Fantastic Tales The Photography Of Nan Goldin:

Fantastic Tales Nan Goldin, Jonathan Weinberg, Joyce Henri Robinson, 2005 Published to accompany the exhibition held at the Palmer Museum of Art The Pennsylvania State University Pennsylvania 30 August 4 December 2005 Pennsylvania Academy of the Fine Arts Pennsylvania 17 December 2005 12 February 2006 **Snapshot Photography** Catherine Zuromskis, 2021-08-24 An examination of the contradictions within a form of expression that is both public and private specific and abstract conventional and countercultural Snapshots capture everyday occasions Taken by amateur photographers with simple point and shoot cameras snapshots often commemorate something that is private and personal yet they also reflect widely held cultural conventions The poses may be formulaic but a photograph of loved ones can evoke a deep affective response In *Snapshot Photography* Catherine Zuromskis examines the development of a form of visual expression that is both public and private Scholars of art and culture tend to discount snapshot photography it is too ubiquitous too unremarkable too personal Zuromskis argues for its significance Snapshot photographers she contends are not so much creating spontaneous records of their lives as they are participating in a prescriptive cultural ritual A snapshot is not only a record of interpersonal intimacy but also a means of linking private symbols of domestic harmony to public ideas of social conformity Through a series of case studies Zuromskis explores the social life of snapshot photography in the United States in the latter half of the twentieth century She examines the treatment of snapshot photography in the 2002 film *One Hour Photo* and in the television crime drama *Law and Order: Special Victims Unit* the growing interest of collectors and museum curators in vintage snapshots and the snapshot aesthetic of Andy Warhol and Nan Goldin She finds that Warhol's photographs of the Factory community and Goldin's intense and intimate photographs of friends and family use the conventions of the snapshot to celebrate an alternate version of family values In today's digital age snapshot photography has become even more ubiquitous and ephemeral and significantly more public But buried within snapshot photography's mythic construction Zuromskis argues is a site of democratic possibility **The Reclining Nude** Emma Wilson, 2019 This book a sensuous evocation of images of the reclining nude claims a female identified pleasure in looking Agn's Varda Catherine Breillat and Nan Goldin are reimagining images of female beauty display auto eroticism and intimacy The reclining nude is compelling for female identified artists in the ethically adventurous politically complex feminist issues it engages

Portraiture and Critical Reflections on Being Euripides Altintzoglou, 2018-05-11 This book analyzes the philosophical origins of dualism in portraiture in Western culture during the Classical period through to contemporary modes of portraiture Dualism the separation of mind from body plays a central part in portraiture given that it supplies the fundamental framework for portraiture's determining problem and justification the visual construction of the subjectivity of the sitter which is invariably accounted for as ineffable entity or spirit that the artist magically captures Every artist that has engaged with portraiture has had to deal with these issues and therefore with the question of being and identity **Queer**

Lens Paul Martineau, Ryan Linkof, 2025-06-24 Copiously illustrated Queer Lens explores the transformative role of photography in LGBTQ communities from the nineteenth century to the present day Photography's power to capture a subject representing reality or a close approximation has inherently been linked with the construction and practice of identity Since the camera's invention in 1839 and despite periods of severe homophobia the photographic art form has been used by and for individuals belonging to dynamic LGBTQ communities helping shape and affirm queer culture and identity across its many intersections Queer Lens explores this transformative force of photography which has played a pivotal role in increasing queer visibility Lively essays by scholars and artists explore myriad manifestations of queer culture both celebrating complex interpretations of people and relationships and resisting rigid definitions Featuring a rich selection of images including portraits of queer individuals visual records of queer kinship and documentary photographs of early queer groups and protests this volume investigates the medium's profound role in illuminating the vibrant tapestry of LGBTQ communities This volume is published to accompany an exhibition on view at the J Paul Getty Museum at the Getty Center from June 17 to September 28 2025

