 1970s Janin Afken, Benedikt Wolf, 2019-12-11 This book is the first attempt to present a comprehensive picture of LGBT culture in the two German states in the 1970s Starting from the common view of the decade between the moderation of the German anti sodomy law in 1968 East and 1969 West and the first documented case of AIDS 1982 as a golden age for queer politics and culture this edited collection traces the way this impression has been shaped by cultural production The chapters ask What exactly made the 1970s a legendary decade What was its revolutionary potential and what were its path breaking political and aesthetic strategies Which elements movements and memories had to be marginalized in order to facilitate the historical construction of the legendary decade Exploring the complex picture of gay lesbian and to a lesser extent trans cultures from this time the volume provides fascinating insights into both canonized and marginalized texts and films from and about the decade

Not So Plain as Black and White Patricia M. Mazón, Reinhild

Steingröver, 2005 After World War II brown babies were born to African American GIs stationed in Germany and German mothers Today there are 500 000 Afro Germans in Germany out of a population of 80 million Nevertheless German society still sees them as foreigners assuming they are either African or African American but never German As editors Patricia Mazon and Reinhild Steingrover argue the experience of Afro Germans provides insight into contemporary Germany's transformation willing or not into a multicultural society Furthermore looking at Afro Germans allows us to see another dimension of the ideas of race that shaped the twentieth century and led to the Holocaust Jacket

Macmillan's German Idioms Myra Taker, 1900

Hitler's Black Victims Clarence Lusane, 2004-11-23 Drawing on interviews with the black survivors of Nazi concentration camps and archival research in North America Europe and Africa this book documents and analyzes the meaning of Nazism's racial policies towards people of African descent specifically those born in Germany England France the United States and Africa and the impact of that legacy on contemporary race relations in Germany and more generally in Europe The book also specifically addresses the concerns of those surviving Afro Germans who were victims of Nazism but have not generally been included in or benefited from the compensation agreements that have been developed in recent years

Colors 1800/1900/2000, 2016-08-09 By recasting instances of German cultural production around the turns of centuries 1800 1900 2000 the essays in this volume examine the role that color has played in perceiving and representing ethnic difference In innovative essays literary scholars historians anthropologists and art historians support an overarching thesis that the origins of a modern ethnic imagination inscribe patterns of seeing whereas more recent developments involve processes of de colorization and metaphorization By preserving the difference in disciplinary approaches methods and writing styles the volume presents a genuinely interdisciplinary approach to German Studies and is therefore of interest to Germanists as well as to all others engaged in the study and scholarship of German Culture

Karl Blattner, 1914 **African Diasporas in the New and Old Worlds**, 2021-11-01 In the humanities the term diaspora recently emerged as a promising and powerful heuristic concept It challenged traditional ways of thinking and invited reconsiderations of theoretical assumptions about the unfolding of cross cultural and multi ethnic societies about power relations frontiers and boundaries about cultural transmission communication and translation The present collection of essays by renowned writers and scholars addresses these issues and helps to ground the ongoing debate about the African diaspora in a more solid theoretical framework Part I is dedicated to a general discussion of the concept of African diaspora its origins and historical development Part II examines the complex cultural dimensions of African diasporas in relation to significant sites and figures including the modes and modalities of creative expression from the perspective of both artists writers and their audiences finally Part III focusses on the resources collections and archives and iconographies that are available today As most authors argue the African diaspora should not be seen merely as a historical phenomenon but also as an idea or ideology and an object of representation By exploring this new ground the essays assembled here provide important new insights for scholars in American and African American Studies Cultural Studies Ethnic Studies and African Studies The collection is rounded off by an annotated listing of black autobiographies *Routledge Handbook of Character Assassination and Reputation Management* Sergei A. Samoilenko, Martijn Icks, Jennifer Keohane, Eric Shiraev, 2019-12-05 In modern politics as well as in historical times character attacks abound Words and images like symbolic and psychological weapons have sullied or destroyed numerous reputations People mobilize significant material and psychological resources to defend themselves against such attacks How does character assassination work and when does it not Why do many targets fall so easily when they are under character attack How can one prevent attacks and defend against them The Routledge Handbook of Character Assassination and Reputation Management offers the first comprehensive examination of character assassination Moving beyond studying corporate reputation management and how public figures enact and maintain their reputation this lively volume offers a framework and cases to help understand critically analyze and effectively defend against such attacks Written by an international and interdisciplinary team of experts the book begins with a theoretical

introduction and extensive description of the five pillars of character assassination 1 the attacker 2 the target 3 the media 4 the public and 5 the context The remaining chapters present engaging case studies suitable for class discussion These include Roman emperors Reformation propaganda the Founding Fathers defamation in US politics women politicians autocratic regimes European leaders celebrities nations Internet campaigns This handbook will prove invaluable to undergraduate and postgraduate students in communication political science history sociology and psychology departments It will also help researchers become independent critical and informed thinkers capable of avoiding the pressure and manipulations of the media Decolonizing German and European History at the Museum Katrin Sieg, 2021-12-06

