The Cult of Saint Katherine of Alexandria in Late-Medieval Nuremberg Anne Simon, 2016-03-16 Katherine of Alexandria was a major object of devotion within medieval Europe ranking second only to the Virgin Mary in the canon of female saints Yet despite her undoubted importance relatively little is known about the significance and function of her cult within the German speaking territories that stood at the heart of Europe Anne Simon's study adds a welcome new interdisciplinary perspective to the study of Saint Katherine and the wider ecclesiastical landscape of a medieval Europe poised on the edge of religious change Taking as a case study the wealthy and politically influential merchant city of Nuremberg this book draws on a wide variety of textual and visual sources to explore interrelated themes the shaping of urban space through the cult of Saint Katherine her role in the moulding and advertising patrician identity and alliances through cultural patronage and patrician use of the saint to showcase the city's political economic cultural and religious importance at the heart of the Holy Roman Empire Further the book reveals the construction of exemplarity in Saint Katherine's legend and miracles and their resonance within the context of the city and the Dominican Convent of Saint Katherine whose nuns came from the same status aware confident patrician elite that so loyally supported successive Emperors Filling a significant gap in current research the work has much to offer scholars of medieval history hagiography art history German studies cultural and urban studies Hence it not only expands our understanding of Saint Katherine's importance in German speaking territories but also adds to the picture of her cult in its European perspective

Auguste Comte: Volume 3 Mary Pickering, 2009-09-14 This volume continues to explore the life and works of Auguste Comte during his so called second career It covers the period from the coup d'état of Louis Napoleon in late 1851 to Comte's death in 1857 During these early years of the Second Empire Comte became increasingly conservative and anxious to control his disciples This study offers the first study of the tensions within his movement Focusing on his second masterpiece the *Système de politique positive* and other important books such as the *Synthèse subjective* Mary Pickering not only sheds light on Comte's intellectual development but also traces the dissemination of positivism and the Religion of Humanity throughout many parts of the world

Woody's Last Laugh James Christopher Haney, 2021-11-26 When I was appointed Co chair of the U S Fish and Wildlife Service team charged with preparing a preliminary recovery plan for the Ivory billed Woodpecker I had naive notions about the work ahead Dr Haney's book would have been an immense help in navigating the many strange behaviors misconceptions and bitter disagreements that ensued Woody's Last Laugh reveals that I too fell to faulty thinking about the Ivory bill and the question of its continued existence or extinction I highly recommend this book for anyone involved in endangered species recovery as a way to avoid the many cognitive biases that

we all face Jon Andrew Co chair of Ivory billed Woodpecker Recovery Team retired Woody s Last Laugh explores a simmering controversy amid scientists conservationists birders and the media the supposed extinction of American ivory billed woodpecker Among the first to identify rampant mental errors inside conservation and environmental professions the book identifies 53 distinct kinds of cognitive blunders psychological biases and logical fallacies on both sides of the woodpecker controversy Few species have ever provoked such social rancor Why are rumors of its persistence so prevalent unlike other near or recently extinct animals Why are we so bad mannered with each other about a mere bird How is it that we cannot agree even on whether a mere bird is alive or dead Woody s Last Laugh uncovers why such mysteries so mess with our heads By exploring uncharted borders between conservation and mental perception new ways of evaluating truth and accuracy are opened to everyone Author Dr J Christopher Haney is a biologist conservation scientist and lifelong birder For 12 years he was Chief Scientist at Defenders of Wildlife In 2010 following the Deepwater Horizon oil blowout the U S Fish Wildlife Service invited him to lead the largest pelagic study of marine birds ever conducted in the Gulf of Mexico Since 2013 he has been president of Terra Mar Applied Sciences an independent public interest conservation research firm which he founded If there is one lesson Dr Haney hopes his book delivers it is to not overvalue our thinking skills Human reason is fallible even among scientists and technical experts To improve our essential relationship with nature conservation practices will need to devote as much attention to the unbridled thoughts as the unswerving sentiments Dead or alive however the ivory bill got the last laugh on us all

Jungian Reflections on Systemic Racism Christopher Jerome Carter,Tiffany Houck,2023-06-23 Jungian Reflections on Systemic Racism is a unique contribution of Jungian analysts and analysts in training who provide individual perspectives and approaches to promoting greater inclusivity in analytical theory training and practice This book examines issues of racism through intrapsychic interpersonal and archetypal lenses Drawing from the specificity and ingenuity of Jungian psychoanalysis the authors provide personal narratives clinical vignettes and theoretical perspectives that exemplify ways of comprehending and furthering the work of anti racism The editors assert that without deeper exploration of our theories distinguishing between the theory itself and the theorist s unconscious biases our clinical paradigms unconsciously align and thus perhaps promote an attitude of white supremacy in psychoanalytic training programs and practices Without claiming to reflect the official view of any particular psychoanalytic community it utilizes Jung s analytic paradigm to offer insight into the dynamics of the cultural complex of racism from a depth psychological perspective Jungian Reflections on Systemic Racism is an important resource for psychoanalytic students trainees supervisors and practitioners as well as for clinicians medical professionals social workers mental health professionals sociologists and anyone interested in the wide impact of the unscientific construct of race