Hide/Seek Jonathan D. Katz, David C. Ward, 2010-11-02 An entirely new interpretation of modern American portraiture based on the history of sexual difference Hide Seek Difference and Desire in American Portraiture companion volume to an exhibition of the same name at the National Portrait Gallery Smithsonian Institution traces the defining presence of same sex desire in American portraiture through a seductive selection of more than 140 full color illustrations drawings and portraits from leading American artists Arcing from the turn of the twentieth century through the emergence of the modern gay liberation movement in 1969 the tragedies of the AIDS epidemic and to the present Hide Seek openly considers what has long been suppressed or tacitly ignored even by the most progressive sectors of our society the influence of gay and lesbian artists in creating American modernism Hide Seek shows how questions of gender and sexual identity dramatically shaped the artistic practices of influential American artists such as Thomas Eakins Romaine Brooks Marsden Hartley Georgia O'Keeffe Charles Demuth Jasper Johns Robert Rauschenberg Andrew Wyeth Andy Warhol Robert Mapplethorpe and many more in addition to artists of more recent works such as Felix Gonzalez Torres Glenn Ligon Catherine Opie and Cass Bird The authors argue that despite the late nineteenth century definition and legal codification of the homosexual in reality questions of sexuality always remained fluid and continually redefined by artists concerned with the act of portrayal In particular gay and lesbian artists of but not fully in the society they portrayed occupied a position of influential marginality from which vantage point they crafted

innovative and revolutionary ways of painting portraits Their resistance to society's attempt to proscribe them forced them to develop new visual vocabularies by which to code disguise and thereby express their subjects' identities and also their own Bringing together for the first time new scholarship in the history of American sexuality and new research in American portraiture *Hide Seek* charts the heretofore hidden impact of gay and lesbian artists on American art and portraiture and creates the basis for the necessary reassessment of the careers of major American artists both gay and straight as well as of portraiture itself

AIDS and Representation Fiona Johnstone, 2023-05-18 *AIDS Representation* explores portraits and self-portraits made in response to the AIDS epidemic in America in the 1980s and 1990s Addressing the work of artists including Mark Morrisroe Robert Blanchon and Felix Gonzalez Torres through the interrelated themes of sickness and mortality desire and sexual identity love and loss Fiona Johnstone shows how the self-representational practices of artists with HIV and AIDS offered a richly imaginative response to the limitations of early AIDS imagery Johnstone argues that the AIDS epidemic changed the very nature of visual representation and artistic practice necessitating a radical new approach to conceptualising and visualising the human form An extended epilogue considers the ongoing art historicization of the epidemic re-contextualising the book's themes in relation to contemporary photographic works More than just a historical discussion of the art of the AIDS crisis *AIDS and Representation* contributes to an emergent body of scholarship on the visual representation of illness Expanding the established genre of the autopathography or illness narrative beyond the predominantly textual this important contribution to art history and health humanities sensitively unpicks the entanglements between aesthetic form and the expression of lived experiences of critical and chronic ill health

Between Two Deaths Ellen Blumenstein, 2007 In the continual disappointment of failed political and social utopias the 60s and the Eastern Bloc come to mind artists like everyone else often find themselves indulging melancholic nostalgia *Between Two Deaths* collects work addressing those feelings of uneasiness and loss critical artistic reflections on the political social and cultural trends towards regret and retrospection The assembled work observes conservative cultural debates stagnation regression fear insecurity lethargy and nostalgia not with censure but with interest with curiosity about these feelings and about the cynical pessimism or oft-prescribed optimism that follows With contributions from Bas Jan Ader Sebastian Diaz Morales Elin Hansdottir Jutta Koether Javier Tellez and Mark Titchner Harry Dodge Sue de Beer Stanya Kahn Brock Enright and Barnaby Furnass

Die fotografische Wirklichkeit Lars Blunck, 2014-03-15 Wie verhalten sich Fotografie und Wirklichkeit zueinander Eine landläufige Annahme verleitet dazu Fotos bloß als indexikalische Lichtspuren einer bildvorgängigen Wirklichkeit als Abbilder der Wirklichkeit zu begreifen Dabei geraten die spezifischen Produktions-Gebrauchs- und Wirkungsweisen von Fotografie aus dem Blick So zeigen sich im weiten Feld des Fotografischen Phänomene für deren
