Embodying Gender:

Embodying Gender Alexandra Howson, 2005-05-20 Surveying all the key concepts in the field this book introduces us to an extensive range of narratives of embodiment and presents a full analysis of the most important texts in new feminist theories of the body

Embodying Gender Alexandra Howson, 2005-04-13 Embodying Gender provides students and academics with a critical overview of body concepts in both sociology and in feminism Previously sociologists have attempted to gender the body and feminists have attempted to embody gender but Alexandra Howson's accessible new text draws these two literatures together pointing to ways of integrating feminist perspectives on the body into sociological theory Surveying all the key concepts in the field this book introduces us to an extensive range of narratives of embodiment and presents a full analysis of the most important texts in new feminist theories of the body Key questions covered include o What can sociology say about the body o What impact has the body made on sociology o What conceptual frameworks are used to address the body How do these relate to issues of gender and embodied experience o How do feminist conceptual tools sit within sociological analysis Written in a clear accessible style Embodying Gender is an invaluable text for undergraduate students postgraduates and academics in the fields of women's and gender studies and sociology and is particularly relevant to those specialising in sociology of the body feminist theory and social theory

Embodying Gender and Age in Speculative Fiction Derek J. Thiess, 2015-10-14 Following scholarship on gender in science fiction this book explores the limits of considering age as a social construction positing that an acknowledgement of aged bodies necessarily changes the way we read both age and science fiction The volume employs contemporary clinical psychology the biopsychosocial model to demonstrate that age is an important and neglected topic relevant to the study of speculative fiction While gender offers a vocabulary the biopsychosocial approach provides a method to consider age and gender as an embodied synthesis of physicality psychology and social environment This respected model of clinical psychology allows a unique and innovative lens through which to read age and the body in literature Thiess offers readings of established sf classics including Octavia Butler's Parable series Orson Scott Card's Ender's Game and cyberpunk authors such as Bruce Sterling Pat Cadigan and Neal Stephenson also exploring more mainstream speculative works including Stephanie Meyer's Twilight series and Joss Whedon's Firefly Serenity Visiting topics such as care work sexuality sport and the military in these works the book demonstrates that acknowledging a more fully embodied age is not only necessary for the individual subject but will also enrich our understanding of other social categories including gender and race Taking a constructive rather than adversarial stance this book does not merely question how much one can ethically and responsibly bend age but suggests there is a great deal to learn when one explores those limits

Embodying Gender Lisa Catherine Harper, 1998 **Embodying the Sacred** Charlene Elizabeth Makley, 1999 *Embodying Honor* Amal Fadlalla, 2007-09-21 In the Red Sea Hills of eastern Sudan where poverty famines and conflict loom large women struggle to gain the status of responsible motherhood through bearing

Die Wirklichkeit der Städte Helmuth Berking, Martina Löw, 2005 Die Stadt ist ein Begriff der eine ganze Welt im Schlepptau halt eine semantische Verdichtung mittels derer sich nicht nur Wahrnehmungen Bilder und Erfahrungen sondern auch kulturelle Wissensbestände produzieren und organisieren lassen Obwohl Städte seit 10 000 Jahren physisch präsent sind ist der Streit um den ontologischen Status der Stadt längst nicht entschieden die Frage nach einem vorgängigen Gegenstand Stadt heute umstrittener denn je Dabei lässt sich kaum ein Problem identifizieren dass nicht an und in den Städten imaginiert worden wäre In den Städten verweilt das Gedächtnis der Menschheit Städte sind Weltanschauungen Lebensformen Philosophien Räume des Begehrens Arenen der Macht und ihres Verfalls

Embodying Autobiography and Mothering Feminist Theory R. Joyce Lausch, 2003

Embodying Religion, Gender and Sexuality Sarah-Jane Page, Katy Pilcher, 2020-12-27 Taking the notion of embodiment as a starting point this volume maps the interconnecting relationships between religion gender and sexuality The chapters highlight how the body its location the narratives that surround it its movement and negotiations is central to understanding these multifaceted relationships The contributors recognise the ways in which gender and sexuality are crucial to how we embody religion and encourage a more complex and nuanced understanding of embodied religion The material is organised according to three central themes 1 the relationship between the religious and the secular 2 power regulation and resistance and 3 the symbolism of gendered bodies Cutting across a range of disciplinary perspectives

Embodying Religion Gender and Sexuality will be relevant to students of sociology anthropology gender and sexuality studies theology and religious studies Hypatia ,2008 **Embodying Gender and Age in Speculative Fiction** Derek Thiess,2016 **Introducing Gender & Womens Studies** Victoria Robinson,Diane Richardson,2008 This edition is carefully designed to reflect classic and new developments in the popular field of gender and women s studies **Gender and Language Research Methodologies** Kate Harrington,2008-07-10 An up to date overview by actual practitioners of key research methodologies currently used in language and gender study Embodying Inequality Nancy Krieger,2005 To advance the epidemiological analysis of social inequalities in health and of the ways in which population distributions of disease disability and death reflect embodied expressions of social inequality this volume draws on articles published in the International Journal of Health Services between 1990 and 2000 Framed by ecosocial theory it employs ecosocial constructs of embodiment pathways of embodiment cumulative interplay of exposure susceptibility and resistance across the lifecourse and accountability and agency to address the question and who and what drives current and changing patterns of social inequalities in health **A Compendious and Complete Hebrew and Chaldee Lexicon to the Old Testament** Benjamin Davies,1879 **The Hidden Gender of Law** Regina Graycar,Jenny Morgan,1990 Child abuse Affirmative action Divorce Domestic violence Discrimination Equal opportunity Family law Sexual harassment Surrogacy **Embodying Sociology** Chris Shilling,2007-06-18 With contributions from Europe America and Asia this text brings together a series of theoretical methodological and empirical analyses by leading international exponents of body studies and scholars concerned with exploring the structural interactional and phenomenological features of human embodiment **Gender, Bodies and Work** D. H. J. Morgan,Berit Brandth,Elin Kvande,2005 All work is gendered and all work is embodied Yet in common with so many features of social life these connections have remained largely unnoticed in most areas of social enquiry All three topics gender bodies and work have their own history and theoretical concerns and have recently showed signs of convergence This volume recognizes this convergence and explores the inter connections more specifically The authors provide a set of questions which draw together themes already present in existing studies and which provide the basis for further analysis and theoretical elaboration The chapters explore processes of embodiment and disembodiment within working settings and discuss the implications of these for the construction of gendered identities Enhancing our knowledge of all three terms Gender Bodies and Work develops a perspective that has considerable potential both for assessing the past and exploring the future **Journal of Leisure Research** ,1994
