Hope and Hard Times Ted Bernard, 2010-01-01 Successes and speed bumps on the road to sustainable communities *Ecotheology and the Practice of Hope* Anne Marie Dalton, Henry C. Simmons, 2010-09-29 Is there any hope for a more sustainable world Can we reimagine a way of living in which the nonhuman world matters Anne Marie Dalton and Henry C Simmons claim that the ecotheology that arose during the mid twentieth century gives us reason for hope While ecotheologians acknowledge that Christianity played a significant role in creating societies in which the nonhuman world counted for very little these thinkers have refocused religion to include the natural world To borrow philosopher Charles Taylor's concept they have created a new social imaginary reimagining a better world and a different

sense of what is and what should be A new mindset is emerging inspired by ecotheological texts and evident in the many diverse movements and activities that operate as if the hope imparted by ecotheology has already been realized While making this powerful argument Dalton and Simmons also provide an essential overview of key ecotheological thinkers and texts

This Is Hope: Green Vegans and the New Human Ecology Will Anderson, 2013-03-29 This is Hope compares the outcomes of two human ecologies one is tragic the other is full of promise As Will explains in his Introduction Our human ecology is the expression of everything we do and is represented by every interaction we have on earth it consists of the multitude of relationships we have with other people other species and our physical environment He describes our current human ecology in depth to illustrate how we are living inappropriately cruelly and unsustainably This is obsolete and has been for a long time it is the cause of our overpopulation our overconsumption of resources the poverty of ecosystems and people and our disregard for the rights of individuals from other species This is Hope proposes a new human ecology to replace it

From the Farm to the Table Gary H. Holthaus, 2006-12-01 As with other areas of human industry it has been assumed that technological progress would improve all aspects of agriculture Technology would increase both efficiency and yield or so we thought The directions taken by technology may have worked for a while but the same technologies that give us an advantage also create disadvantages It s now a common story in rural America pesticides fertilizers big iron combines and other costly advancements may increase speed but also reduce efficiency while farmers endure debt dangerous working conditions and long hours to pay for the technology Land livelihood and lives are lost in an effort to keep up and break even There is more to this story that affects both the food we eat and our provisions for the

future Too many Americans eat the food on their plates with little thought to its origin and in blind faith that government regulations will protect them from danger While many Americans might have grown up in farming families there are fewer family owned farms with each passing generation Americans are becoming disconnected from understanding the sources and content of their food The farmers interviewed in *From the Farm to the Table* can help reestablish that connection Gary Holthaus illuminates the state of American agriculture today particularly the impact of globalization through the stories of farmers who balance traditional practices with innovative methods to meet market demands Holthaus demonstrates how the vitality of America's communities is bound to the successes and failures of its farmers In *From the Farm to the Table* farmers explain how their lives and communities have changed as they work to create healthy soil healthy animals and healthy food in a context of often inappropriate federal policy growing competition from abroad public misconceptions regarding government subsidies the dangers of environmental damage and genetically modified crops and the myths of modern economics Rather than predicting doom and despair for small American growers Holthaus shows their hope and the practical solutions they utilize As these farmers tell their stories organic and sustainable farming become real and meaningful As they share their work and their lives they reveal how those concepts affect the food we eat and the land on which it's grown and how vital farming is to the American economy

Green, 2018-12-12 Theories of Hope Exploring Affective Dimensions of Human Experience is a collection of essays dedicated to inquiring into the nature of hope in its multiple and varied guises Looking specifically at the ways in which some experiences of hope emerge within contexts of marginalization transgression and inquiry this volume seeks to explore the experiences of hope through a lens of its more challenging aspects

Hope's Horizon Chip Ward, 2013-04-10 At a time of widespread environmental pessimism Hope s Horizon goes on an inspirational offensive In this entertaining and thought provoking book author Chip Ward tells of his travels among a new generation of activists who are moving beyond defensive environmental struggles and advocating pioneering proactive strategies for healing the land Chip Ward s three year odyssey took him behind the scenes of efforts to reconnect fragmented habitats and re wild the North American continent the campaign to drain Lake Powell and restore Glen Canyon to its natural state and the struggle to keep nuclear waste off Western Shoshone ancestral lands and ultimately to abolish all nuclear power and weapons These movements and the practical visionaries leading them challenge readers with a new paradigm in which land is used in a spirit of collaboration with natural systems rather than domination of them Broad in its sweep Hope s Horizon uses its topical subjects as springboards for exploring how we can redefine our place in the world while restoring damaged habitats replenishing lost diversity and abandoning harmful technologies Lively literate and free of the grimness that characterizes so much environmental writing Hope s Horizon will change the way readers see the world It makes complicated concepts and issues accessible and wild ideas compelling And while the book s starting point is a hard nosed indictment of humanity s failed stewardship of the earth the stories that follow tell of catalytic optimism and ecological wisdom in the face of self destructive habit and blind pride

