Farewell To Arms Russias Struggle With Defense Conversion:

Cooperative Threat Reduction DIANE Publishing Company,1997 Reviews the DoD program to help convert defense industries in the former Soviet Union to commercial enterprises DoD had undertaken 20 conversion projects and the Defense Enterprise Fund DEF had completed agreements to undertake 4 projects This report assesses the effect of defense conversion efforts on the elimination or reduction of military activities and production capabilities in former Soviet weapons of mass destruction enterprises the status of defense conversion projects and funding and conformance of the DEFs management practices to its grant agreement and the Fund s operating expenses Includes update to Sep 97 Beyond Nunn-Lugar: Curbing the next Wave of Weapons, Proliferation Threats from Russia ,2002 The chapters in this book were originally commissioned by the Nonproliferation Policy Education Center NPEC as part of a study on the future of U S Russian nonproliferation cooperation This book is different from other studies of U S Russian cooperation because it relies on competitive strategies which detail how best to pit one s strengths against a competitor s weaknesses in a series of moves and countermoves The goal is to devise strategies that force one s competitor to spend more time and resources shoring up his weaknesses than in taking offensive action **RUSSIA'S FAR EAST (p)** , In their introduction the authors bring the textiles to life by examining who made them how ideas travelled across the continent and the significance of pattern and symbolism In addition all the principal techniques are explained while brief commentaries highlight the design features Whether you are interested in graphic design or technical detail this inspiring book will be the first to open your eyes to a previously unexplored aspect of Africa BOOK JACKET *The Dynamics of Russian Weapon Sales to China* Stephen Blank,1997 Russia has recently sold or transferred many military weapons or technologies to China Russian state policy has also officially joined with China in a relationship described as a strategic cooperative partnership Some Russian diplomats also say that there is virtually complete identity with China on all issues of Asian and global security Dr Stephen Blank examines this relationship carefully for what it reveals about both states international security policies **The Russian Military** Steven E. Miller,Dmitri Trenin,2004-08-27 Russian military capacity remains a major consideration for global security even in the post Soviet era This book assesses today s Russian military and analyzes its possible future direction The contributors experts on the subject from both Russia and the West consider not only how Russia has built its military capacity but also the policies and doctrines that have shaped Russia s defense posture They discuss such topics as the downsizing of the Russian military Russia s use of military power in regional conflicts and the management of Russia s nuclear weapons For more than a decade Russian leaders have struggled to formulate security and defense policies that protect Russia s borders and project Russia s influence The contributors to *The Russian Military* find that the choices Russian leaders have made have been significantly influenced by the military reforms Russia has attempted to implement since the collapse of the Soviet Union The protracted and intense debate over military reform has been and will continue to be decisive in shaping Russian

military capacity **From Defense to Development?** Sean M. DiGiovanna, Ann Markusen, 2003-09-11 This book tracks the progress of 12 countries on five continents in moving resources from defense to civilian activity in the 1990s Based on intensive research it addresses each country with an impressive standard of scholarship *The Political Economy of Post-Soviet Russia* V. Tikhomirov, 2000-05-15 This book deals with general political and economic developments that took place in Russia since the collapse of the Soviet Union The major aim of the book is to analyse successes and failures of Russian reform attempts as well as their effect on the development of Russian regions particularly from the point of view of interrelation between socio economic tendencies and political developments Analysis concentrates on both national dynamics and dynamics of development in three main groups of regions mining agricultural and manufacturing *The Destruction of the Soviet Union* D. Lockwood, 2015-12-22 Is there a link between the collapse of the Soviet Union the radical reforms in China and Vietnam and the current crisis in East Asia David Lockwood argues that the common factor in each is the crisis of state controlled economies besieged by the developing forces of globalization This book examines the collapse of the Soviet Union not as the end of history or the beginning of a new world order but as an illustration of processes that are taking place the world over The author concludes that it was globalization that brought down the communist system Globalization continues to threaten state controlled economies from the remaining socialist state to the NICs of East Asia **Russian Nationalism Since 1856** Astrid S. Tuminez, 2000 This thoughtful book describes the range of nationalist ideas that have taken root in Russia since 1856 Drawing on a wide range of archival documents and unparalleled interview material from the post Soviet period Tuminez analyzes two cases_ Russian panslavism in 1856 1878 and great power nationalism in 1905 1914_ when aggressive nationalist ideas clearly influenced Russian foreign policy and contributed to decisions to go to war Yet not all forms of nationalism have been malevolent and the author assesses competing nationalist ideologies in the post Soviet period to clarify the conditions under which a particularly belligerent nationalism could flourish and influence Russian international behavior **Bandits, Gangsters and the Mafia** Martin McCauley, 2014-06-06 During the 1990s the roving bandits big business or the oligarchs stole Russia They gained influence over President Yeltsin and his government and gradually shaped policy in their own interests In this first comprehensive account to explain why Russia took the course it did Martin McCauley examines the period through the prism of government including Yeltsin s shadow government and looks at the military police security and intelligence services Relations between Moscow and the regions industry agriculture social policy and foreign policy are also explored *A Farewell to Arms?* Kevin P. O'Prey, 1995 In this book Kevin P O Prey defines conversion in the broadest sense as reallocation of human physical and financial resources to civilian pursuits The author makes clear that too often a more limited conception such as transforming factories or production lines leads to faulty policymaking and practical frustration **Towards New Global Strategies: Public Goods and Human Rights** Erik André Andersen, Birgit Lindsnaes, 2007-08-31 This book aims to contribute to the debate on global public goods a debate which has

been taking place for some time in the UN and the World Bank among the regional development banks and bilaterally among states and donors There is a need for new visions and strategies and to examine global infrastructure on the basis of the idea that global public goods including human rights contribute to cohesion at local regional and international levels The book investigates the possibilities and disadvantages of applying the idea of public goods in a global context It explains the history of the concept and its significance for human rights The authors include in addition to academics representatives from public institutions civil society organizations independent consultants the media and the private sector

