Farin Dutse:

Farin Dutse Pierre Eugène Meunier, 2001 **Nigeria, Official Standard Names Approved by the United States Board on Geographic Names**, 1971 **Government In Kano, 1350-1950** M.G. Smith, 2021-11-28 This history of the African kingdom that included the famous trans Saharan trading city of Kano is the third in the late M G Smiths series of histories of the Hausa Fulani kingdoms in West Africa Combining the approaches of social anthropology and history Smith provides a fascinating account of this kingdoms complex political and administrative organization from medieval times to the threshold of Nigerian independence The book relies on written sources in Arabic Hausa and English but it is supplemented by in depth interviews with Fulani rulers and councilors who were intimately familiar with the organization of the Muslim emirate of Kano before the British arrived in 1903 In the final chapter Smith continues his analytical inquiry begun in his earlier books into the processes of change in political units Gazetteer - United States Board on Geographic Names United States Board on Geographic Names, 1971 Africa from the Sixteenth to the Eighteenth Century Bethwell A. Ogot, 1992 The result of years of work by scholars from all over the world The UNESCO General History of Africa reflects how the different peoples of Africa view their civilizations and shows the historical relationships between the various parts of the continent Historical connections with other continents demonstrate Africa s contribution to the development of human civilization Each volume is lavishly illustrated and contains a comprehensive bibliography This fifth volume of the acclaimed series covers the history of the continent from the beginning of the sixteenth century to the close of the eighteenth century in which two themes emerge first the continuing internal evolution of the states and cultures of Africa during this period second the increasing involvement of Africa in external trade with major but unforeseen consequences for the whole world In North Africa we see the Ottomans conquer Egypt South of the Sahara some of the larger older states collapse and new power bases emerge Traditional religions continue to coexist with both Christianity suffering setbacks and Islam in the ascendancy Along the coast particularly of West Africa Europeans establish a trading network which with the development of New World plantation agriculture becomes the focus of the international slave trade The immediate consequences of this trade for Africa are explored and it is argued that the long term global consequences include the foundation of the present world economy with all its built in inequalities My Favourite Poems: Poetry From The Pen Of A Nigerian Teenager Nahna James, 2022-09-30 The renowned Nahna James has written a five series poetry collection titled My Favourite Poems Poetry From The Pen Of A Nigerian Teenager This is his debut collection of poetry and prose It contains poems and essays on topics such as Nigeria love real feelings sexuality grief nudism bisexuality loss melancholy loneliness healing marginalisation self love unconditional love the power of letting go and the wisdom that develops when we make an effort to understand ourselves Many readers have referred to his writing as life changing healing and part of their every day ritual This book is a lovely reminder of the celebration of hope an encounter with grace a mending of the heart a healing of scars and a hymn of

liberation that one can always choose to transform themselves It s just up to you to make a decision **Annual Volume of the Laws of the Northern Region of Nigeria** Northern Region of Nigeria (Nigeria),Northern Region of Nigeria (Nigeria).,1960 **Textile Ascendancies** Elisha Renne,Saliyu Maiwada,2020-05-11 Until this century Northern Nigeria was a major center of textile production and trade Textile Ascendancies Aesthetics Production and Trade in Northern Nigeria examines this dramatic change in textile aesthetics technologies and social values in order to explain the extraordinary shift in textile demand production and trade Textile Ascendancies provides information for the study of the demise of textile manufacturing outside Nigeria The book also suggests the conundrum considered by George Orwell concerning the benefits and disadvantages of mechanical progress and digital progress for human existence While textile mill workers in northern Nigeria were proud to participate in the mechanization of weaving the tendency for the mechanization of the world represented by more efficient looms and printing equipment in China has contributed to the closing of Nigerian mills and unemployment Textile Ascendancies will appeal to anthropologists for its analyses of social identity as well as how the ethnic identity of consumers influences continued handwoven textile production The consideration of aesthetics and fashionable dress will appeal to specialists in textiles and clothing It will be useful to economic historians for the comparative analysis of textile manufacturing decline in the 21st century It will also be of interest to those thinking about global futures about digitalization and how new ways of making cloth and clothing may provide both employment and environmentally sound production practices **KANO** A.I. Tanko,2014-01-29 The study of African language pedagogy and use in the Diaspora was initiated in the 1960s as African countries attained independence from colonial powers In the continent the enthusiasm for the use of indigenous languages and scholarship has remained relatively moderate as scholars are conflicted in their loyalty to imperial languages The attitude towards the use of African languages by African leaders has also hampered scholars efforts to create and sustain the needed visibility for African languages around the world Needless to say the study of African languages is not only critical to the study of language theories but also important in changing Africa s overwhelming reliance on European languages to communicate with each other The reliance has not only affected the politics of the continent but also its economic wellbeing An analysis of the enormous developmental challenges facing the African continent will reveal that many of the economic social political and cultural challenges have major language components It can actually be said that the challenges of development in Africa are either outright language challenges or are language based More significantly at the social level in many parts of the continent African languages are now perceived as inadequate means of communication Language Pedagogy and Language Use in Africa discusses the importance of teaching and using of African languages in the African continent and beyond and provides illustrations of both their direct and indirect use a result of historical and contemporary contacts language planning policies and pedagogical concerns The book contributes to the on going discussion on the pedagogy promotion and use of African languages both on the continent and in the Diaspora
