## **Elmina Possibly A True Story:**

**Elmina's Fire** Linda Carleton, 2025-07-30 What happens when a troubled young woman dares to follow the stirrings of her soul in turbulent times Elmina begins life with a troubled childhood in a medieval French town a childhood that turns her into a spiritually seeking young woman who dares to follow the stirrings of her soul Her idealism and love lead her to leave a Cathar school and follow the man who will become Saint Dominic As the world around her erupts into the Albigensian Crusade Elmina finds herself complicit in its horror and her spiritual and emotional life begins to unravel With the aid of the counsel of her wise prior Brother Noel Elmina learns to paint her experiences within a sacred circle a practice that helps her discover the origins of her lifelong fears and wrestle with questions that are as divisive today as they were eight centuries ago the nature of God the purpose of creation the nature of evil and the possibility of reincarnation **Cobbett's**

Hansard's Parliamentary Debates Great Britain. Parliament, 1874 **Born in Blackness: Africa, Africans, and the Making of the Modern World, 1471 to the Second World War** Howard W. French, 2021-10-12 Revealing the central yet intentionally obliterated role of Africa in the creation of modernity Born in Blackness vitally reframes our understanding of world history Traditional accounts of the making of the modern world afford a place of primacy to European history Some credit the fifteenth century Age of Discovery and the maritime connection it established between West and East others the accidental unearthing of the New World Still others point to the development of the scientific method or the spread of Judeo Christian beliefs and so on ad infinitum The history of Africa by contrast has long been relegated to the remote outskirts of our global story What if instead we put Africa and Africans at the very center of our thinking about the origins of modernity In a sweeping narrative spanning more than six centuries Howard W French does just that for Born in Blackness vitally reframes the story of medieval and emerging Africa demonstrating how the economic ascendancy of Europe the anchoring of democracy in the West and the fulfillment of so called Enlightenment ideals all grew out of Europe's dehumanizing engagement with the dark continent In fact French reveals the first impetus for the Age of Discovery was not as we are so often told even today Europe's yearning for ties with Asia but rather its centuries old desire to forge a trade in gold with legendarily rich Black societies sequestered away in the heart of West Africa Creating a historical narrative that begins with the commencement of commercial relations between Portugal and Africa in the fifteenth century and ends with the onset of World War II Born in Blackness interweaves precise historical detail with poignant personal reportage In so doing it dramatically retrieves the lives of major African historical figures from the unimaginably rich medieval emperors who traded with the Near East and beyond to the Kongo sovereigns who heroically battled seventeenth century European powers to the ex slaves who liberated Haitians from bondage and profoundly altered the course of American history While French cogently demonstrates the centrality of Africa to the rise of the modern world Born in Blackness becomes at the same time a far more

significant narrative one that reveals a long concealed history of trivialization and more often elision in depictions of African history throughout the last five hundred years As French shows the achievements of sovereign African nations and their now far flung peoples have time and again been etiolated and deliberately erased from modern history As the West ascended their stories siloed and piecemeal were swept into secluded corners thus setting the stage for the hagiographic rise of the West theories that have endured to this day Capacious and compelling Laurent Dubois Born in Blackness is epic history on the grand scale In the lofty tradition of bold revisionist narratives it reframes the story of gold and tobacco sugar and cotton and of the greatest commodity of them all the twelve million people who were brought in chains from Africa to the New World whose reclaimed lives shed a harsh light on our present world [Truth Seeker](#) ,1895 [Pilgrimage Tourism of Diaspora Africans to Ghana](#) Ann Reed,2014-08-27 Processes of globalization have led to diasporic groups longing for their homelands One such group includes descendants from African ancestors displaced by the trans Atlantic slave trade who may be uncertain about their families exact origins Traveling home often means visiting African sites associated with the slave trade journeys full of expectations The remembrance of the slave trade and pilgrimages to these heritage sites bear resemblance to other diasporic travels that center on trauma identification and redemption Based on over two years of ethnographic fieldwork with both diaspora Africans and Ghanaians this book explores why and how Ghana has been cast as a pilgrimage destination for people of African descent especially African Americans Grounding her research in Ghana s Central Region where slavery heritage tourism and political ideas promoting incorporation into one African family are prominent Reed also discusses the perspectives of ordinary Ghanaians tourism stakeholders and diasporan repatriates Providing ethnographic insight into the transnational networks of people and ideas entangled in Ghana s pilgrimage tourism this book also contributes to better understanding the broader global phenomenon of diasporic travel to homeland centers [Balthazar](#) Kristen Collins,Bryan C. Keene,2023-02-28 This abundantly illustrated book examines the figure of Balthazar one of the biblical magi and explains how and why he came to be depicted as a Black African king According to the Gospel of Matthew magi from the East following a star traveled to Jerusalem bearing precious gifts for the infant Jesus The magi were revered as wise men and later as kings Over time one of the three came to be known as Balthazar and to be depicted as a Black man Balthazar was familiar to medieval Europeans appearing in paintings manuscript illuminations mosaics carved ivories and jewelry But the origin story of this fascinating character uncovers intricate ties between Europe and Africa including trade and diplomacy as well as colonization and enslavement In this book experts in the fields of Ethiopian West African Nubian and Western European art explore the representation of Balthazar as a Black African king They examine exceptional art that portrays the European fantasy of the Black magus while offering clues about the very real Africans who may have inspired these images Along the way the authors chronicle the Black presence in premodern Europe where free and enslaved Black people moved through public spaces and courtly circles The volume s lavish illustrations include selected works by

