Dirck,2012-05-12 In this highly readable study of Abraham Lincoln s thoughts and actions concerning the U S Constitution Brian R Dirck combines extensive primary research and thoughtful accessible consideration of Lincoln s views to reveal new insights into Lincoln s impact on the U S Constitution In the statesman s roles as a leading antebellum politician an ardent critic of slavery and the president of the United States during the Civil War Lincoln fashioned a strong antislavery constitutional ideology and articulated a constitutional vision of the Civil War that reinforced his determination to restore the Union Grounding Lincoln s constitutionalism in his reading habits and early legal career Dirck masterfully balances biographical details Lincoln s value system the opinions of his supporters and critics and key events and ideas to show how his thinking about the U S Constitution changed over time From Lincoln s deep reverence for the work of the Founding Fathers to his innovative interpretation of presidential war powers Dirck reveals Lincoln s understanding of the Constitution to be progressive emphasizing federal power as a tool to develop the economy and pragmatic in that he was often forced to make decisions on the fly during a remarkably volatile period in American history Lincoln used his conception of presidential war powers to advance the twin causes of Union and emancipation and Dirck explores the constitutional problems stirred by curbs Lincoln placed on civil liberties internal security and freedom of expression during wartime More

than a straightforward overview of Lincoln's constitutional views Lincoln and the Constitution provides a starting point for further inquiry into interpretations and defenses as well as the political intellectual and cultural traditions of the founding document of the United States In the end Dirck shows Lincoln viewed the political and legal traditions of the Constitution with optimism emphasizing throughout his life the possibilities he believed the document held always keeping faith in it and swearing to protect it even as he was awash in a sea of blood and controversy Univeristy Press Books for Public and

The Case for the National Slavery Memorial and Aid to our HBCUs Peter Thalheim, 2024-07-25 It is fitting and proper that the United States dedicate solemnize and erect a memorial on our nation's most precious ground the Washington Mall in Washington District of Columbia to commemorate the slavery and human bondage that existed on these shores before and after the founding of the United States in 1776 and the drafting of our Constitution in 1787 Germany is the only major world military or economic power to have a memorial in its nation's capital to honor and commemorate a historic wrong committed by a nation In that case it was the Holocaust murder of over six million Jews during the regime of Adolf Hitler in 1933-1945 The United States is strong enough that she can erect a memorial to the inhumane treatment of people from the African continent whom were enslaved during the Trans Atlantic slave trade and the horrific treatment of such people and their offspring on these shores Such memorial should be located on the Washington Mall within view of the Lincoln Memorial as he was martyred by the Slave Power and also visible to the Jefferson Memorial as Thomas Jefferson penned the Declaration of Independence the most significant political document to that time declaring the truth that all are created equal and have certain inalienable rights and that among these are life liberty and the pursuit of happiness The Registry of Donors to the National Slavery Memorial has the potential to receive so many donations based on the goodwill of the American people exhibited in part in the aftermath of the killing of African American George Floyd in May 2020 Such donations would far outstrip the cost to design engineer and erect the memorial that these excess funds would be donated directly to our historically black colleges and universities a national treasure

Blacks, Carpetbaggers, and Scalawags Richard L. Hume, Jerry B. Gough, 2008-10-01 After the Civil War Congress required ten former Confederate states to rewrite their constitutions before they could be readmitted to the Union An electorate composed of newly enfranchised former slaves native southern whites minus significant numbers of disenfranchised former Confederate officials and a small contingent of carpetbaggers or outside whites sent delegates to ten constitutional conventions Derogatorily labeled black and tan by their detractors these assemblies wrote constitutions and submitted them to Congress and to the voters in their respective states for approval Blacks Carpetbaggers and Scalawags offers a quantitative study of these decisive but little understood assemblies the first elected bodies in the United States to include a significant number of blacks Richard L Hume and Jerry B Gough scoured

manuscript census returns to determine the age occupation property holdings literacy and slaveholdings of 839 of the conventions 1 018 delegates Carefully analyzing convention voting records on certain issues including race suffrage and government structure they correlate delegates voting patterns with their racial and socioeconomic status The authors then assign a Republican support score to each delegate who voted often enough to count establishing the degree to which each delegate adhered to the Republican leaders program at his convention Using these scores they divide the delegates into three groups radicals swing voters and conservatives and incorporate their quantitative findings into the narrative histories of each convention providing for the first time a detailed analysis of these long overlooked assemblies Hume and Gough s comprehensive study offers an objective look at the accomplishments and shortcomings of the conventions and humanizes the delegates who have until now been understood largely as stereotypes Blacks Carpetbaggers and Scalawags provides an essential reference guide for anyone seeking a better understanding of the Reconstruction era The Bill of Rights and Beyond, 1791-1991 Commission on the Bicentennial of the United States Constitution,1991 Discusses the twenty six amendments to the United States Constitution how each amendment was added the people responsible such as George Mason James Madison and Carrie Chapman Catt and also provides for classroom learning activities **Necro Citizenship** Russ Castronovo,2001-09-27 Argues that the category of death was a central part of the concept of citizenship in the nineteenth century U S and that the particular form of that construction functioned to naturalize white males as ideal citizens

From Oligarchy to Republicanism Forrest A. Nabors,2017-12-19 On December 4 1865 members of the 39th United States Congress walked into the Capitol Building to begin their first session after the end of the Civil War They understood their responsibility to put the nation back on the path established by the American Founding Fathers The moment when the Republicans in the Reconstruction Congress remade the nation and renewed the law is in a class of rare events The Civil War should be seen in this light In *From Oligarchy to Republicanism The Great Task of Reconstruction* Forrest A Nabors shows that the ultimate goal of the Republican Party the war and Reconstruction was the same This goal was to preserve and advance republicanism as the American founders understood it against its natural existential enemy oligarchy The principle of natural equality justified American republicanism and required abolition and equal citizenship Likewise slavery and discrimination on the basis of color stand on the competing moral foundation of oligarchy the principle of natural inequality which requires ranks The effect of slavery and the division of the nation into two opposite systems of civilization are causally linked Charles Devens a lawyer who served as a general in the Union Army and his contemporaries understood that slavery s existence transformed the character of political society One of those dramatic effects was the increased power of slaveowners over those who did not have slaves When the slave state constitutions enumerated slaves in apportioning representation using the federal three fifths ratio or by other formulae intra state sections where slaves were concentrated would receive a substantial grant of political power for slave ownership In contrast low slave owning sections of the state

would lose political representation and political influence over the state This contributed to the non slaveholders loss of political liberty in the slave states and provided a direct means by which the slaveholders acquired and maintained their rule over non slaveholders This book presents a shared analysis of the slave South synthesized from the writings and speeches of the Republicans who served in the Thirty Eighth Thirty Ninth or Fortieth Congress from 1863 1869 The account draws from their writings and speeches dated before during and after their service in Congress Nabors shows how the Republican majority charged with the responsibility of reconstructing the South understood the South Republicans in Congress were generally united around the fundamental problem and goal of Reconstruction They regarded their work in the same way as they regarded the work of the American founders Both they and the founders were engaged in regime change from monarchy in the one case and from oligarchy in the other to republicanism The insurrectionary states governments had to be reconstructed at their foundations from oligarchic to republican The sharp differences within Congress pertained to how to achieve that higher goal
