*Emerald Tablet of Hermes* Hermes, The Tablet probably first appeared in the West in editions of the pseudo Aristotlean *Secretum Secretorum* which was actually a translation of the *Kitab Sirr al Asar* a book of advice to kings which was translated into latin by Johannes Hispalensis c 1140 and by Philip of Tripoli c 1243 Other translations of the Tablet may have been made during the same period by Plato of Tivoli and Hugh of Santalla perhaps from different sources The date of the *Kitab Sirr al Asar* is uncertain though c 800 has been suggested and it is not clear when the tablet became part of this work Holmyard was the first to find another early arabic version Ruska found a 12th century recension claiming to have been dictated by Sergius of Nablus in the *Kitab Ustqus al Uss al Thani* Second Book of the Elements of Foundation attributed to Jabir Shortly after Ruska found another version appended to the *Kitab Sirr al Khaliqa wa San at al Tabi* a Book of the Secret of Creation and the Art of Nature which is also known as the *Kitab Balaniyus al Hakim fi l Ilal* book of Balinas the wise on the Causes It has been proposed that this book was written may have been written as early as 650 and was definitely finished by the Caliphate of al Ma mun 813 33 Scholars have seen similarities between this book and the Syriac Book of Treasures written by Job of Odessa 9th century and more interestingly the Greek writings of the bishop Nemesius of Emesa in Syria from the mid fourth century However though this suggests a possible Syriac source none of these writings contain the tablet Balinas is usually identified with Apollonius of Tyna but there is little evidence to connect him with the *Kitab Balabiyus* and even if there was the story implies that Balinas found the tablet rather than wrote it and the recent discoveries of the dead sea scrolls and the nag hamamdi texts suggest that hiding texts in caves is not impossible even if we did not have the pyramids before us Ruska has suggested an origin further east and Needham has proposed an origin in China Holmyard Davis and Anon all consider that this Tablet may be one of the earliest of all alchemical works we have that survives It should be remarked that apparently the Greeks and Egyptians used the term translated as emerald for emeralds green granites and perhaps green jasper In medieval times the emerald table of the Gothic kings of Spain and the *Sacro catino* a dish said to have belonged to the Queen of Sheba to have been used at the last supper and to be made of emerald were made of green glass Steele and Singer 488

Smaragdina is a compact and cryptic piece of the Hermetica reputed to contain the secret of the prima materia and its transmutation. It was highly regarded by European alchemists as the foundation of their art and its Hermetic tradition. The original source of the Emerald Tablet is unknown. Although Hermes Trismegistus is the author named in the text, its first known appearance is in a book written in Arabic between the sixth and eighth centuries. The text was first translated into Latin in the twelfth century. Numerous translations, interpretations, and commentaries followed. The layers of meaning in the Emerald Tablet have been associated with the creation of the philosopher's stone as well as with other esoteric ideas. *The Emerald Tablets of Thoth the Atlantean* Bart Marshall, 2020-03-05. Most ancient spiritual texts are of unknown or uncertain origin, but few are as deeply shrouded in myth, legend, and mystery as The Emerald Tablets of Thoth the Atlantean and the closely associated and more well-known Emerald Tablet attributed to Hermes Trismegistus. In this book, Bart Marshall, a renowned translator of many eastern and Christian texts, presents these valuable teachings in a poetic, intensely readable form. Scholars speak of the Emerald Tablet as one of the most mysterious documents ever put before the eyes of man and describe it as everything from a succinct summary of Neoplatonic philosophy to an extraterrestrial artifact to a gift from Atlantis. The Tablet is attributed to the legendary figure of Hermes Trismegistus, said to be an ancient philosopher, healer, and sage. References to Trismegistus can be found in Renaissance, Christian, Islamic, Roman, and Greek literature, and the Tablet appears and disappears across the ancient world before and after the birth of Christ. Spiritually, the Emerald Tablet and the Emerald Tablets of Thoth are closely related to alchemy and are said to reveal the secrets of creating the Philosopher's Stone. Alchemical traditions, whether European, Middle Eastern, or Asian, pursue the same prize: the creation of the Philosopher's Stone. Also known as the Pearl of Great Price, the Wish-Fulfilling Jewel, and the Heart of the Sun, it is the tool that turns base lead into gold. The ultimate insight to be discovered by the wise is that the alchemical process is an allegory of spiritual development, outlining inescapable psychological steps one must pass through to reach Self-Realization. It is the ultimate transmutation, turning the base lead of ego into the gold of enlightenment through a process of destruction and refinement. To the master alchemist, producing physical gold is not the objective; Transmuting and refining the soul is the true prize.
