Embracing Contraries

Peter Elbow

Embracing Contraries:

Embracing Contraries Peter Elbow, 1986 Peter Elbow's widely acclaimed and novel theories on the writing process set out in *Writing without Teachers* and *Writing with Power* have earned him the reputation of a leading innovator in the field. Now Elbow has drawn together twelve of his essays on the nature of learning and teaching which together form a comprehensive synthesis of his philosophy of education. At once theoretical and down to earth, this collection will appeal not only to teachers and students of education but to all those with a love of learning. What Elbow asks is natural in studying learning and teaching: What are our assumptions about how the mind ought to function in learning and teaching? Elbow explores the contraries in the educational process in particular his theory that clear thinking can be enhanced by inviting indecision, incoherence, and paradoxical thinking. The essays written over a period of twenty-five years are engaged in a single enterprise to arrive at insights or conclusions about learning and teaching while still doing justice to the rich messiness of intellectual inquiry. Elbow discusses the value of interdisciplinary teaching, his theory of cooking, an interaction of conflicting ideas, the authority relationship in teaching, and the value of specifying learning objectives. A full section is devoted to evaluation and feedback, both of students and faculty. Finally, Elbow focuses on the need to move beyond the skepticism of critical thinking to what he calls methodological belief: an ability to embrace more than one point of view. About the Author: Peter Elbow is Director of the Writing Program at the State University of New York at Stony Brook. He has also taught at MIT, Franconia College, Evergreen State College, and Wesleyan University. The famed innovator in writing instruction shares his philosophy of education.

Everyone Can Write Peter Elbow, 2000-03-30 This new collection of essays brings together the best of Elbow's writing since the publication of *Embracing Contraries* in 1987. The volume includes sections on voice, the experience of writing, teaching, and evaluation. Implicit throughout is Elbow's commitment to humanizing the profession and his continued emphasis on the importance of binary thinking and nonadversarial argument. The result is a compendium of a master teacher's thoughts on the relation between good pedagogy and good writing; it is sure to be of interest to all professional teachers of writing and will be a valuable book for use in graduate composition courses.

[The New Handbook of Teacher Evaluation](#) Jason Millman, Linda Darling-Hammond, 1990 The 25 chapters in this handbook examine evaluation purposes, processes, and methods and discuss how they shape the implementation and outcomes of evaluation. Following an introduction in chapter 1, the nine chapters in Part I consider the purposes of evaluation. Chapters 3, 4, and 5 are concerned with the evaluation processes that determine selection into teaching, preservice evaluation, licensure, and certification. Chapters 6, 7, and 8 focus on how evaluation may support the development of greater teaching competencies for beginning and veteran teachers. Chapters 9 and 10 consider school accountability and school improvement. Part II examines the various methods used to evaluate teachers along with their strengths and limitations as applied to the many purposes of evaluation. Chapters 11 and 12 deal with two methods for evaluating inservice teachers: classroom observations and ratings of classroom

performance while chapter 13 deals with teacher self assessment Chapters 14 and 15 deal with less widely used methods the use of student test scores and the use of teacher portfolios Chapters 16 through 18 address the use of formal tests to evaluate teachers for licensure or certification and chapter 19 discusses combining evaluation data from multiple sources for decision making In Part III some of the system wide concerns that developers and users of evaluation plans must confront are discussed Chapters explore legal ethical administrative and economic aspects of teacher evaluation and ways to improve and support teacher evaluation The use of personnel standards to improve teacher evaluation is also discussed Each chapter contains references Contains six figures and four tables SLD **Writing-Based Teaching** Teresa Vilardi, Mary K.

Playing to Get Smart Elizabeth Jones, Renatta M. Cooper, 2006 Practicing what it preaches Playing to Get Smart will be a playful reading experience for teachers and parents alike With jokes riddles and stories sprinkled throughout the authors show how important play is for children of all ethnic and socioeconomic groups from birth to age 8 This provocative challenge to teachers and parents of young children demonstrates why play is the most effective way for children to develop critical life skills such as thinking creatively and social problem solving It explains why teachers need to provide opportunities for quality play and why parents need to understand the benefits of play for their children

Post-process Theory Thomas Kent, 1999 Breaking with the still dominant process tradition in composition studies post process theory or at least the different incarnations of post process theory discussed by the contributors represented in this collection of original essays endorses the fundamental idea that no codifiable or generalizable writing process exists or could exist Post process theorists hold that the practice of writing cannot be captured by a generalized process or a big theory Most post process theorists hold three assumptions about the act of writing writing is public writing is interpretive and writing is situated The first assumption is the commonsensical claim that writing constitutes a public interchange By interpretive act post process theorists generally mean something as broad as making sense of and not exclusively the ability to move from one code to another To interpret means more than merely to paraphrase it means to enter into a relationship of understanding with other language users And finally because writing is a public act that requires interpretive interaction with others writers always write from some position or some place Writers are never nowhere they are situated Leading theorists and widely published scholars in the field contributors are Nancy Blyler John Clifford Barbara Couture Nancy C DeJoy Sidney I Dobrin Elizabeth Ervin Helen Ewald David Foster Debra Journet Thomas Kent Gary A Olson Joseph Petraglia George Pullman David Russell and John Schilb