Gaimar's Estoire Des Engleis Gemma Wheeler, 2021 An important text from the twelfth century Renaissance of history writing re evaluated drawing out its complex representations of monarchs from Cnut to William Rufus Geffrei Gaimar's Estoire des Engleis is its author's sole surviving work His translation and adaptation of the Anglo Saxon Chronicle expanded with a number of lengthy interpolations which appear to draw upon oral traditions and other unknown written sources is all that remains of an ambitious history which once reached back as far as Jason and the Golden Fleece However the extent of Gaimar's achievement as poet historian and translator has been obscured by a tendency among scholars to dismiss him as a writer of romance masquerading as history his work riddled with guesswork errors and outright fabrications This volume aims to challenge such views of Gaimar by providing the first holistic study of his Estoire's incisive commentary upon kingship its virtues vices and conflicting models as applied to rulers such as Edgar the Peaceable Cnut and the ill fated William Rufus One good king for Gaimar is much like another A bad king by contrast is vividly characterised as ineffectual tyrannical or both Gaimar a product of that extraordinary period in medieval English culture often termed the twelfth century Renaissance blends history with literary tropes to yield a sophisticated account of the invasions betrayals and familial conflicts that shaped his England's history

Elegant Anatomy Marieke M.A. Hendriksen, 2015-01-27 In *Elegant Anatomy* Marieke Hendriksen offers an account of the material culture of the eighteenth century Leiden anatomical collections which have not been studied in detail before The author introduces the novel analytical concept of aesthesis as these historical medical collections may seem strange and undeniably have a morbid aesthetic yet are neither curiosities nor art As this book deals with issues related to the keeping and displaying of historical human remains it is highly relevant for material culture and museum studies cultural history the history of scientific collections and the history of medicine alike Unlike existing literature on historical anatomical collections

this book takes the objects in the collections as its starting point instead of the people that created them **Transforming the Rebel Self: Quest Patterns in Fiction by William Styron, Flannery O'Connor and Bobbie Ann Mason** Sharon

Therese Nemeth, 2010 Originally written as the author's dissertation **Laws of Inheritance** Elizabeth Brodersen, 2015-08-14 Instilled in interdisciplinary cross cultural perspectives of mythical socio economic literary pedagogic and psychoanalytic representations two archetypal creative inheritance laws interact as twins Eros fusion containment safety and Thanatos division separation risk Hypothesising these twin laws as matrilineal Eros and patrilineal Thanatos this book explores why cross cultural forms including gender traits are not fixed but are instead influenced by earlier flexible matrilineal forms Through a study of twins on macro and micro levels Elizabeth Brodersen argues that a psychological twin dilemma is implicit in inheritance laws and offers a unique forum to show how each law competes for primacy as the first and other Chapters begin by looking at twins in creation myths and the historical background to the laws of inheritance as well as literary representations The book then moves on to the developmental structures imbued in twin research and educational systems to explore how past cultural forms have been re defined to fit a modern landscape and the subsequent movement away from the importance of patrilineal primogeniture Laws of Inheritance will be of key value to academics researchers and postgraduate students in the fields of psychoanalysis psychotherapy archetypal theory cross cultural depth psychology cultural anthropology sociology gender studies and twin research The book will also be of interest to practicing psychoanalysts and psychotherapists Visible Exports / Imports Emily-Jan Anderson, Jill Farquhar, John

Richards, 2020-05-15 This interdisciplinary publication brings together new research on medieval and renaissance art culture and the critical history by established scholars early career academics and postgraduate students from the University of Glasgow Queen's University Belfast University College Cork the University of Aberdeen and the University of Warwick The majority of the articles featured are based on papers given at Gloss a postgraduate conference on medieval and renaissance art and culture held at the University of Glasgow 29 June 2007 organised by Emily Jane Anderson with Sandra Cardarelli and Joanne Anderson and or at the International Medieval Congress University of Leeds 9-12 July 2007 sessions 218 318 and 518 organised by Emily Jane Anderson and Dr Jill Farquhar Additional papers by John Richards University of Glasgow and Flavio Boggi University College Cork which were not given in Glasgow or Leeds have been added An introduction to the papers is provided by Robert Gibbs Emeritus Professor of Pre Humanist Art History and Codicology at the University of Glasgow who moderated one of the Leeds sessions as did John Richards The papers are historical and art historical in focus and concern art production wall and panel painting sculpture architecture manuscript illumination and textiles material and visual culture and literature in various European cities and locales in the 14th and 15th centuries and later criticism associated with these subject areas There is an emphasis on the transmission and translation of workshop style the traditional concept of artistic centres and peripheries the consideration of art works in context art production and the workshop system the medieval city

