Markets without Limits Jason F. Brennan, Peter Jaworski, 2015-08-20 May you sell your vote May you sell your kidney May gay men pay surrogates to bear them children May spouses pay each other to watch the kids do the dishes or have sex Should we allow the rich to genetically engineer gifted beautiful children Should we allow betting markets on terrorist attacks and natural disasters Most people shudder at the thought To put some goods and services for sale offends human dignity If everything is commodified then nothing is sacred The market corrodes our character Or so most people say In *Markets without Limits* Jason Brennan and Peter Jaworski give markets a fair hearing The market does not introduce wrongness where there was not any previously Thus the authors claim the question of what rightfully may be bought and sold has a simple answer if you may do it for free you may do it for money Contrary to the conservative consensus they claim there are no inherent limits to what can be bought and sold but only restrictions on how we buy and sell [The Triumph of Value Investing](#) Janet Lowe, 2010-12-30 Timely advice from value investing giants such as Warren Buffett William O Neil Charles Brandes and David Iken After the financial chaos and panic of the last few years investors are looking to rebuild confidence and learn from the mistakes that led to the crash In *The Triumph of Value Investing* Janet Lowe urges readers to return to the basic principles of value investing as taught by the legendary Benjamin Graham which remain just as relevant today These lessons can help readers maneuver sanely through any type of economic turmoil and even benefit from further disruptions Lowe also includes interviews with leading value investors such as Warren Buffett William O Neil and Charles Brandes and analyzes dozens of U S and foreign stocks She walks investors through the steps necessary to apply the principles that define value investing with special emphasis on investing in biotech high technology and foreign companies Whether readers are familiar with value investing or are just discovering it they will find plenty of fresh information in *The Triumph of Value Investing* which covers the latest concepts and players in the market As Lowe writes It is always healthy to check up on the validity of your own thinking Considering the market breakdowns of the past decade and the confusion and discouragement many individual investors have suffered this is an excellent time to restudy Benjamin Graham s concepts of value investing and learn how to apply them to a whole range of new challenges **Economics in One Lesson** Henry Hazlitt, 1988-12-14 Over a million copies sold A fundamental influence on modern libertarianism this classic guide to the basics of economic theory defends capitalism and the free market from economic myths that persist to this day A magnificent

job of theoretical exposition Ayn Rand Considered among the leading economic thinkers of the Austrian School which includes Carl Menger Ludwig von Mises Friedrich A Hayek and others Henry Hazlitt wrote Economics in One Lesson in 1946 Concise and instructive it is also deceptively prescient and far reaching in its efforts to dissemble economic fallacies that are so prevalent they have almost become a new orthodoxy Economic commentators across the political spectrum have credited Hazlitt with foreseeing the collapse of the global economy which occurred more than fifty years after the initial publication of Economics in One Lesson Hazlitt s focus on non governmental solutions strong and strongly reasoned anti deficit position and general emphasis on free markets economic liberty of individuals and the dangers of government intervention make Economics in One Lesson every bit as relevant and valuable today as it has been since publication

