Economics for Everybody Gerson Antell, 1994 Economics for the Rest of Us Moshe Adler, 2009-11-17 Vivid case studies Adler s frustration with wrongheaded economic thinking is as entertaining as it is thought provoking Publishers Weekly Why do so many contemporary economists consider food subsidies in starving countries rent control in rich cities and health insurance everywhere inefficient Why do they feel that corporate executives deserve no less than their multimillion dollar compensation packages and workers no more than their meager wages Here is a lively and accessible debunking of the two elements that make economics the science of the rich the definition of what is efficient and the theory of how wages are determined The first is used to justify the cruelest policies the second grand larceny Filled with lively examples from food riots in Indonesia to eminent domain in Connecticut and everyone from Adam Smith to Jeremy Bentham to Larry Summers Economics for the Rest of Us shows how today s dominant economic theories evolved how they explicitly favor the rich over the poor and why they re not the only or best options Written for anyone with an interest in understanding contemporary economic thinking and why it is dead wrong Economics for the Rest of Us offers a foundation for a fundamentally more just economic system Brilliant David Cay Johnston Pulitzer Prize winning and New York Times bestselling author of It s Even Worse Than You Think Economics for the People Richard Rogers Bowker, 1886 **Economics for Everbody** Hans Apel, 1955 *Good Economics for Hard Times* Abhijit V. Banerjee, Esther Duflo, 2019-11-12 The winners of the Nobel Prize show how economics when done right can help us solve the thorniest social and political problems of our day Figuring out how to deal with today s critical economic problems is perhaps the great challenge of our time Much greater than space travel or perhaps even the next revolutionary medical breakthrough what is at stake is the whole idea of the good life as we have known it Immigration and inequality globalization and technological disruption slowing growth and accelerating climate change these are sources of great anxiety across the world from New Delhi and Dakar to Paris and Washington DC The resources to address these challenges are there what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us If we succeed history will remember our era with gratitude if we fail the potential losses are incalculable In this revolutionary book renowned MIT economists Abhijit V Banerjee and Esther Duflo take on this challenge building on cutting edge research in economics explained with lucidity and grace Original provocative and urgent Good Economics for Hard Times makes a persuasive case for an intelligent interventionism and a society built on compassion and

respect It is an extraordinary achievement one that shines a light to help us appreciate and understand our precariously balanced world I.C.S.E. Economics for Class IX J.P. Goel,2020-02-01 **Economics for Executives** George Evans Roberts,1921 **Economics for the Common Good** Mark A Lutz,2002-11 This textbook presents an introduction to the central issues of social economics Building on a venerable social economics tradition the book recommends a more rational economic order and proposes new principles of economic policy The issues covered include the inadequacy of individualistic economics in guiding the policy maker a critique of economic rationality rethinking of the modern business corporation a critical look at markets as panacea the harmful effects of international competition environmental problems The book introduces social economic concepts and challenges the reader to look beyond the confines of mainstream economic thinking to find a solution to these critical issues Economics for Executives: Economics and the individual George E.
