Eloquence Of Mary Astell:

The Eloquence of Mary Astell Christine Mason Sutherland, 2005 The Eloquence of Mary Astell makes an important contribution to the knowledge and understanding of the important role that women and one woman in particular played in the history of rhetoric Mary Astell 1666 1731 was an unusually perceptive thinker and writer during the time of the Enlightenment Here author Christine Sutherland explores her importance as a rhetorician an area that has until recently received little attention Astell was widely known and respected during her own time but her influence and reputation receded in the years after her death Her importance as an Enlightenment thinker is becoming more and more recognized however As a skilled theorist and practitioner of rhetoric Astell wrote extensively on education philosophy politics religion and the status of women She showed that it was possible for a woman to move from the semi private form of rhetoric represented by conversation and letters into full public participation in philosophical and political debate *The Eloquence of Mary Astell* , 2005 Practically ignored for over 200 years Mary Astell s writing returned to prominence in the latter part of the 20th century in a celebrated biography by Ruth Perry Self educated Astell was an avid political thinker philosopher educationalist and early feminist Until recently little attention has been paid to her importance and skill in rhetoric where she is known as both a practitioner and theorist Her work is remarkable for an intellectual depth that does not compromise accessibility and for a style that is forcefully persuasive yet grounded in the rhythms of conversation Widely respected for her participation in public discourse on politics and philosophy she was well ahead of her time in the development of the rhetoric of care an approach later echoed by 20th century feminists in their battle for equality Drawing inspiration both from ancient theories and models and from early enlightenment philosophy Astell s thought has a timelessness that allows her to instruct and inspire us all **Mary Astell** Michal Michelson, Professor William Kolbrener, 2013-04-28 Mary Astell Reason Gender Faith includes essays from diverse disciplinary perspectives to consider the full range of Astell s political theological philosophical and poetic writings The volume does not eschew the more traditional scholarly interest in Astell s concerns about gender rather it reveals how Astell s works require attention not only for their role in the development of early modern feminism but also for their interventions on subjects ranging from political authority to educational theory from individual agency to divine service and from Cartesian ethics to Lockean epistemology Given the vast breadth of her writings her active role within early modern political and theological debates and the sophisticated complexity of her prose Astell has few parallels among her contemporaries Mary Astell Reason Gender Faith bestows upon Astell the attention which she deserves not merely as a proto feminist but as a major figure of the early modern period **Lay Activism and the High Church Movement of the Late Eighteenth Century** Robert M. Andrews, 2015-05-12 Lay Activism and the High Church Movement of the Late Eighteenth Century The Life and Thought of William Stevens 1732 1807 by Robert M Andrews is the first full length study of Stevens life and thought Historiographically revisionist and contextualised within a neglected history of lay

On the Borders of Convention Aleksandra Nikčević Batrićević, 2010-05-11. The research presented in this book is authored by scholars coming from as distant regions as South Africa, the United States of America, Great Britain, France, Italy, Belarus, the Balkans. Needless to say, that one of the good things about this international cooperation is that, owing to their different socio-cultural backgrounds, these scholars have contributed to producing an extremely varied picture of ways of approaching the challenge of a changing world. The papers on literature and culture collected in this book contribute a further element of rigour into the discussion of numerous and always varying and changing borders of convention in a literary text, literary genre and literary theory, as well as in general culture and everyday paths of life. Starting with oral cultures over the classic literary masters, modernist and postmodernist textual and theoretical phenomena, the twentieth-century flouting of numerous social and gender convention through painting, film, dance, contemporary music, as well as graffiti. We have sought to stress that what is most noticeable from the evidence of their studies is that scholars today concern these issues through a dynamic global process and beyond any preconceived design or any strict set of theoretical prescriptions which would otherwise lead them to ignore the ever-shifting borders in literature and culture, as well as in global socio-cultural reality in general. The variety and complexity of these essays offer fresh views to the problem posed in the title of the book. Therefore, we trust that they will stimulate intellectual confrontation and circulation of ideas within the field of literature and cultural studies.
