Gone Girls, 1684-1901 Nora Gilbert, 2023 Gone Girls 1684 1901 examines how the persistent trope in eighteenth and nineteenth century British novels of female characters running away from home helped to shape both the novel form and modern feminism **Novel Beginnings** Patricia Meyer Spacks, 2008-10-01 In this study intended for general readers eminent critic Patricia Meyer Spacks provides a fresh engaging account of the early history of the English novel Novel Beginnings departs from the traditional narrow focus on the development of the realistic novel to emphasize the many kinds of experimentation that marked the genre in the eighteenth century before its conventions were firmly established in the nineteenth Treating well known works like Tom Jones and Tristram Shandy in conjunction with less familiar texts such as Sarah Fielding's The Cry a kind of hybrid novel and play and Jane Barker's A Patch Work Screen for the Ladies a novel of adventure replete with sentimental verse and numerous subnarratives the book evokes the excitement of a multifaceted and unpredictable process of growth and change Investigating fiction throughout the 1700s Spacks delineates the individuality of specific texts while suggesting connections among novels She sketches a wide range of forms and themes including Providential narratives psychological thrillers romances clef sentimental parables political allegories Gothic romances and many others These multiple narrative experiments show the impossibility of thinking of eighteenth century fiction simply as a precursor to the nineteenth century novel Spacks shows Instead the vast variety of engagements with the problems of creating fiction demonstrates that literary history by no means inexorable might have taken quite a different course

*Handbook of the British Novel in the Long Eighteenth Century* Katrin Berndt, Alessa Johns, 2022-07-18 The handbook

offers a comprehensive introduction to the British novel in the long eighteenth century when this genre emerged to develop into the period's most versatile and popular literary form. Part I features six systematic chapters that discuss literary, intellectual, socio-economic and political contexts, providing innovative approaches to issues such as sense and sentiment, gender considerations, formal characteristics, economic history, enlightened and radical concepts of citizenship and human rights, ecological ramifications and Britain's growing global involvement. Part II presents twenty-five analytical chapters that attend to individual novels, some canonical and others recently recovered. These analyses engage the debates outlined in the systematic chapters, undertaking in-depth readings that both contextualize the works and draw on relevant criticism, literary theory and cultural perspectives. The handbook's breadth and depth, clear presentation and lucid language make it attractive and accessible to scholar and student alike.

Rethinking Gothic Transgressions of Gender and Sexuality Sarah Faber, Kerstin-Anja Münderlein, 2024-03-11. From early examples of queer representation in mainstream media to present-day dissolutions of the human-nature boundary, the Gothic is always concerned with delineating and transgressing the norms that regulate society and speak to our collective fears and anxieties. This volume examines British and American Gothic texts from four centuries and diverse media, including novels, films, podcasts and games, in case studies which outline the central relationship between the Gothic and transgression, particularly gendered and sexual transgression. This relationship is both crucial and constantly shifting, ever in the process of renegotiation, as transgression defines the Gothic and society redefines transgression. The case studies draw on a combination of well-studied and under-studied texts in order to arrive at a more comprehensive picture of transgression in the Gothic. Pointing the way forward in Gothic Studies, this original and nuanced combination of gendered, Ecogothic, queer and media-critical approaches addresses established and new scholars of the Gothic alike.

"We are Three Sisters" Drew Lamonica, 2003. A Companion to E.M. Forster Sunil Kumar Sarker, 2007. A Great Novelist, A Learned and Wise Critic and A Charming Short Story Writer. Can these three reside in a single person? Yes, but of course in a very few. And E.M. Forster is certainly one of those very few. And that he is, par excellence, any knowledge of modern English novel without even an acquaintance with Forster is absurdly incomplete. All of Forster's six novels, perhaps barring only *Maurice*, have been and are being printed and reprinted in hundreds of thousands of copies. And all the six, but perhaps the longest, *Journey into Europe*, have been filmed by worthy directors such as Lean and Merchant. And the films have received and are receiving high and spontaneous acclamations. As said Forster is also an outstanding critic and will go a long way down the history of criticism as much as he will be remembered as a highly fantastic but excellent short story writer for a long time to come. As he is today, this compendium-like book, split into three volumes, contains discussions on all the six novels of Forster where angles fear to tread: *The Longest Journey*, *A Room with a View*, *Howards End*, *Maurice* and *A Passage to India*. Besides the study includes his twelve prime short stories and his critical acumen and theories. It does not harbour no, it carefully avoids any pretension or pedantry. But it

