Report of the American Assembly Economic Issues and the President: 1980 and Beyond, *Today's Economic Issues* Nancy S. Lind, Erik T. Rankin, Gardenia Harris, 2016-08-15

What are the real differences between the Democrats and the Republicans on major economic issues that influence the character and vitality of the American economy? This volume answers this question in a thorough nonpartisan and evenhanded fashion. Both the Democratic and Republican parties proclaim that they have the best interests of the nation and its people at heart. Both are also adamant that they have the best proposals and positions on economic policies, including taxation, spending, priorities, wages, business regulation, and other influences on economic growth and household finances. This volume carefully examines the two parties' respective policies, providing a detailed yet readable and understandable look at how the parties agree, disagree, and find compromise on the broad range of problems and issues facing American society in the 21st century. Each entry includes an infographic that offers bulleted at a glance summaries of the two parties' positions on each issue, today, an Issue Overview providing basic definitions and background for understanding the debate on each issue, and a main entry that explains prevailing party sentiments, the diversity of opinion within each party, and the shifts in party position on that issue over time. Selected entries also feature informative sidebars that supply additional content such as primary documents that showcase the viewpoints of key political figures and institutions or biographical profiles of individuals who have helped shape their party's policies on the issue in question.
