The wisdom and knowledge that Judy has learned from her experience with cancer can be our guide and coach. Bernie Siegel MD Author of Love Medicine Miracles and The Art of Healing. Dancing with Cancer focuses on the creation of a positive and proactive mindset with which to face the specific challenges and stages of cancer. It combines the author's own experience of using what she calls Thought Work including creative self-expression, healing energy work and meditation with conventional cancer treatment in order to connect her intentions for healing to the everyday reality of a diagnosis of incurable bone marrow cancer. The book offers guidance and inspiration not only to cancer sufferers as they undergo the various stages of treatment but also to those supporting them enabling them to understand better the experience of the cancer patient as well as the possibilities of mind/body empowerment. Part I allows the reader to gain inspiration and reassurance from Judy's personal cancer story as well as put into practice her Thought Work suggestions which include revelatory questionnaires and journaling creative exercises such as drawing healing mandalas and guided meditations. Part II gives a more detailed description of the Thought Work tools including instructions for setting healing intentions for using mindful breathing and for cultivating an attitude of gratitude as well as meditations for a range of cancer situations and step by step instructions for creating artworks. Throughout the book are examples of Judy's own transformative artworks which she offers along with the reminder that any creative self-expression can be healing it is not the outcome but the physical process of doing that matters enabling multi-level transformation.

INVITATION Lestari Ambar Sukesti, 2014-10-20 Understanding grammar does not guarantee speaking or making utterances appropriately Cohen 1996 Thomas 1983 As pragmatics differs from one culture to other second or foreign language learners should acquire the sociopragmatics and pragmalinguistic rules of the foreign or second language to enable them to make communication effectively with native speakers Miscommunication often occurs due to incident that people make use of the rules of their native pragmatics to express intention in other culture without realizing the difference between these two cultures Thomas 1983 Error in grammar could be tolerable but inappropriateness will affect the communication outcomes The conversation may lead to an awkward situation which is not realized by the learners of the language Invitation is a part of speech acts which reflects the actualization of an illocutionary intention of a speaker through utterances either spoken or written The speech act of invitation emerges when someone asks somebody else to attend to a kind of occasion usually the one that is hosted by the inviter Suzuki's findings in his research on making invitation by native American undergraduate students describe 2 different strategies namely Want W and asking for Willingness AW however based on the writer's findings in her research on interlanguage pragmatics of invitation by Indonesian EFL learners there are three more strategies in making invitation namely Performative P Imperative I and Hoping H Gender also influences in making inviting strategies based on social status and familiarity including the use of deference or solidarity markers Male participants use more various solidarity markers especially when the invitation is addressed to female invitees It might happen as male participants try to touch the invitee emotionally and keep close to the invitees Both male and female participants tend to be verbose The more descriptors in the scenarios the more explanations the participants use in inviting others However the most significant finding is that female participants are said to adopt more performative P and hoping strategy H in all situations Female participant is considered expectant to the invitation to be fulfilled by the invitees The contribution of distance power and rank of imposition to the way the participants elicit their politeness strategies was also found in this study When there is a distance between the inviter and the invitee the participants make different ways in making inviting strategies However in the realm of pragmalinguistics the participants cannot differentiate the use of neutral and polite strategies while addressing the invitation to higher level of the invitees It is found out in the use of willingness neutral and imperative strategies by the participants to invitees who are of higher status It might be due to the lack of pragmatics knowledge of the participants toward the language
