Scott Hoffman,2024-05-06      **Secured Finance Law in China and Hong Kong** Mark Williams,Haitian Lu,Chin Aun Ong,2010-10-14 This book examines systematically the current systems of secured lending in China and Hong Kong where companies or individuals offer personal property as security for credit advanced by a lender Valid and enforceable security reduces the risk to the lender and so lowers the cost of credit to the borrower However the Hong Kong system being largely derived from English law is highly complex and in need of root and branch reform The forces of inaction have triumphed and valuable opportunities to create a modern rational and efficient system have been squandered In China on the other hand a completely new system has been created in the last twenty years which whilst it has various problems and defects has some notable advantages over the common law equivalent found in Hong Kong      *Secured Credit and the Harmonisation of Law* Gerard McCormack,2011-01-01 This book will be of great interest to practitioners policymakers and academics as well as students particularly postgraduate students of law and business throughout the world      **Availability of Credit and Secured Transactions in a Time of Crisis** N. Orkun Akseli,2013-12-12 In the light of the financial crisis it has become clear that the globalisation of financial markets has not been matched by the globalisation of legal certainty relating to financial transactions The ability to give security influences not only the cost of credit but also in some cases whether credit will be available at all Increasing the availability and lowering the cost of credit can make an important contribution to international and domestic economic development Assessing the international challenges posed by inefficient secured credit laws this book explores how these can be overcome to facilitate credit through legal reforms Leading authorities in the field address the key issues surrounding the availability of credit the role of banks in economic development and financial crises UNCITRAL's legislative efforts and international organisations and financial institutions and their involvement in the reform of secured transactions law      Law and Legalization in Transnational Relations Christian Brüttsch,Dirk Lehmkuhl,2007-03-06 Complex legalization and the many moves to law Christian Brüttsch and Dirk Lehmkuhl Transnational legalization of accounting the case of international financial reporting standards Jens Wistemann and Sonja Kierzek The harmonization of private commercial law the case of secured finance Edward S Cohen Multi stakeholder initiatives to combat money laundering and bribery Mark Pieth Legalization transnationalism and organic agriculture William D Coleman and Austina J Reed Beyond Westphalia competitive legalization in emerging transnational regulatory systems Errol Meidinger Beyond legalization how global standards work Bas Arts and Dieter Kerwer International standards functions and links to law Erich Schanze Beyond legalization reading the increase variation and differentiation of legal and law like arrangements in international relations through world society theory Mathias Albert The role of the transnational corporation in the process of legalisation insights from economics and corporate social responsibility Andreas Georg Scherer and Dorothe Baumann      *Power and Pluralism in International Law* Edward S. Cohen,2022-03-10 Demonstrating the crucial role that private international law and legality has played and continues to play in shaping globalization this book argues that the rules

institutions and actors that make up the practice of private international law have been critical in translating political and economic power into legal regimes that have facilitated the processes of globalization. These processes depend on two fundamental types of socio-political action: the legal structuring of emerging transnational spaces and flows of goods, capital and finance; and the legal-political reconfiguration of state power and priorities to facilitate the growth of these spaces and their penetration into national political, economic and social spaces. While a variety of processes were involved in these forms of action, the material practices of private international law played a central role in this project of political-economic reconstruction. Offering a theory of private international legality as a practice that intersects with and provides a vehicle for the mobilization of political and economic power, this book examines the construction and enrolment of private law expertise and the structural condition of pluralism in the global political economy to argue that private international law has helped construct a global political economy responsive to the priorities of powerful actors and resistant to the demands and interests of the rest of the world's populations. It will be of interest to academics and students exploring the relationship between law, international political economy and the nature of state power.

**The Future of Commercial Law** Orkun Akseli, John Linarelli, 2020-04-16. The reform of commercial law through harmonisation, unification, codification and other means remains one of the most important projects in developing the institutional architecture for the global economy. This edited collection engages with the challenges and contributes to a greater understanding of the problems faced by states, international organisations and private sector actors in this ongoing reform project for commercial law. The volume takes stock of the project to date and looks towards a restructuring of the agenda to deal with new challenges. The primary aim of the collection is to understand the future of commercial law reform in a way that offers ideas and strategies for innovation as well as in methodologies for project selection and evaluation. In so doing, the collection informs the debate on the global reform of commercial law and will be of interest not only to academics but also to those involved in the reform of commercial law around the world. The volume collects papers presented at the UK Society of Legal Scholars Annual Seminar 2017.

**The Three Laws of International Investment** Jeswald W. Salacuse, 2013-02-14.