Cascade of Arms

Andrew J. Pierre, 1997-11-01 With the post cold war emphasis on the proliferation of weapons of mass destruction the neglected dimension has been the spread of advanced conventional arms Yet these are the arms most likely to be used in conflict They present the greatest diversion from economic and social development and are the centerpiece of regional security balances This book examines the policies and practices of the major arms supplying nations looks at the impact of weapons purchases on the principal recipient regions and the possibilities for regional arms control and dissects the economics of arms exports for the producer nations in both the developing and industrialized worlds The book thoroughly discusses the opportunities for and obstacles to achieving multilateral restraint on arms In addition to the editor contributors are Ian Anthony Stockholm International Peace Research Institute Nicole Ball Overseas Development Council Julian Cooper University of Birmingham Lawrence Freedman and Martin Navias King s College London Rodney Jones Policy Architects International Ethan Kapstein University of Minnesota Michael Klare Five College Program in Peace and World Security Studies Andrew Mack Australian National University Abdel Monem Said Aly Center for Political and Strategic Studies Cairo Janne Nolan Brookings Institution Andrew Ross Naval War College Gerald Segal International Institute for Strategic Studies and Gerald Steinberg Bar Ilan University Israel Copublished with the World Peace Foundation

Why Russian Policy is

Failing in Asia Stephen Blank, 1997 Since its inception as a state Russia has been both a European and an Asian power Although Russia today as was true during much of its history is torn by an identity crisis over where it belongs its elites have never renounced Russia s vital interests in Asia and the belief that it should be recognized as a great power there However that belief and Moscow s ability to sustain it are now under threat due as Dr Stephen Blank s thorough analysis informs us to the ongoing failures of Russian policymakers to come to grips with changed Russian and Asian realities At the same time this aspect of Russian policy has been neglected in American assessments of Russia This is a serious shortcoming because in Dr Blank s view Russia s Asian policies viewed in their full breadth are important signs of present and future trends concerning its behavior at home and in the wider world Those policies are also significant as Asia s importance in world affairs rises We ignore the threatening situation facing Russia and Moscow s failure to adjust to those threats only at our own peril The growing concern over Russian arms transfers to China a subject addressed in the study is only one sign of unexpected negative trends that might work against U S interests if we continue to neglect Asian aspects of Russia s global behavior and

policy **Weapons, Culture, and Self-interest** Kimberly Zisk Marten, 1997 How do powerful people react to revolutionary circumstances How quickly and effectively do elites adapt to and shape the structures of new social and political systems Zisk offers a detailed examination of the unexpected ways Russian defense industrialists have acted in the new market economy Bridging the gap between political economy and international security studies Zisk plunges into the debate of whether rational self interest or broader cultural norms explain behaviour best She focuses on three institutions that structured the Russian defense manager's working life in the 1992-95 transition era the large defence enterprises dating from Soviet times the webs of political authority spanning both local and national levels and the newly emerged market oriented spin off firms Bulletin of the Atomic Scientists, 1996-11 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world **Russia in Transition** Frank H. Columbus, 2003 Russia in Transition Volume 1 **Big Business In Russia** Jonathan A. Grant, 2010-11-23 Jonathan A Grant has written a highly original study of the Putilov works the most famous industrial conglomerate in the Russian Empire during the late nineteenth and early twentieth centuries With the emergence of a capitalist system in the Russian federation in the 1990s scholarly debate over the nature of Russian capitalism has been revived and with this study Grant issues a major challenge to the conventional wisdom on the nature of the Russian economy in the years before the Bolshevik revolution Grant argues that the Putilov Company which manufactured arms for the Russian state and a wide range of heavy industrial equipment for civilian use adopted business practices that resembled the experiences of large machinery and armaments manufacturers in Britain France the Austro-Hungarian Empire and Germany This interpretation runs directly counter to the traditional and widely held view that Russian capitalism was shaped by the tsarist state's orders and subsidies and that the tsarist system was incompatible with the development of modern capitalism Grant makes direct comparisons between Putilov and the famous western firm of Krupp and Vickers illustrating similar business decisions made by both companies in terms of diversification of the product line and a penchant for private as opposed to state markets for primary income Grant has gone beyond Soviet works on the Putilov plant examining archival documents of the company and offering critical comments on both Soviet and Western scholarship on Russian economic and social history from the perspective of this important industrial enterprise Grant not only repeatedly demonstrates that the Putilov firm responded effectively to the changing market for its wide range of industrial products but also shows that the tsarist regime provided far more of the systemic regularity needed for capitalist development than generally believed Grant's work is a significant contribution to this ongoing debate offering a much needed case study of Russian business history and a comparative study that extends across national boundaries Big Business in Russia is essential reading for graduate students in Russian and European history and will also appeal to American and European business leaders eager to understand the historical background of the current economic challenges

facing Russia *Alternative Theories of the State* S. Pressman, 2006-10-10 This book examines the role and function of the state in contemporary economics from a number of diverse economic perspectives including Austrian feminist institutionalist Marxian radical and Post Keynesian Naval Strategy in Northeast Asia Duk-Ki Kim, 2012-10-12 Over the past decade Northeast Asia has been dominated by quite significant strategic change which is ongoing and brings with it many uncertainties naval capabilities in Northwest Asia are instrumental in promoting maritime security interests helping to build a stable security environment through active participation in regional naval co operation This landmark book explores the region s maritime peace and stability and examines in depth the strategic military and apolitical issues that underpin any effort to develop maritime co operation
