The Eye Test Chris Jones, 2022-01-11 In a world increasingly ruled by numbers and algorithms award winning journalist Chris Jones makes a compelling case for a more personal approach to analytical thinking THE EYE TEST is a necessary course correction a call for a more balanced personal approach to problem solving Award winning journalist Chris Jones makes the case for the human element for what smart practiced devoted people can bring to situations that have proved resistant to analytics Jones shares what he's learned from an army of extraordinary talents including some of the best doctors executives athletes meteorologists magicians designers astrophysicists and detectives in the world There are lessons in their mastery Of course there is a place for numbers in decision making No

baseball player should be judged by his jawline But the analytics revolution sparked by Michael Lewis's *Moneyball* now threatens to replace one kind of absurdity with another We have developed a blind faith in the machine the way a driver overly reliant on his GPS might be led off the edge of a cliff Not all statistical analysis is sound Algorithms aren't infallible and spreadsheets aren't testaments Trust in them too much and they risk becoming instruments of destruction rather than understanding Worse data's supremacy in our daily lives has led to a dangerous strain of anti expertise the belief that every problem is a math problem and anyone given access to the right information will find the right answer That taste doesn't matter experience doesn't matter creativity doesn't matter That we can't believe our eyes no matter how much they've seen THE EYE TEST serves as a reminder that if beauty is less of a virtue in the age of analytics a good eye still is This book is a celebration of our greatest beholders and an absorbing inspiring guide for how you might become one too **Interrogator**

Neetha Kunaratnam interrogates his experience of being Asian in a Caucasian context and that of his children growing up with dual Cauc asian heritage There are poems here that consider the links between colonialism plunder and ecological collapse while others ponder the ethics of killing a mosquito or the status of a B Q Buddha all as attentive to the world's minutiae as to the global challenges we face **Dreamwalkers** Sooz Parnam-Harris,2009-07-23 Have you ever wondered

what happens in your dreams after you wake up For some of us the journey begins when we close our eyes *Shaping the City* Rodolphe El-Khoury,Edwards Robbins,2015-06-23 Taking on the key issues in urban design *Shaping the City* examines the critical ideas that have driven these themes and debates through a study of particular cities at important periods in their development As well as retaining crucial discussions about cities such as Los Angeles Atlanta Chicago Detroit Philadelphia and Brasilia at particular moments in their history that exemplified the problems and themes at hand like the mega city the post colonial city and New Urbanism in this new edition the editors have introduced new case studies critical to any study of
