Farah and Southwestern Afghanistan Ludwig W. Adamec,1973      **Historical and Political Gazetteer of Afghanistan:**  
**Farah and Southwestern Afghanistan** India. Army. General Staff Branch,1973      *Farah and Southwestern Afghanistan*  
Ludwig W. Adamec,1973      *On the Ground in Afghanistan* Gerald Meyerle,Megan Katt,Jim Gavrilis,2012 Contains copyright material The case studies cover ten provinces in Afghanistan s south and east They describe the diverse conditions these units faced how they responded to these conditions what worked and what did not and the successes they achieved Some of the book s key themes include Dealing with a localized insurgency Navigating the political terrain Searching for political solutions Engaging the population and building popular support Using reconstruction funds Protecting the population Employing restraint in the use of force Finding the right balance between concentration and dispersion Maintaining continuity Operating with little strategic guidance      *War Comes to Garmser* Carter Malkasian,2013 Modeled on the classic Vietnam War book *War Comes to Long An* Carter Malkasian s *War Comes to Garmser* promises to be a landmark account of the long war in Afghanistan which has lasted with a few brief interludes of truce from 1979 to the present Garmser is a Pashtun district in the heart of Taliban country with about 150 000 people and the author Carter Malkasian served there for two years as a civilian official under the auspices of the US State Department Malkasian an Oxford trained historian who is fluent in Pashto places the primary focus on the Afghans experience rather than those of the various Russian American and British interlopers over the past three decades He is interested in the war that the Afghans fought not the one that Westerners fought and to that end takes readers into the world of the Pashtuns their feuds their grievances their beliefs and their way of life Two basic questions thread through his entire account is Afghanistan in fact ungovernable and are the coalition s efforts doomed to failure Many say that the situation is hopeless given widespread corruption and the thanklessness of the Afghan people However as Malkasian shows the situation is more complicated than that and the efforts put forth by the government and the coalition whether inspired or ill conceived matter It has been a village war and it is places like Garmser that provide us with the best window into it What does Garmser tell us While it is still too soon to tell it is the case that Garmser was relatively peaceful when the Taliban ruled the region Also and the US did have some success when the US surge of 2009 2010 occurred Still over the course of three decades war has been the one constant in life there When the time comes for Americans to judge whether the war in Afghanistan was a futile endeavor a time that will soon come given US plans to withdraw in 2013 14 they should focus on the places where the Taliban is most likely to reappear in force places like Garmser      *Water and Post-Conflict Peacebuilding* Erika Weinthal,Jessica J. Troell,Mikiyasu Nakayama,2014-02-24 Water is a basic human need and despite predictions of water wars shared waters have proven to be the natural resource with the greatest potential for interstate cooperation and local confidence building Indeed water management plays a singularly important role in rebuilding trust after conflict and in preventing a return to conflict

Featuring nineteen case studies and analyses of experiences from twenty eight countries and territories in Africa Asia Europe the Americas and the Middle East and drawing on the experiences of thirty five researchers and practitioners from around the world this book creates a framework for understanding how decisions governing water resources in post conflict settings can facilitate or undermine peacebuilding The lessons will be of value to practitioners in international development and humanitarian initiatives policy makers students and others interested in post conflict peacebuilding and the nexus between water management and conflict Water and Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six edited books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in this series address high value resources land livelihoods assessing and restoring natural resources and governance **Archaeological**

Morgan,Sarah Stewart,2017-11-16 The Mongol invasions in the first half of the thirteenth century led to profound and shattering changes to the historical trajectory of Islamic West Asia As this new volume in The Idea of Iran series suggests sudden conquest from the east was preceded by events closer to home which laid the groundwork for the later Mongol success In the mid twelfth century the Seljuq empire rapidly unravelled its vast provinces fragmenting into a patchwork of mostly short lived principalities and kingdoms In time new powers emerged such as the pagan Qara Khitai in Central Asia the Khwarazmshahs in Khwarazm Khorosan and much of central Iran and the Ghurids to the southeast Yet all were blown away by the Mongols who faced no resistance from a sufficiently muscular imperial competitor and whose influx was viewed by contemporaries as cataclysmic Distinguished scholars including David O Morgan and the late C E Bosworth here discuss the dynasties that preceded the invasion and aspects of their literature poetry and science as well as the conquerors themselves and their rule in Iran from 1219 to 1256      **Afghanistan** Jonathan L.