Love Your God with All Your Mind J.P. Moreland,2014-03-14 We know that faith means being sure of what we hope for and certain of what we do not see Hebrews 11 1 NIV Love Your God with All Your Mind explains the importance of using your mind not only to win others to Christ but also to experience personal spiritual growth Author J P Moreland challenges you to use logic and reason to further God s kingdom through evangelism apologetics worship and vocation This revised edition includes expanded appendixes and three new chapters that outline how to reason for the reality of God and the historicity of Jesus life teachings death and resurrection *The State of Black Progress* Star Parker,2024-03-19 Black Americans have arguably arrived at the height of their cultural prominence In politics entertainment academia and nearly every sphere of influence black issues dominate the national discussion Yet many black Americans are suffering more than ever from the blight of poverty physical and mental health struggles lack of opportunity and failing schools How do these signs of success on the surface coexist with social stagnation on the ground in the black community This edited volume sponsored by the Center for Urban Renewal and Education and featuring contributions from W B Allen Judge Janice Rogers Brown ret Ian Rowe Sally Pipes Stephen Moore and others addresses this question in light of American values and the history of constitutional jurisprudence In the 1860s black America was promised emancipation but continued to experience subjugation In the 1960s black America was promised equality but was frequently exploited Racial discrimination played a role but in the intervening decades misguided progressive policies and the normalization of victimhood rhetoric has proven even more disastrous By failing to live up to American ideals our nation denied many black Americans their chance at the American Dream The scholars and luminaries who contributed to this volume believe that what has been lost can be recovered If our nation recognizes the history of our current predicament embraces the founding principles that made America an economic powerhouse and commits to an agenda of empowering fiscal educational and faith and family affirming policies then black Americans can overcome the obstacles that most hamper progress in their communities Ideas on Liberty ,2002 230 Richards, 2013-08-02 A growing army of self proclaimed activists philanthropists and politicians has infiltrated not only the Consumer Financial Protection Bureau but the FDIC the Treasury and other regulatory agencies Richards reveals the shocking truth about the latest financial regulations the Dodd Frank Reform Act and the war against free enterprise and what you can do to fight back *Kinh Te Dai Cuong Dong Yen*, 2019-03-23 This is a concise of basic principles of today economics with comprehensive economics lexicon *Publishers Trade List Annual, 1996, 1* R R Bowker Publishing, Trade List Annual 199 Publishers', 1996-09 **Regulation**, 2000 **The Moral Case for Profit Maximization** Robert White, 2020-04-01 The Moral Case for Profit Maximization argues that profit maximization is moral when businessmen seek to maximize profit by creating goods or services that are of objective value Traditionally profit maximization has been defended on economic grounds Profit economists argue incentivizes businessmen to produce goods and services In this view businessmen do not need to be virtuous as long as they deliver the goods It challenges the traditional defense of profit maximization arguing that profit maximization is morally ambitious because it requires businessmen to form normative abstractions and to cultivate a virtuous character In so doing the author also challenges the moral basis of corporate social responsibility Proponents of CSR argue that businessmen can do good while doing well This book argues that businessmen already do good by maximizing profit drawing upon the histories of the wheel the refrigerator and the shipping container as well as the biographies of J P Morgan John D Rockefeller and Thomas Edison to demonstrate the role of values in the creation of material goods and the role of the virtues in value creation The author challenges readers to rethink the relationship between profit value and virtue **Why Conservatives Tell Stories and Liberals Don't** David M Ricci, 2015-12-03 Why do conservatives tell stories Because it helps them win elections and assail liberal policies like health care reform and economic stimulus Why is important but the what and the how behind the stories that conservatives tell are equally interesting and in this new book David Ricci reveals all He shows how conservative activists and candidates tell many tales that come together

to project a large scale story a cultural narrative a vision of what America is and what it should do to prosper socially economically and politically Liberals by contrast tend to look for theories rather than stories for mathematical explanations rather than theological axioms for data rather than anecdotes and for statistics rather than homilies The difference is paradoxical Liberals are unlikely to fashion sweeping narratives that capture the public s attention and commitment Yet conservatives may tell attractive stories like the ones that got us into Iraq that momentarily capture voter support but end up costing the country more than it can afford

Radicals for Capitalism Brian Doherty,2009-04-28 On Wall Street in the culture of high tech in American government Libertarianism the simple but radical idea that the only purpose of government is to protect its citizens and their property against direct violence and threat has become an extremely influential strain of thought But while many books talk about libertarian ideas none until now has explored the history of this uniquely American movement where and who it came from how it evolved and what impact it has had on our country In this revelatory book based on original research and interviews with more than 100 key sources Brian Doherty traces the evolution of the movement through the unconventional life stories of its most influential leaders Ludwig von Mises F A Hayek Ayn Rand Murray Rothbard and Milton Friedman and through the personal battles character flaws love affairs and historical events that altered its course And by doing so he provides a fascinating new perspective on American history from the New Deal through the culture wars of the 1960s to today s most divisive political issues Neither an expos nor a political polemic this entertaining historical narrative will enlighten anyone interested in American politics
