Economic Reforms In Centrally Planned Economies And Their Impact On The Global Economy:

Economic Reforms in Centrally Planned Economies and Their Impact on the Global Economy United Nations. Department of International Economic and Social Affairs, 1990 *Comecon* J. J. Brine, 1992 Comecon or the Council for Mutual Economic Assistance was founded by Joseph Stalin in 1949 to counteract the Marshall Plan and reinforce the bonds between the Soviet Union and the people's democracies of Eastern Europe Other Soviet Bloc nations later joined Comecon and for forty years it dominated the trade policies of the Soviet Bloc and profoundly influenced their domestic economic development and relations with the West Comecon collapsed in 1991 after the countries of Eastern Europe rejected communism It was often compared with the West European Common Market but differed vastly in its aims structure powers and activities Its influence is a critical factor in assessing both the economic failures of the Soviet Bloc and the problems facing former member states as they make the transition to free market economies This detailed annotated bibliography is an essential guide to the extensive English language literature about Comecon from its founding until its demise Chapters cover Comecon's history structure and law socialist economic integration the organization's arrangements for international trade and finance environment natural resources and energy labor industry and agriculture science and technology Comecon like the rest of the Soviet Bloc collapsed suddenly but its legacy will color international relations and worldwide economic issues for years to come An understanding of its institutions mechanisms and policies remains vital in appreciating the economic organization of the former Soviet empire This bibliography will therefore be indispensable to policymakers economists historians and political scientists **China's Economic Reforms: Successes And Challenges** Peter Koveos, Yimin Zhang, 2023-01-19 In the last

To understand the dramatic collapse of the socialist order and the current turmoil in the formerly communist world this comprehensive work examines the most important common properties of all socialist societies János Kornai brings a life long study of the problems of the socialist system to his explanation of why inherent attributes of socialism inevitably produced inefficiency In his past work he has focused on the economic sphere maintaining consistently that the weak economic performance of socialist countries resulted from the system itself not from the personalities of top leaders or mistakes made by leading organizations and planners This book synthesizes themes from his earlier investigations while broadening the discussion to include the role of the political power structure and of communist ideology Kornai distinguishes between two types or historical phases of socialism The classical socialism of Stalin Mao and their followers is totalitarian and brutally repressive but its components fit together and make up a coherent edifice Associated with names like Tito Khrushchev Deng Xiaoping and Gorbachev reform socialism relaxes repression but brings about a sharpening of inner contradictions and the eventual dissolution of the system Kornai examines the classical system in the first half of the book

and moves on to explore the complex process of reform in the second half The Socialist System is addressed to economists in the first place but also to political scientists sociologists and historians In addition it will appeal to policymakers business analysts and government officials who need to understand either formerly or presently communist countries **Brazil in the Uruguay Round of the GATT** Ricardo Wahrendorff Caldas,2018-12-14 First published in 1998 this volume analyses Brazil s strategy in the Uruguay Round focusing on the issue of services Three different moments were chosen for analysis The first was during discussions before the launch of the Uruguay Round During this period Brazil led the Less Developed Countries LDCs in obstructing the inclusion of services on the agenda The Second was during the launch of the Uruguay Round when Brazil persisted with this policy This second period is referred to as the initial position of Brazil in the Uruguay Round The third was Montreal in 1988 when Brazil supported the principles which guided an agreement on services After this turning point Brazil s position in the Round was increasingly supportive of an agreement not only in services but in all fields **Agricultural Policy Reform** Wayne Moyer,Tim Josling,2017-11-22 This title was first published in 2002 This engaging work examines the interplay between US and EU agricultural trade policy reforms as well as the linkage between domestic and trade policy reform and addresses whether reform is likely to continue during the first decade of the 21st Century Features include Comprehensive overview of the interplay between domestic and international agricultural policy reform Detailed analysis of the paradigm shift in policy Vigorous discussion of the potential impact of emerging issues such as GMOs intellectual property rights animal and plant health and human safety The book offers a rich empirical account of politics and diplomacy over the last decade providing an important background for explaining forthcoming agricultural policy debates in the US the EU and agricultural policy negotiations in the WTO **FROM RETROECONOMICS TO SANCTIONOMICS: ESSAYS ON UNCONVENTIONAL ECONOMICS** Vladimer Papava,2024-12-04 A wide ranging stimulating and unconventional set of essays on the state of economics and economic policy Everyone will find something of interest in these reflections DANI RODRIK Professor of International Political Economy Harvard s John F Kennedy School of Government Harvard University President of the International Economic Association USA A wide ranging group of essays on current issues of economic policy informed by theory and enlightened by the perspective of an astute observer in post Soviet Georgia with excellent views facing both East and West JAMES K GALBRAITH Lloyd M Bentsen Jr Chair in Government Business Relations and Professor of Government The University of Texas at Austin USA Professor Vladimer Papava has lived through major upheavals such as a post socialist transition and a global financial crisis keeping an eye on the developments from his vantage point in Tbilisi Georgia The stimulating essays that have resulted from his observations collected in this volume share a heterodox stance one that showcases appreciation for and creative destruction of mainstream economics Economists and other social scientists will be introduced to novel promising approaches which themselves derive from an enviably wide ranging examination of the international literature Just as we learn in Professor Papava s essays how to avoid a
