constraints of the mid nineteenth century reinventing themselves and their families in the process Nan Mullenneaux focuses on the personal and professional lives of more than sixty women who despite their diverse backgrounds each made complex conscious and unconscious compromises to create profit and power Mullenneaux identifies patterns of macro and micro negotiation and reinvention and maps them onto the waves of legal economic and social change to identify broader historical links that complicate notions of the influence of gendered power and the definition of feminism the role of the body embodiment in race class and gender issues the relevance of family history to the achievements of influential Americans and national versus inter and transnational cultural trends While Staging Family expands our understanding of how nineteenth century actresses both negotiated power and then hid that power it also informs contemporary questions of how women juggle professional and personal responsibilities achieving success in spite of gender constraints and societal expectations

Shakespeare and the Royal Actor Sally Barnden, 2024-01-22 Shakespeare and the Royal Actor argues that members of the royal family have identified with Shakespearean figures at various times in modern history to assert the continuity legitimacy and national identity of the royal line It provides an account of the relationship between the Shakespearean afterlife and the royal family through the lens of a broadly conceived theatre history suggesting that these two hegemonic institutions had a mutually sustaining relationship from the accession of George III in 1760 to that of Elizabeth II in 1952 Identifications with Shakespearean figures have been deployed to assert the Englishness of a dynasty with strong familial links to Germany and to cultivate a sense of continuity from the more autocratic Plantagenet Tudor and Stuart monarchs informing Shakespeare's drama to the increasingly ceremonial monarchs of the modern period The book is driven by new archival research in the Royal Collection and Royal

Archives It reads these archives critically asking how different forms of royal and Shakespearean performance are remembered in the material holdings of royal institutions
