But Lem can't possibly make lemonade out of her new life in Willow Creek, California, the Bigfoot Capital of the World, where she's forced to live with a grandfather she's never met after her mother passes away. Then she meets eleven-year-old Tobin Sky, the CEO of Bigfoot Detectives Inc., who is the sole Bigfoot investigator for their small town. After he invites Lem to be his assistant for the summer, they set out on an epic adventure to capture a shot of the elusive beast on film. But along the way, Lem and Tobin end up discovering more than they ever could have imagined. And Lem realizes that maybe she can make lemonade out of her new life after all. Nicholas J. Karolides, 2020-03-09. Reading is a quest. Likened to an adventure, both metaphoric and real, the quest is a journey of discovery. The reader's search encompasses the sensations of the experience itself, accompanying emotions, sense, and meaning engendered by the experience and understandings of the self, others, and the world around. Out of curiosity, readers also search for an extensive array of information. The journey can be envisioned and contemplated again and again after the reading act itself is completed. In a meaningful way, the reader's quest and its discoveries are life-enduring and life-fulfilling. The purpose of this volume is two-fold: to establish and explore the essential features of reader response theory and its rendering of the reading process and to acknowledge a philosophy of teaching and to illustrate teaching strategies to evoke and enhance readers' responses. Understanding the ways in which the reader affects the reading and how the reading happens will illuminate classroom pedagogy. This text establishes and explores the essential features of reader response theory and its rendering of the reading process. The essays acknowledge a philosophy of teaching and illustrate a spectrum of teaching strategies to evoke and
