*The Chinese Triangle of Mainland China, Taiwan, and Hong Kong* Alvin Y. So, Nan Lin, Dudley Poston, 2001-07-30 The Chinese triangle of mainland China Hong Kong and Taiwan constitutes one of the most dynamic regions in the world economy Since the late 1970s these three societies have experienced increasing economic integration however studies aimed at analyzing and explaining this integration have often overlooked the very important role social institutions have played in the shaping of this process To fill this gap this book adopts a systematic institutional approach designed to examine the different patterns of institutions in the three countries and to discuss how such social institutions as the economy gender social networks and the Chinese diaspora have exerted a profound impact on all three societies The chapters taken together argue that different patterns of institutional configuration have led to divergent paths of development and that this divergence will have significant implications on the prospects for Chinese national reunification in the twenty first century The Introductory chapter provides a historical discussion on the origins and the transformation of the Chinese triangle during the second half of the twentieth century The remainder of the volume is broken into four topics considered crucial for understanding the transformation of the Chinese triangle economic transformation gender social networks and the Chinese diaspora As globalization impacts the Chinese triangle studies that consider the issues from the perspective of social institutions will be increasingly important to

and flows of the Taiwan issue Their discussions clearly illuminate why there is a Taiwan Problem why conflict did not escalate to war between 2000 and 2008 and why cross Strait relations improved after 2008 The book further reveals the limits of realism as a device to gain traction into the Taiwan issue demonstrates the importance of taking into account domestic political variables and shows how theory can be used to advance the cause of better China Taiwan relations and to analyze the potential for future conflict over Taiwan New Thinking about the Taiwan Issue is essential reading not only for students scholars and practitioners with an interest in studying relations across the Taiwan Strait but also for any reader interested in economics international relations comparative politics or political theory      *Economic Convergence in Greater China* Chun Kwok Lei, Shujie Yao, 2008-12-08 Although China's economy has grown rapidly in recent decades there are still very large differences between the economies of mainland China and those of Hong Kong Macau and Taiwan This book considers how far economic convergence between these four territories has occurred and the prospects for increased convergence in the future      *The Dynamics of Beijing-Hong Kong Relations* Sonny Shiu-hing Lo, 2008-04-01 This book critically assesses the implementation of the one country two systems in the Hong Kong Special Administrative Region HKSAR from the political judicial legal economic and societal dimensions The author contends that there has been a gradual process of mainlandization of the HKSAR meaning that Hong Kong is increasingly economically dependent on the People's Republic of China PRC politically deferent to the central government on the scope and pace of democratic reforms socially more patriotic toward the motherland and more prone to media self censorship and judicially more vulnerable to the interpretation of the Basic Law by the National People's Congress This book aims to achieve a breakthrough in relating the development of Hong Kong politics to the future of mainland China and Taiwan By broadening the focus of the one country two systems from governance to the process of Sino British negotiations and their thrust building efforts this book argues that the diplomats from mainland China and Taiwan can learn from the ways in which Hong Kong's political future was settled in 1982 1984 This is a book for students researchers scholars diplomats and lay people      *Economic Reform And Cross-strait Relations: Taiwan And China In The Wto* Julian Chang, Steven M Goldstein, 2007-07-26 This book provides a discussion of the general impact of WTO membership on both sides of the Taiwan Strait and addresses the political and economic impact on cross Strait relations of common membership The book begins with an introduction which analyzes the state of cross Strait economic and political relations on the eve of dual accession to the WTO and briefly introduces the chapters which follow The first chapter discusses the concessions made by both sides in their accession agreements and is followed by two chapters which describe the manner in which the Taiwan economy was reformed to achieve compliance as well as the specific restrictive trade regime that was put into place to manage mainland trade The next two chapters deal with the implications of that restrictive trade regime for the Taiwan economy in Asia and with the nature of the interactions between the two sides within the WTO The final four chapters of the volume examine the impact of membership on four