contemporary artists who creatively challenge traditional depictions of Black history      [A Merciless Place: The Lost Story of Britain's Convict Disaster in Africa](#) Emma Christopher, 2011-08-11 This is a story lost to history for over two hundred years a dirty secret of failure fatal misjudgement and desperate measures which the British Empire chose to forget almost as soon as it was over In the wake of its most crushing defeat the America War of Independence the British Government began shipping its criminals to West Africa Some were transported aboard ships going to pick up their other human cargo African slaves When they arrived at their destination soldiers and even convicts were forced to work in the region's slave trading forts guarding the human merchandise In a few short years the scheme brought death wholesale desertions mutiny piracy and even murder Some of the most egregious crimes were not committed by the exported criminals but by those sent out to guard them Acts of wanton desperation added to rash transgressions as those whom society had already thrown out realised that they had nothing left to lose As jail and prison hulks overflowed and as every other alternative settlement proved unsuitable the British Government gambled and decided to send its criminals as far away as possible to the great south land sighted years before by Captain James Cook Out of the embers of the African debacle came the modern nation of Australia The extraordinary tale is now being told for the first time how a small band of good for nothing members of the British Empire spanned the world from America to Africa and on to Australia profoundly if utterly unwittingly changing history

[Mines of Silver and Gold in the Americas](#) Peter Bakewell, 2020-02-13 This volume focuses on Latin America since it was mainly there that Europeans or their colonial descendants actually engaged in mining in the 16th 19th centuries elsewhere they traded metals mined by others The principal metals produced and in prodigious quantities were silver in the Spanish colonies and gold mainly in Brazil in the 18th century These articles analyse the volume and pattern of production and the forms of labour found in mining Particular attention is given to the technologies of extraction and refining notably the adoption of the mercury amalgamation process this had a major impact driving down silver production costs because the mercury mines were a royal monopoly it also handed control to the Spanish crown      [Vasily Zhukovsky's Romanticism and the Emotional History of Russia](#) Ilya Vinitsky, 2015-05-31 The first major study in English of Vasily Zhukovsky 1783 1852 poet translator of German romantic verse and mentor of Pushkin this book brings overdue attention to an important figure in Russian literary and cultural history Vinitsky's psychological biography argues that Zhukovsky very consciously set out to create for himself an emotional life reflecting his unique brand of romanticism different from what we associate with Pushkin or poets such as Byron or Wordsworth For Zhukovsky ideal love was harmonious built on a mystical foundation of spiritual kinship Vinitsky shows how Zhukovsky played a pivotal role in the evolution of ideas central to Russia's literary and cultural identity from the end of the eighteenth century into the decades following the Napoleonic Wars      **The Spectator**, 1874 A weekly review of politics literature theology and art      **A Beautiful Ending** John Jeffries Martin, 2022-01-01 An award winning historian's revisionary account of the early modern world showing how apocalyptic ideas stimulated political

religious and intellectual transformations A masterful synthesis of the prognostications of faith knowledge and politics on a global stage Martin s book illuminates one of the enduring themes that shaped the medieval and early modern world Paula E Findlen Stanford University In this revelatory immersion into the apocalyptic messianic and millenarian ideas and movements that created the modern world John Jeffries Martin performs a kind of empathic time travel entering into the psyche spirituality and temporalities of a cast of historical actors in profound moments of discovery He argues that religious faith Christian Jewish and Muslim did not oppose but rather fostered the making of a modern scientific spirit buoyed along by a providential view of history and nature and a deep conviction in the coming End of the World Through thoughtful attention to the primary sources Martin re reads the Renaissance excavating a religious foundation at the core of even the most radical empirical thinking Familiar icons like Ibn Khald n Columbus Isaac Luria and Francis Bacon emerge startlingly fresh and newly gleaned agents of a history formerly untold and of a modern world made in the image of its imminent end
