Stanglin, 2018-08-21 For the better part of fifteen centuries Christians read Scripture on two complementary levels the literal and the spiritual In the modern period the spiritual sense gradually became marginalized in favor of the literal sense The Bible came to be read and interpreted like any other book This brief accessible introduction to the history of

biblical interpretation examines key turning points and figures and argues for a retrieval of the premodern spiritual habits of reading Scripture

The Liturgy of the Gospel Wolfgang Vondey, 2025-09-12 Vondey argues that theological hermeneutics in Pentecostal perspective is the interpretation of the world explicitly and specifically informed by the liturgy of the gospel This book identifies the corresponding hermeneutical questions that have dominated the formation of a liturgical Pentecostal horizon of interpretation since the twentieth century Pentecostals are acutely aware that the claim of their interpretive position shows not only a fusion of horizons but also a rejection of the dominant descriptive mechanisms How this tension in the history of Pentecostal theology is resolved and contributes to the emergence of Pentecostalism as a hermeneutical tradition is the subject of three critical inquiries 1 the question of truth in the Pentecostal tradition 2 the extension of the question of truth to hermeneutical experience and 3 the ontological shift of Pentecostal hermeneutics Vondey identifies how Pentecostal hermeneutics emerged not only thematically and historically but experientially and subjectively through the themes of the full gospel This book shows that rather than by the dominance of language the dynamic hermeneutical positioning in the narrative of this gospel originated and continues to be shaped liturgically

The Supernatural and the Circuit Riders Rimi Xhemajli, 2021-06-22 In The Supernatural and the Circuit Riders Rimi Xhemajli shows how a small but passionate movement grew and shook the religious world through astonishing signs and wonders Beginning in the late eighteenth century early American Methodist preachers known as circuit riders were appointed to evangelize the American frontier by presenting an experiential gospel one that featured extraordinary phenomena that originated from God's Spirit In employing this evangelistic strategy of the gospel message fueled by supernatural displays Methodism rapidly expanded Despite beginning with only ten official circuit riders in the early 1770s by the early 1830s circuit riders had multiplied and caused Methodism to become the largest American denomination of its day In investigating the significance of the supernatural in the circuit rider ministry Xhemajli provides a new historical perspective through his eye opening demonstration of the correlation between the supernatural and the explosive membership growth of early American Methodism which fueled the Second Great Awakening In doing so he also prompts the consideration of the relevance and reproduction of such acts in the American church today

God the Spirit Beth Felker Jones, 2014-01-21 Who is the mysterious Holy Spirit and why does it matter for the Christian life How do we know when the Spirit is working This book introduces the doctrine of the Holy Spirit in the Wesleyan theological tradition and within the greater church It covers key biblical bases for thinking about the Spirit and it seeks to inspire confidence in the Spirit's power

The Encyclopedic Sourcebook of New Age Religions James R. Lewis, 2004-08-30 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public's curiosity While the movement was at its height scholars of religion generally sneered at what was

perceived to be a daffy shallow craze and ignored it as a subject of serious study Professor James R Lewis was among the first to examine this growing religious phenomenon scientifically In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought The present collection pursues this theme bringing together some of the best recent scholarship on new religions Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups Other chapters examine the movement's historical roots A unique feature of Dr Lewis's work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups This is a fascinating examination of a significant and persistent religious and social phenomenon

The Spirit Within Rikki, 2005 You know as unique as each of us is all of us are very similar to one another as well How often have you felt as though no one could understand what you are experiencing Have you ever wondered what possible reasons there could be for our journeys and our struggles or how spirituality fits into them Have you ever wondered How will I cope with it all Have you ever tried to make sense of the pain that Life seems to continue to throw your way Do you ever feel like Life is just a series of difficult lessons For all our differences we are also very similar yet sometimes we feel very much alone and misunderstood Inside this book you will find a collection of short stories in which you will see yourself over and over again Some of the stories are purely about our human struggles others look at them from a spiritual perspective offering possible answers to many of your questions Take a little walk down the common path of our human existence and find yourself elevated to the spiritual plane where you just might experience help and healing in ways that you've never experienced them before