Comprises Almost All The Matters Relevant To Forsteriana Plainly But Rather Expatiatingly Treated So That It Is Expected To Help Yeoman Like Certainly Not The Avant Garde But The Sophomores An In Depth Study Of Forster As A Novelist And As A Critic Provided Herein Adds To The Value Of The Book Furthermore Quotations Included In The Appendix Bibliography And Index Would Serve As Useful Study Aids For The Readers      **Victorian Unfinished Novels** S. Tomaiuolo,2012-07-06

The first detailed study on the subject of Victorian unfinished novels this book sheds further light on novels by major authors that have been neglected by critical studies and focuses in a new way on critically acclaimed masterpieces offering a counter reading of the nineteenth century literary canon      **The Victorian Approach to Modernism in the Fiction of Dorothy L. Sayers** Aoife Leahy,2009-05-27

Dorothy L Sayers wrote bestselling detective novels and short stories in the 1920s and 1930s Working within a popular medium Sayers promotes nineteenth century and modernist literature with skills learnt during a period of employment in an advertising agency In much of her fiction she recommends her choice of good books by name She also suggests that taking Victorian literature as a foundation can bring her reader to a better understanding of literary modernism With a didactic intent Sayers shows how Lewis Carroll s Alice can help us to eventually read Virginia Woolf for instance Her approach to educating her readers is always through entertainment Sayers worked briefly as a teacher before taking up copywriting and retained important insights on how to improve the learning experience for any reader Sayers admiration for the Victorian sensation author Wilkie Collins is widely recognised This book examines Sayers attention to equally important Victorian influences from John Ruskin and George Eliot to Oscar Wilde particularly in relation to the topic of education She often questions the boundaries between popular and serious literature Sayers personal views on the connections between mid Victorian late Victorian and high modernist authors are also considered      **Current Book Review**

**The Woman's Historical Novel** D. Wallace, 2004-11-19 The historical novel has been one of the most important forms of women's reading and writing in the twentieth century yet it has been consistently under rated and critically neglected In the first major study of British women writers use of the genre Diana Wallace tracks its development across the century She combines a comprehensive survey with detailed readings of key writers including Naomi Mitchison Georgette Heyer Sylvia Townsend Warner Margaret Irwin Jean Plaidy Mary Renault Philippa Gregory and Pat Barker

**The English Novel** George Saintsbury, 1913 It is somewhat curious that there is so far as I know no complete handling in English of the subject of this volume popular and important though that subject has been Dunlop's History of Fiction an excellent book dealt with a much wider matter and perforce ceased its dealing just at the beginning of the most abundant and brilliant development of the English division Sir Walter Raleigh's English Novel a book of the highest value for acute criticism and grace of style stops short at Miss Austen and only glances by a sort of anticipation at Scott The late Mr Sidney Lanier's English Novel and the Principle of its Development is really nothing but a laudatory study of George Eliot with glances at other writers including violent denunciations of the great eighteenth century men There are numerous monographs on parts of the subject but nothing else that I know even attempting the whole I should of course have liked to deal with so large a matter in a larger space but one may and should cultivate the garden even if it is not a garden of many acres in extent I need only add that I have endeavoured not so much to give reviews of individual books and authors as to indicate what Mr Lanier took for the second part of his title but did not I think handle very satisfactorily in his text I may perhaps add without impropriety that the composition of this book has not been hurried and that I have taken all the pains I could by revision and addition as it proceeded to make it a complete survey of the Novel as it has come from the hands of all the more important novelists not now alive up to the end of the nineteenth century
