**The Universal Human and Soul-body Interaction** Emanuel Swedenborg,1984-01-01 **The Universal Human and Soul-body Interaction** Emanuel Swedenborg,1984 In this volume are writings from the 18th century Swedish scientist and visionary 1688 1771 whose works are among the most influential in the Western esoteric tradition *Body and Soul in Coleridge's Notebooks, 1827-1834* S. Webster,2016-01-26 Through an examination of his later personal notebooks this study explores the reciprocal effects that Samuel Taylor Coleridge s scientific explorations philosophical convictions theological beliefs and states of health exerted upon his perceptions of human Body Soul relations both in life and after death The Western Esoteric Traditions Nicholas Goodrick-Clarke,2008-10-14 Western esotericism has now emerged as an academic study in its own right combining spirituality with an empirical observation of the natural world while also relating the humanity to the universe through a harmonious celestial order This introduction to the Western esoteric traditions offers a concise overview of their historical development Nicholas Goodrick Clarke explores these traditions from their roots in Hermeticism Neo Platonism and Gnosticism in the early Christian era up to their reverberations in today s scientific paradigms While the study of Western esotericism is usually confined to the history of ideas Goodrick Clarke examines the phenomenon much more broadly He demonstrates that far from being a strictly intellectual movement the spread of esotericism owes a great deal to geopolitics and globalization In Hellenistic culture for example the empire of Alexander the Great which stretched across Egypt and Western Asia to provinces in India facilitated a mixing of Eastern and Western cultures As the Greeks absorbed ideas from Egypt Babylon Assyria and Persia they gave rise to the first esoteric movements From the late sixteenth to the eighteenth centuries post Reformation spirituality found expression in theosophy Rosicrucianism and Freemasonry Similarly in the modern era dissatisfaction with the hegemony of science in Western culture and a lack of faith in traditional Christianity led thinkers like Madame Blavatsky to look East for spiritual inspiration Goodrick Clarke further examines Modern esoteric thought in the light of new scientific and medical paradigms along with the analytical psychology of Carl Gustav Jung This book traces the complete history of these movements and is the definitive account of Western esotericism *Life In Eternity: Human Beings In the Spirit World* Kerry Pobanz,2012-04-13 All human beings upon finishing their lives on earth are destined to transition into the spirit world Here they discover that their death is in fact entrance into an extraordinary realm of eternal life What is the nature of human life in the spirit world It is almost indescribable in earthly terms but not totally In this book Kerry Pobanz drawing principally upon the teachings of Sun Myung Moon and Emanuel Swedenborg offers a deeply thoughtful and provocative glimpse of this unimaginable life beyond life We must realize that the spirit world is our true home We will inevitably discover that we originated from God s love as cosmic beings Between the Moon and Earth Jay Alfred,2007-01-18 Are heavens and hells parallel realities in a multiverse What has plasma got to do with it Since the dawn of history various cultures have imagined heaven and the abode of gods to be

literally located in some part of the sky and hell in the interior of the Earth From a modern scientific perspective these were the earliest concepts of parallel universes and the idea of a multiverse which is a serious area of research in cutting edge physics today This book presents a model supported by scientific evidence which can shed more light on the intuitive traditional view It appears that after the death of the ordinary matter body a plasma counterpart of that body will indeed find itself in an invisible higher energy plasmasphere which interpenetrates and co rotates with the familiar visible form of planet Earth Depending on their composition these plasma bodies will gravitate or levitate into particular shells that host their own communities in the relevant plasmasphere consistent with established scientific laws in plasma dynamics The higher shells coincide with the visible atmosphere and beyond The lower shells coincide mainly with the crust and upper mantle of the ordinary matter Earth This book takes a detailed look at the habitats of these human linked plasma life forms It is a companion volume to the author s book *Our Invisible Bodies* which focuses mainly on the nature of the bodies of these plasma life forms