Journal for Star Wisdom 2010 Daniel Andreev, David Tresemer, Ellen Schalk, Robert Schiappacasse, William Bento, 2009-11 10 lectures Helsinki April 3 14 1912 CW 136 Rudolf Steiner's achievement in these lectures it has been said by Valentin Tomberg cannot be compared with the accomplishment of any contemporary seer or thinker or with any of the Middle Ages or antiquity It towers over them In the architecture of Rudolf Steiner's great cosmological temple this extraordinary course of lectures on spiritual beings forms the central pillar with other important texts such as the fourth chapter of *An Outline of Esoteric Science* CW 13 *The Spiritual Hierarchies and the Physical World* CW 136 and *Inner Experiences of Evolution* CW 132 These works outlining a revolutionary angelological cosmology are at the heart of Steiner's mission to transform our understanding of the world by laying down a new non dual phenomenological path to a contemporary divine spiritual physical cosmology that is angelological and theophanic For Steiner what constitutes the world are beings including the ground of the world itself the Father being Steiner's cosmology or angelology is personal and it is known in relationship therefore he presents it in terms of states and deeds of conscious and of the divine spiritual beings whose states and deeds they are The spiritual world is thus always a world of beings The

twin realizations I am an I being and reality is constituted of other I beings go together Cosmology is angelology Spiritual beings define experience of the nature of reality In these lectures the reader is led through a series of meditations to recognize these spiritual beings and come to know their deeds Steiner's approach is contemporary in that while continuous with the most ancient understanding of the cosmos he discovers it for himself out of his own experience and consciousness and expresses it in his own words with a logic and language appropriate to our time Thus he teaches us his readers to do the same In these lectures the reader is led through a series of meditations to recognize and come to know the activities and beings of the hierarchies FIRST HIERARCHY Seraphim Spirits of Universal Love Cherubim Spirits of Harmony Thrones Spirits of Will SECOND HIERARCHY Kyriotetes Spirits of Wisdom Dominions Dynamis Spirits of Motion Might or Virtues Exusiai Spirits of Form Powers THIRD HIERARCHY Archai Principalities Spirits of Personality Time spirits Spirits of the Age Archangeloi Archangels Folk Spirits Spirits of Fire Angeloi Angels Messengers Spirits of Life or of Twilight THE HUMAN BEING KINGDOMS OF NATURE Animal Plant Mineral Steiner's achievement in these lectures as Valentin Tomberg said cannot be compared with the accomplishment of any contemporary seer or thinker or with any of the Middle Ages or antiquity It towers over them This book is a translation from German of the book *Die geistigen Wesenheiten in den Himmelskörpern und Naturreichen* GA 136 Translator unknown original translation revised by Marsha Post Catechetics: Historical, Theoretical, and Practical Heinrich Ziegler, 1873 **The Village Enlightenment in America** Craig Hazen, 2000-01-05 The Village Enlightenment in America focuses on three nineteenth century spiritual activists who epitomized the marriage of science and religion fostered in antebellum pre Darwinian America by the American Enlightenment A theologian writer and apologist for the nascent Mormon movement as well as an amateur scientist Orson Pratt wrote *Key to the Universe or a New Theory of Its Mechanism* to establish a scientific base for the Church of Jesus Christ of Latter day Saints Robert Hare an inventor and ardent convert to spiritualism used his scientific expertise to lend credence to the spiritualist movement Phineas Parkhurst Quimby generally considered the initiator of the American mind cure movement developed an overtly religious concept of science and used it to justify his system of theology Pratt Hare and Quimby all employed a potent combination of popular science and Baconianism to legitimate their new religious ideas Using the same terms matter ether magnetic force to account for the behavior of particles planetary rotation and the influence of the Holy Ghost these agents of the Enlightenment constructed complex systems intended to demonstrate a fundamental harmony between the physical and the metaphysical Through the lives and work of these three influential men The Village Enlightenment in America opens a window to a time when science and religion instead of seeming fundamentally at odds with each other appeared entirely reconcilable