Decolonizing German and European History at the Museum examines efforts by European museums to investigate colonialism as part of an unprocessed past confront its presence and urge repair A flurry of exhibitions and the overhaul of numerous large museums in the last decade signal that an emergent colonial memory culture is now reaching broader publics Exhibitions pose the question of what Europeans owe to those they colonized Decolonizing German and European History at the Museum shows how museums can help visitors mourn historic violence and identify the contemporary agents beneficiaries victims survivors and resisters of colonial presence At the same time the book treats the museum as part of the racialized power relations that activists academics and artists have long protested against This book asks whether museums have made the dream of activists academics and artists to build equitable futures more acceptable and more durable or whether in packaging that dream for general audiences they curtail it Confronting colonial violence this book argues pushes Europeans to face the histories of racism and urges them to envision antiracism at the global scale Becoming Black Michelle M. Florvil, 2020-12-28 In the 1980s and 1990s Black German women began to play significant roles in challenging the discrimination in their own nation and abroad Their grassroots organizing writings and political and cultural activities nurtured innovative traditions ideas and practices These strategies facilitated new often radical bonds between people from disparate backgrounds across the Black Diaspora Tiffany N Florvil examines the role of queer and straight women in shaping the contours of the modern Black German movement as part of the Black internationalist opposition to racial and gender oppression Florvil shows the multifaceted contributions of women to movement making including Audre Lorde s role in influencing their activism the activists who inspired Afro German women to curate their own identities and histories and the evolution of the activist groups Initiative of Black Germans and Afro German Women These practices and strategies became a rallying point for isolated and marginalized women and men and shaped the roots of contemporary Black German activism Richly researched and multidimensional in scope *Mobilizing Black Germany* offers a rare in depth look at the emergence of the modern Black German movement and Black feminists politics intellectualism and internationalism *New Paradigm Shifts in Literature through Poetry's Transcendence of Boundaries* Yasser K. R. Aman, 2025-03-05 This book proves that when science and literature especially poetry enact and interact with each other transdisciplinary fields are created and new knowledge building practices are produced The discussions of interconnections between poetry on the one hand and physics biology biochemistry and pharmacology on the other hand stress that common ground can be found among diverse disciplines and transdisciplinary solutions can be offered to wicked problems The relation between science and transdisciplinarity and other knowledge systems including arts and literature should be supported Novel thinking mixing and merging disciplines creating a third space and realizing new findings should relate academy to society Therefore researchers and transdisciplinarians should focus on the power that can reshape the world transcending traditional academic confines Raising questions that can lead to deeply philosophical and scientific disputes develops solutions for wicked problems and creates an ongoing encounter on all solutions There should be a remapping of societal landscape so that transdisciplinarity yields fruitful results and leaves a formative impact on every aspect of life *The demolition* Helmuth Wolters, 2023-10-04 The world is facing a crisis of unimagined proportions Climate collapse and Corona are presenting us with challenges that could not even have been imagined just a few years ago Terms like debt brake or black zero seem out of time While the world is hunting for a vaccine long suppressed grievances suddenly become visible We are accustomed to a world of waste and prosperity and hardly notice that in Germany eight percent of farms manage more than half of all agricultural land and thus

also collect the lion's share of EU subsidies Unequal distribution of wealth and the devaluation of savings play into the hands of the political elites and produce ever greater dependencies

African Diasporas Aija Poikâne-Daumke, 2006 This book investigates the development of Afro German literature in the context of the African American experience and shows the decisive role of literature for the emergence of the Afro German Movement Various Afro German literary and cultural initiatives which began in the 1980s arose as a response to the experience of being marginalized to the point of invisibility within a dominant Eurocentric culture that could not bring the notions of Black and German together in a meaningful way The book is a significant contribution to the understanding of German literature as multi ethnic and of the transatlantic networks operating in the African Diasporas
