Fastest Man On Earth:

The Fastest Man Alive Usain Bolt, 2012-08-14 A skinny kid from the Jamaican parish of Trelawny Usain Bolt's life changed in August 2008 when the Olympic men's 100 meter starter pistol was followed just 9.69 seconds later by his streak across the finish line and the first of his three gold medals was placed around his neck. In this illustrated celebration of his influences, background and career trajectory Bolt shares his story of growing up playing cricket and soccer and discovering that he could run fast very fast. He shares stories of his family, friends and the laidback Jamaican culture and reveals what makes him tick where he gets his motivation and where he takes his inspiration. He tells of the dedication and sacrifices required to get to the top and also discusses fast food, partying, music, fast cars and that signature lightning bolt pose. **The Fastest Men on Earth** Neil Duncanson, 2021-05-27 With an exclusive foreword by Usain Bolt, *The Fastest Men on Earth* tells the fascinating inside stories of the Olympic Men's 100m Champions. It takes just under ten seconds to run but the results of the Olympic men's 100 metres are etched forever into history. In *The Fastest Men on Earth* journalist Neil Duncanson tells the stories of the 25 athletes who've been crowned champions in the event and earned the coveted title of Fastest Man on Earth. Each chapter explores the fascinating, inspiring and occasionally tragic lives of these supremely talented sprinters as well as the intense drama of the record-breaking runs that wrote them into history. Immaculately researched and featuring exclusive interviews with several Olympic champions including a new conversation with Usain Bolt, *The Fastest Men on Earth* brings the stories of some of the greatest athletes of all time to life like never before. Ultimate Sports Heroes - Usain Bolt John Murray, 2017-07-13 Usain was confident. After all, he'd been rewriting the record books of athletics history for a decade. 9.58 seconds was all it took for Usain Bolt to blaze his way into the history books with a 100 metres world record that shocked the world. But when Usain was little, he preferred cricket to running. No one knew that the tall, skinny boy from a small town in Jamaica would go on to become The Lightning Bolt, the fastest man ever. Major Taylor Andrew Ritchie, 1996-02 World champion at 19. One of the first black athletes to become world champion in any sport. 1 mile record holder. American sprint champion in 1898, 1899, 1900. Triumphant tours of Europe and Australia. Victories against all European champions. Until now, a forgotten shadowy figure. Marshall Walter Major Taylor is here revealed as one of the early sports world's most stylish, entertaining and gentlemanly personalities. Born in 1878 in Indianapolis, the son of poor rural parents, Taylor worked in a bike shop until prominent bicycle racer Birdie Munger coached him for his first professional racing successes in 1896. Despite continuous bureaucratic and at times physical opposition, he won his first national championship two years later and became world champion in 1899 in Montreal. This beautifully illustrated, vividly narrated and scrupulously researched biography recreates the life of a great international athlete at the turn of the century. Based on ten years of research including extensive interviews with Major Taylor's 91-year-old daughter, this is the dramatic story of a young black man who, against prodigious odds, rose to fame and stardom in the tempestuous world of international professional bicycle racing a century ago.

Manthropology Peter McAllister,2010-10-26 Manthropology is the first of its kind Spanning continents and centuries it is an in depth look into the history and science of manliness From speed and strength to beauty and sex appeal to bravado and wit it examines how man today compares to his masculine ancestors Peter McAllister set out to rebut the claim that man today is suffering from feminization and emasculation He planned to use his skills as a paleoanthropologist and journalist to write a book demonstrating unequivocally that man today is a triumph the result of a hard fought evolutionary struggle toward greatness As you will see he failed In nearly every category of manliness modern man turned out to be not just matched but bested by his ancestors Stung McAllister embarked on a new mission If his book couldn t be a testament to modern male achievement he decided it would be a record of his failures Manthropology then is a globe spanning tour of the science of masculinity It kicks off in Ice Age France where a biomechanical analysis demonstrates that La Ferrassie 2 a Neanderthal woman discovered in the early 1900s would cream 2004 World Arm Wrestling Federation champion Alexey Voyevoda in an arm wrestle Then it moves on to medieval Serbia showing how Slavic guslar poets who were famously able to repeat a two thousand line verse after just one hearing would have destroyed Curtis Jackson aka 50 Cent in a battle rap Finally it takes the reader to the steaming jungles of modern equatorial Africa where Aka Pygmy men are such super dads they even grow breasts to suckle their children Now that s commitment For modern man the results of these investigations aren t always pretty But in its look at the history of men Manthropology is unfailingly smart informative surprising and entertaining