Panofsky and the critical history art theory and practice patronage commerce religion and politics **Snakes, People, and Spirits, Volume One** Robert Hazel, 2019-11-05 This two volume publication offers an in depth analysis of ophidian symbolism in Eastern Africa while setting the topic within its regional and historical context namely with regards to the rest of Africa ancient Egypt and Mesopotamia the Greek world ancient Palestine Arabia India and medieval and pre Christian Europe Through the ages most of those areas have connected with Eastern Africa in a broad sense where ophidian symbolism was as rampant and far reaching if not more so as anywhere else on the continent and perhaps in past civilisations Much as in the wider context snakes were held to be long lived closely related to holes caverns trees and water life and death and credited with a liking for milk Even though ophidian symbolism has always been developed out of the outstanding biological and ethological features of snakes the process of symbolisation which plays a crucial role in the elaboration of cultural systems and the shaping of human experience was inevitably at work This first volume deals with snakes as a zoological category snake symbolism as perceived by encyclopaedists and psychologists and ophidian symbolism as it occurred in ancient civilisations It explores the traditional African scene in general with a view to set the scene for a more proximate baseline for comparison The divide between animals and humans was porous and snakes had a more or less equal footing in both the animal realm and the spiritual world Key features of snake symbolism in traditional Eastern Africa are then examined in detail especially phantasmagorical snakes the rainbow serpent snake totems and snake related witches and ritual leaders among others In Eastern Africa the meanings attributed to snakes were multifaceted and paradoxical Overall the two volumes of this publication show that African snake symbolism broadly echoed the diverse representations of ancient civilisations The widely acknowledged assimilation of snakes to death and Evil is therefore unrepresentative both historically and culturally *Early Greek Epic Fragments III* Christos Tsagalis, 2024-09-02 This is the third volume in the series of commentaries on Early Greek Epic Fragments EGEF III It contains introduction text translation and commentary on the Herakleia by Panyassis of Halikarnassos and on the Theseis Two other volumes have been already published EGEF I Genealogical and Antiquarian Epic De Gruyter 2017 EGEF II Epics on Herakles Kreophylos and Peisandros De Gruyter 2022 and one more is to follow EGEF IV The Persika by Choerilos of Samos This sub series within TCSV aims to provide scholars and students with up to date commentaries on the extant fragments of early Greek epic that have not received contrary to Cyclic epic the attention they deserve **The Invisible Alliance** Ellyn Kaschak, 2021-02-25 Explore the relationship between psychology and spirituality from a feminist perspective From the editor There are forces in the universe about which we know nothing and can learn nothing through empiricism and material means Such forces can be invoked in the process of therapy to assist in healing to deepen experience and to free us from the confining limits of the human mind This is a book about the spiritual within each of us and about spirituality as it extends beyond any of us to embrace all of us It deals with

inspiration and passion sorrow and loss meaning and depth It focuses upon the relationship between matters of spirit and of psychology leading to new treatments within the parameters of psychotherapy that extend its vision far beyond the treatment of affliction The Invisible Alliance Psyche and Spirit in Feminist Therapy provides you with a comprehensive review of multiculturalism and its relationship with feminism and spirituality and explores ways to incorporate Jewish principles and beliefs into feminist therapy the application of religious sources of passion and perspective to parenting and working with children ways to combine Christian and Wiccan philosophies in therapy a provocative approach for integrating Christian biblical teachings into feminist therapy for survivors of sexual abuse ways that Buddhist ideas can enrich the understanding of the self and identity a case study of ancient healing traditions used by Latinas criteria for therapists to use in deciding whether to work with clients dealing with spiritual religious issues or refer them to someone more appropriate a way to use the power of ritual to heal and give more meaning to important life transitions *Circle's End* Delwyn McPhun,2010-05

Crop circles Hundreds of these strange patterns appear in our fields each year their vast beauty inspiring awe and wonder A sudden increase in their number throws Matt Lancing maths student and amateur symbologist into a world of intrigue What is creating them What is their message Matt deciphers crop circles for a secret military group led by the mysterious Ember a determined redhead with strange spiritual beliefs Uncovering what makes the circles is just the beginning of his journey to a terrifying discovery Warning This well documented enigma will question your deepest illusions **Sandplay and**

Storytelling Barbara A. Turner,Kristin Unnsteinsdottir,2012-12-31 Combining the fields of child psychology and child education this groundbreaking work explores how engaging children in Jungian sandplay therapy and imaginative storytelling can improve classroom performance and to increase intelligence scores Written by child specialists it makes a solid argument for the necessary consideration of the unconscious and the inner world of the individual child in learning and advocates that curriculum design for children must include both imaginative therapeutic play and active attention to children's emotional needs Educators psychotherapists and concerned parents alike will find this book informative and useful *On Becoming a Jungian Sandplay Therapist* Lenore F. Steinhardt,2012-09-01 This book discusses the deep inner process of becoming a sandplay therapist addressing important creative aspects of understanding and practising sandplay It describes the current theory behind the Jungian approach the roles of the therapist and the client and explores the healing potential of nature and the numinous in art and sandplay
