A Strategic Understanding of UN Economic Sanctions Golnoosh Hakimdavar,2013-10-08 Economic Sanctions are increasingly used as a legal non military technique of combating abusers of international peace However it remains unclear how the success or failure of these sanctions is measured This book examines the seldom explored United Nations economic sanctions deliberation process and exposes systematic problems in the measurement of the success or failure of these sanctions Centering on the key concepts of peace and security the author brings the reader s attention to the discrepancies that exist in the process of decision making implementation and evaluation of UN imposed economic sanctions She engages international law and development methods to provide proof for the lack of consensus in measures of success and failure which in turn suggests that sanction implementation on a uniform domestic front are unattainable This thorough analysis concludes with suggestions for improving the sanctions process only to clear the path for negating them as a whole and suggest alternative non coercive measures for mitigating conflict situations and threats to peace and security **C. Fred Bergsten and the World Economy** Michael Mussa,2006-12-20 This engaging and informative book covers the range of issues on which C Fred Bergsten and the Peterson Institute have distinguished themselves over the last 25 years including trade liberalization exchange rate regimes international financial architecture debt economic sanctions and the impact of technology and globalization Most of the Institute s senior research staff have contributed chapters which are both retrospective and prescriptive **Protection Against Genocide** Neal Riemer,2000-03-30 Without succumbing to utopian fantasies or realistic pessimism Riemer and his contributors call for strengthening the key institutions of a global human rights regime developing an effective policy of prudent prevention of genocide working out a sagacious strategy of keenly targeted sanctions political economic military judicial and adopting a guiding philosophy of just humanitarian intervention They underscore significant changes in the international system the end of the Cold War economic globalization the communications revolution that hold open the opportunity for significant if modest movement toward strengthening key institutions The essays explore key problems in working toward prevention of genocide They highlight the existence of considerable early warning of genocide and emphasize that the real problem is a lack of political will in key global institutions Sanctions especially economic sanctions may punish a genocidal regime but at the expense of innocent civilians Thus more clearly targeted sanctions are seen as essential The argument on behalf of a standing police force to deal with the crime of genocide as they show is powerful and controversial powerful because the need is persuasive controversial because political realists question its cost and political feasibility Implementing a philosophy of just humanitarian intervention requires an appreciation of the difficulties of interpreting those principles in difficult concrete situations A permanent

Sen,2024-06-11 The volume delves into the intricate web of contemporary permacrisis rooted in the strategic imperatives of nation states Through a historical lens it navigates the evolving landscape of international politics tracing the transition of power dynamics from purely military to a fusion of economic and military prowess The contributions in the volume argue that this shift has redefined the traditional balance of power with economic instruments emerging as potent tools for geopolitical manoeuvring Examining the interplay of geopolitical geoeconomic and security imperatives it scrutinises the complex relationships that often perpetuate crises instead of global stability It sheds light on the unprecedented hybridity of modern warfare where military and economic dimensions intertwine exemplified by the ongoing tensions between the liberal international order on the one hand and Russia and China on the other Recognising this complexity the volume raises concerns about the uneven capacity of states to navigate these imperatives Beneficial for specialists in International Relations and Strategic Studies policymakers security experts scholars and postgraduate students this comprehensive volume offers insights into the intricate dynamics of geopolitics political economy and security issues of our time **Naval**
