Economics for the Power Age Arthur C. Comey,1952 *Economics for the Power Age* Scott Nearing,1952 **The Economic and Social Effects of the Spread of Motor Vehicles** Theo Barker,2016-07-27 *American Economic Association Quarterly* ,1910 Constitutes a series of monographs supplemented by the Proceedings of the Association Cf American periodicals 1741 1900 **History** G. J. Renier,2016-04-14 This treatise of historical methodology originally published in 1950 is based upon a liberal conception of history which excludes no narrator of past events from the ranks of historians It defines history as the accurate story which preserves the memory of the past experiences of human societies The function of history determines its method and provides the answer to the question how secure is our knowledge of the past In the author's view history is empirical and its results are for ever provisional The relative merits of dogmatism and scepticism are examined and several interpretations among English historians are scrutinized Hearings, Reports and Prints of the Joint Economic Committee United States. Congress. Joint Economic Committee,1962 HIV/AIDS in the Post-HAART Era John C. Hall,Brian John Hall,Clay J. Cockerell,2011 The science of the virus and its effects and the clinical approaches to its treatment and transmission prevention are placed in the context of the history and epidemiology of the HIV AIDS pandemic Each organ system of the body is explored as to manifestations of the disease treatment now and in the future as well as what the disease has taught us about the immune response The science of epidemiology which is so important in allowing for tracking of the disease and potential limitation of transmission is another aspect of AIDS explored in detail The pandemic manifests differently in different parts of the world and the relevance of the volume is enhanced by its international group of contributors No other text provides the historical and epidemiological context of this disease along with an update of diagnosis and treatment The underlying science and epidemiology of AIDS are not neglected so the student or clinician who is treating patients with AIDS can gain a full understanding of HIV AIDS in individual patients and in their communities

The Types of Economic Policies under Capitalism Uno Kōzō, 2017-06-01 Uno who proposes to study capitalism at three distinct levels of abstraction insists that there should be a mid range theory of its developmental stages danka ron between the pure theory of capital which must be couched in the form of Hegelian dialectic genriron and capitalist histories which must be recounted with full empirical detail In this book he illustrates how he would himself expose that mid range theory by summarising the three types of economic policy that the bourgeois state successively adopted mercantilism liberalism and

imperialism He moreover indicates that economics can relate and cross fertilise with other branches of social science such as law and politics only at this level of abstraction thus achieving an adequate theory of the bourgeois state Nowhere else is Marx s insight into the state as the epitome of bourgeois society more vividly endorsed than in this book First published in Japanese as Keizai Seisakuron by Kobundo Ltd in 1936 The current work is a translation of the enlarged and revised edition of 1971 Politics of Development Heloise Weber,2014-08-13 The Politics of Development A Survey provides an overview of the intrinsically political relations of development It brings together essays written by experts in the politics of development and covers a range of significant and topical concerns gender race indigenous development social movements religion security environmental concerns colonialism and its legacies migration the political economy of development trajectories in urbanization and the agrarian question It introduces and examines key concepts and approaches which have underpinned development as well as the struggles it has engendered historically and in contemporary contexts This volume provides critical insights into the global politics of development and offers alternative analytical frameworks for understanding the relationships around development and inequalities The Politics of Development A Survey is organized in an accessible manner catering to a wide audience ranging from undergraduates at University level to practitioners and Non Governmental Organizations NGOs engaged in advocacy as well as practical political aspects and provides introductions to key issues and themes around contemporary challenges and opportunities in development The title also includes an A Z Glossary covering key terms organizations concepts and actors in the politics of development **Economic Power of Labor Organizations** United States.