Foundations for Sustainability Daniel A. Fiscus, Brian D. Fath, 2018-11-16 Foundations for Sustainability A Coherent Framework of Life Environment Relations challenges existing assumptions on environmental issues and lays the groundwork for a new paradigm bringing a greater understanding of what is needed to help create an environmentally and economically sustainable future which to date has been an uphill battle and not an obvious choice The book presents the case for a paradigm based on a multi model of life as organism life as ecosystem and life as biosphere as opposed to the singular assumption that life can be viewed solely as an organism All backed with well cited research from top investigators from

around the world this book is a must have resource for anyone working in ecology environmental science or sustainability Introduces a holistic systemic approach and a synthesis of the systemic root cause that underlies many surface symptoms that are part of individual environmental problems climate water energy etc Complements current piecemeal approaches in order to solve many interconnected environmental problems which share root causes Provides tests and thought experiments to challenge current views on sustainability leveraging the power of critical thinking to find new solutions Gives insights on how to find solutions by blending interdisciplinary and transdisciplinary focuses with disciplinary specialization in ecology and ecosystem science Bridges concepts and methods from math to ecology to human development

The Argument Culture Deborah Tannen, 2012-10-24 In her number one bestseller *You Just Don't Understand* Deborah Tannen showed why talking to someone of the other sex can be like talking to someone from another world Her bestseller *Talking from 9 to 5* did for workplace communication what *You Just Don't Understand* did for personal relationships Now Tannen is back with another groundbreaking book this time widening her lens to examine the way we communicate in public in the media in politics in our courtrooms and classrooms once again letting us see in a new way forces that have been powerfully shaping our lives *The Argument Culture* is about a pervasive warlike atmosphere that makes us approach anything we need to accomplish as a fight between two opposing sides The argument culture urges us to regard the world and the people in it in an adversarial frame of mind It rests on the assumption that opposition is the best way to get anything done The best way to explore an idea is to set up a debate the best way to cover the news is to find spokespeople who express the most extreme polarized views and present them as both sides the best way to settle disputes is litigation that pits one party against the other the best way to begin an essay is to oppose someone and the best way to show you're really thinking is to criticize and attack Sometimes these approaches work well but often they create more problems than they solve Our public encounters have become more and more like having an argument with a spouse You're not trying to understand what the other person is saying you're just trying to win the argument But just as spouses have to learn ways of settling differences without inflicting real damage on each other so we as a society have to find constructive and creative ways of resolving disputes and differences Public discussions require making an argument for a point of view not having an argument as in having a fight The war on drugs the war on cancer the battle of the sexes politicians turf battles in the argument culture war metaphors pervade our talk and shape our thinking Tannen shows how deeply entrenched this cultural tendency is the forms it takes and how it affects us every day sometimes in useful ways but often causing rather than avoiding damage In the argument culture the quality of information we receive is compromised and our spirits are corroded by living in an atmosphere of unrelenting contention Tannen explores the roots of the argument culture the role played by gender and how other cultures suggest alternative ways to negotiate disagreement and mediate conflicts and make things

better in public and in private wherever people are trying to resolve differences and get things done The Argument Culture is a remarkable book that will change forever the way you perceive the world You will listen to our public voices in a whole new way

Illegal Alphabets and Adult Biliteracy Tomás Mario Kalmar, 2015-03-02 How do illegal aliens chart the speech sounds of colloquial English This book is timeless in offering an unusually direct entry into how a group of Mexican fruit pickers analyze their first encounter with local American speech in a tiny rural Midwestern community in the United States Readers see close up how intelligently migrant workers help each other use what they already know the alphabetic principle of one letter one sound to teach each other from scratch at the very first contact a language which none of them can speak They see how and why the strategies adult immigrants actually use in order to cope with English in the real world seem to have little in common with those used in publicly funded bilingual and ESL classrooms What's new in this expanded edition of Tom's Mario Kalmar's landmark *Illegal Alphabets and Adult Biliteracy* are in depth commentaries from six distinguished scholars Peter Elbow Ofelia Garc a James Paul Gee Herv Varenne Luis V zquez Le n Karen Velasquez who bring to it their own personal professional and multi disciplinary viewpoints

Teaching And Its Predicaments Nicholas Burbules, 2019-05-20 Teaching is a complex and challenging endeavour Teachers are continually faced with difficult choices in which competing values are set in tension with one another The interests of all students and of other groups and constituencies can rarely be served at the same time Different educational goals each desirable in and of itself often place

Teacher Evaluation Kenneth D. Peterson, 2000-05-19 The original edition published in August 1995 challenges current teacher evaluation and school practice The book discusses stages of teacher choice teacher responsibilities for evaluation and suggests ways for teachers to become more involved and in control of their own evaluation Combining information and techniques from his academic studies and evaluation experiences Peterson presents a coherent field tested set of new practices for teacher evaluation The revised edition adds new chapters on the role of the principal in changed teacher evaluation how districts can transition from current practice to improved practices the use of national standards developments in using pupil achievement data and puts a new emphasis on developing sociologically The Internet as a resource for local development is encouraged 67 web sites are recommended as starting points New resources for local development have been added from extensive field testing and analysis forms have been improved and district level principles have been assembled Substantial material has been added on the topic of responding to deficient teacher practice Finally the research literature has been augmented

Yoga Minds, Writing Bodies Christy I. Wenger, 2015-05-01 This book argues for the inclusion of Eastern influenced contemplative education in writing studies as a means of exploring the active engagement writers maintain with their bodies throughout the composing process It explores how this engagement can be navigated by integrating yoga and mediation into the instruction and practice of writing
