Fantasies of Witnessing Gary Weissman, 2018-07-05 Fantasies of Witnessing explores how and why those deeply interested in the Holocaust yet with no direct familial connection to it endeavor to experience it vicariously through sites or texts designed to make it real for nonwitnesses Gary Weissman argues that far from overwhelming nonwitnesses with its magnitude of horror the Holocaust threatens to feel distant and unreal A prevailing rhetoric of secondary memory and trauma he contends and efforts to portray the Holocaust as an immediate and personal experience are responses to an encroaching sense of unreality In America we are haunted not by the traumatic impact of the Holocaust but by its absence When we take an interest in the Holocaust we are not overcoming a fearful aversion to its horror but endeavoring to actually feel the horror of what otherwise eludes us Weissman focuses on specific attempts to locate the Holocaust in the person of Elie Wiesel the most renowned survivor and his classic memoir *Night* in videotaped survivor stories and Lawrence L Langer s celebrated book *Holocaust Testimonies* and in the films *Shoah* and *Schindler s List* These representations he explains constitute a movement away from the view popularized by Wiesel that those who did not live through the Holocaust will never be able to grasp its horror and toward re creating the Holocaust as an experience nonwitnesses may put themselves through It is only by acknowledging the desire that gives shape to such representations and by exploring their place in the ongoing contest over who really knows the Holocaust and feels its horror that we can arrive at a more candid assessment of our current and future relationships to the Holocaust he says [Elie Wiesel's Night](#) Harold Bloom, 2010 Collection of critical essays about Elie Wiesel s Holocaust memoir *Night*

Elie Wiesel, the Shtetl, and Post-Auschwitz Memory Christine June Wunderli, 2023-04 How are Holocaust events remembered and narrated and why What knowledge can Holocaust testimony convey Christine June Wunderli explores these questions as she examines four works by Holocaust survivor Elie Wiesel Guided by Bourdieu s theory of literary field as well as Young s theory of literary representation she traces Hasidic influences in Wiesel s writing Her conclusions are telling Wiesel s narratives are born as memory is pulled towards both Auschwitz and the shtetl caught up in the tension between the two Still the emerging trajectory is one of hope led by a new categorical imperative [Elie Wiesel](#) Steven T. Witness Between Languages Peter Davies, Peter J. Davies, 2018 A growing body of scholarship is making visible the contribution of translators to the creation preservation and transmission of knowledge about the Holocaust The discussion has tended to be theoretical or to concentrate on exposing the distorted translations of texts by important witnesses such as Anne Frank or Elie Wiesel There is therefore a need for a positive concrete and contextually aware approach to the translation of Holocaust testimonies that acknowledges the achievements of translators while being sensitive to the consequences of particular translation strategies Peter Davies s study proceeds from the assumption that translators are active co creators whose work does not simply mediate a pre existing text but creates a representation of that text for a new readership in a specific context Translators of Holocaust testimonies then provide a form of textual commentary that works through ideas about witnessing historical truth and the meaning of the Holocaust In this way they are important co creators of knowledge about the Holocaust and its legacy The study focuses on translations between English and German and from other languages principally French Russian and Polish into English and German It works through a number of case studies showing how making translation and its effects visible contributes to a clearer understanding of how knowledge about the Holocaust has been and continues to be created and mediated Peter Davies is Professor of German at the University of Edinburgh

Unveiling the Dynamics Behind the Holocaust in Hungary Moshe Barides, 2025-08-04 The Holocaust in Hungary was characterized by the collaboration between the Hungarian government and the German occupiers It resulted in the systematic murder of a significant portion of Hungary's Jewish population primarily during a short period between May and July 1944 This destruction represents one of the most perplexing chapters in Holocaust history The book argues that it was primarily orchestrated by one man Adolf Eichmann influenced by four key factors Nazi ideology Hungarian antisemitism and collaboration the compliance of the Jewish Council and the passive role of influential figures like Franklin D Roosevelt The book further argues that Rudolf Kasztner and the Jewish Council acted mainly out of fear Their compliance significantly shaped Eichmann's decisions and enabled him to rely on Hungarian help to gather victims Bystanders too not only failed to save Jews despite options available but also influenced Eichmann's actions Incorporating a novel analytical framework for analyzing risk factors and triggers for genocide and highlighting bystander responsibilities Moshe Barides proposes new terminology to help prevent future atrocities

Translating Holocaust Lives Jean Boase-Beier, Peter Davies, Andrea Hammel, Marion Winters, 2017-01-26 For readers in the English speaking world almost all Holocaust writing is translated writing Translation is indispensable for our understanding of the Holocaust because there is a need to tell others what happened in a way that makes events and experiences accessible if not perhaps comprehensible to other communities Yet what this means is only beginning to be explored by Translation Studies scholars This book aims to bring together the insights of Translation Studies and Holocaust Studies in order to show what a critical understanding of translation in practice and context can contribute to our knowledge of the legacy of the Holocaust The role translation plays is not just as a facilitator of a semi transparent transfer of information Holocaust writing involves questions about language truth and ethics and a theoretically informed understanding of translation adds to these questions by drawing attention to processes of mediation and reception in cultural and historical context It is important to examine how writing by Holocaust victims which is closely tied to a specific language and reflects on the relationship between language experience and thought can or cannot be translated This volume brings the disciplines of Holocaust and Translation Studies into an encounter with each other in order to explore the effects of translation on Holocaust writing The individual pieces by Holocaust scholars explore general theoretical questions and individual case studies and are accompanied by commentaries by translation scholars