dwindling populations of ocean life the effects of nuclear weapons testing and more These works are connected by their views of a future that includes hope Until now hope has never been theorized in a direct sustained way in ecocriticism Hope at Sea makes an argument for hope as a lens for creative and critical confrontation with environmental disruptions and the resulting sense of loss It also reflects on the critical approaches that hope as an analytic category opens up for the study of environmental literature With hope as a critical perspective Shewry develops a method for reading environmental literature literary writers create new ways to apprehend existing environmental realities and craft stories about seas forests cities and rivers that could be not as literal plans but as ways of imagining promising lives in the present world and in the world to come

Hope for Creation Jonathan J. Bonk, Michel G. Distefano, J. Nelson Jennings, Kim Jinbong, Jae Hoon Lee, 2024-04-02 Can the Desert Be Green Our world is in peril Environmental degradation human suffering and relentless calamities confront us daily painting a picture of a planet in distress Amid this daunting reality how can God's people respond effectively This critical question beckons for a thoughtful and proactive response that intertwines faith and ecology with tangible action in our increasingly fragile world Hope for Creation offers a unique blend of theological insight and practical application It gathers perspectives from theologians and practitioners each giving a comprehensive understanding of creation care The contributors not only diagnose environmental and humanitarian issues but also propose actionable solutions rooted in biblical foundations and contemporary experiences This book is a call to action for Christians and mission leaders worldwide urging active participation in restoring and preserving our planet It equips church leaders missionaries and believers with the knowledge and tools to make a meaningful impact By embracing this mission readers contribute to a sustainable hopeful future joining a transformative journey towards environmental and human healing

Action without Hope Nathan K. Hensley, 2025-06-04 A study of how writers from the early phases of our prolonged climate emergency used aesthetic strategies to redefine the category of action What does it feel like to live helplessly in a world that is coming undone Nathan Hensley turns to Victorian literature to uncover a prehistory of this deeply contemporary sense of powerlessness For many in nineteenth century Britain their world seemed so scarred by human rapacity that restoring it seemed beyond the powers of any one individual Like George Eliot's characters in Middlemarch or the doomed lovers of Wuthering Heights observers of the gathering carbon economy felt themselves ensnared by interlocked and broken systems In the face of damage so vast and apparently irreversible what could possibly be done To answer this question Hensley shows that nineteenth century writers and artists devised new ways to understand action and hope They rescaled action away from the grandly heroic and toward minor adjustments and collaborative interventions They turned away from logical proofs and direct argumentation and instead called on aesthetic technologies like sonnets and fractured lyrics watercolor sketches and vast multiplot novels finding scope for action not at the level of the theme or the thesis but in gestures and details Ranging from J M W Turner's painterly technique to Emily Brontë's dreamlike fragments and reading along the way works by Alfred Lord Tennyson H G

Wells Lewis Carroll Gerard Manley Hopkins William Berryman Charlotte Bront George Eliot and Christina Rossetti Hensley s study makes an important contribution to Victorian studies and the environmental humanities **Nature's Best Hope**

Milton's Places of Hope Mary C. Fenton,2017-03-02 In early modern culture and in Milton s poetry and prose this book argues the concept of hope is intrinsically connected with place and land Mary Fenton analyzes how Milton sees hope as bound both to the spiritual and the material the internal self and the external world Hope as Fenton demonstrates comes from commitment to literal places such as the land ideological places such as the nation and sacred interior places such as the human soul Drawing on an array of materials from the seventeenth century including emblems legal treatises political pamphlets and prayer manuals Fenton sheds light on Milton s ideas about personal and national identity and where people should place their sense of power and responsibility Milton s politics and where he thought the English nation was and where it should be heading and finally Milton s theology and how individuals relate to God *Historical and*
