*Economics, 12e* David Begg, Gianluigi Vernasca, 2019-12-11 Economics 12e      *Methodology for a New Microeconomics (Routledge Revivals)* Lawrence A. Boland, 2014-06-03 First published in 1986 this title argues that the successful development of a new microeconomics requires a deeper understanding of methodological individualism and its role in stability analysis Lawrence Boland expounds a critique of neoclassical models which he contends often fail to include an explicit stability analysis He demonstrates that much of the sophisticated theoretical literature over the past thirty years can be understood as ad hoc attempts to overcome the deficiencies of such models in the absence of cogent stability analyses In

conclusion he explains the need to update the theory taught at universities and to develop a truly individualist version of microeconomics that is consistent with the methodological principles of major neoclassical models An important contribution to economic methodology this work is a highly valuable resource for all students and teachers of economics at the undergraduate level

**Critical Economic Methodology** Lawrence Boland,2005-08-18 Lawrence Boland takes issue with both economic methodologists and practicing economists He argues that there has been too much methodology for methodology s sake and that mainstream economics might benefit by using methodology to take a critical look at economic theory

**Design after Capitalism** Matthew Wizinsky,2022-03-15 How design can transcend the logics structures and subjectivities of capitalism a framework theoretical grounding and practical principles The designed things experiences and symbols that we use to perceive understand and perform our everyday lives are much more than just props They directly shape how we live In Design after Capitalism Matthew Wizinsky argues that the world of industrial capitalism that gave birth to modern design has been dramatically transformed Design today needs to reorient itself toward deliberate transitions of everyday politics social relations and economies Looking at design through the lens of political economy Wizinsky calls for the field to transcend the logics structures and subjectivities of capitalism to combine design entrepreneurship with social empowerment in order to facilitate new ways of producing those things symbols and experiences that make up everyday life After analyzing the parallel histories of capitalism and design Wizinsky offers some historical examples of anticapitalist noncapitalist and postcapitalist models of design practice These range from the British Arts and Crafts movement of the nineteenth century to contemporary practices of growing furniture or biotextiles and automated forms of production Drawing on insights from sociology philosophy economics political science history environmental and sustainability studies and critical theory fields not usually seen as central to design he lays out core principles for postcapitalist design offers strategies for applying these principles to the three layers of project practice and discipline and provides a set of practical guidelines for designers to use as a starting point The work of postcapitalist design can start today Wizinsky says with the next project
