Italian Imprints on Twentieth-Century Architecture Denise Costanzo,Andrew Leach,2022-05-19 Italian architecture has long exerted a special influence on the evolution of architectural ideas elsewhere from the Beaux Arts academy s veneration of Rome to modernist and postmodern interest in Renaissance proportion Baroque space and Mannerist ambiguity This book critically examines this enduring phenomenon exploring the privileged position of Italian architects architecture and cities in the architectural culture of the past century Questioning the deep rooted myth of Italy within architectural history the book presents case studies of Italy s powerful yet problematic position in 20th century architectural ideologies at a time when established Eurocentric narratives are rightly being challenged It reconciles the privileged position of Italian architecture and design with the imperative to write history across a more global diverse heterogenous cultural geography Twenty chapters from distinguished international scholars cover subjects and architects ranging from Alberti to Gio Ponti Aldo Rossi Manfredo Tafuri Vittorio Gregotti cities from Rome and Venice to Milan and an array of international architects movements and architectural ideas influenced by Italy The chapters each question where how and why the disciplinary edifice of 20th century architecture its canon of built visual textual and conceptual works relied on Italian foundations examining where and how those foundations have become insecure Indispensable for students and scholars of both Italian and global architectural history Italian Imprints on Twentieth Century Architecture provides an opportunity to consider the architectural and urban landscape of Italy from substantially new points of view *Below Ground Level* Ernst von

Meijenfeldt,2002-10-25 Any space that involves descending from our typical aboveground environment is a provocation to our sensory perceptions Such hidden spaces evoke latent mythical images and confront us with the clash between nature and artifice in our built environment This book explores the character use and design of underground space as a space of its own International examples of commercial premises restaurants sports facilities subway stations museums churches libraries concert halls houses and other building types form the core material Interviews with many renowned designers including Norman Foster Floris Alkemade OMA and Francine Houben Mecanoo convey the architects own views on the subject Essays reflect on the cultural aspects planning conditions design considerations technical requirements and sustainability aspects of building below ground level Chapters include Urban Development Architecture Functions Perception and Cognition Constructions Energy and Interior Climate **The Grove Encyclopedia of American Art** Joan M. Marter,2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries

Inventions Emilio Ambasz,Tadao Andō,Fumihiko Maki,Peter Buchanan,1992 Presents the recent work of this influential designer including landscape and architectural projects as well as industrial exhibition and graphic designs *Architecture and Design at the Museum of Modern Art* Thomas S. Hines,2019-01-22 A comprehensive and fascinating look at the history of the Museum of Modern Art s Architecture and Design Department under the leadership of the influential curator Arthur Drexler Arthur Drexler 1921 1987 served as the curator and director of the Architecture and Design Department at the Museum of Modern Art MOMA from 1951 until 1986 the longest curatorship in the museum s history Over four decades he conceived and oversaw trailblazing exhibitions that not only reflected but also anticipated major stylistic developments Although several books cover the roles of MoMA s founding director Alfred Barr and the department s first curator Philip Johnson this is the only in depth study of Drexler who gave the department its overall shape and direction During Drexler s tenure MoMA played a pivotal role in examining the work and confirming the reputations of twentieth century architects among them Frank Lloyd Wright Le Corbusier Richard Neutra Marcel Breuer and Ludwig Mies van der Rohe Exploring unexpected subjects from the design of automobiles and industrial objects to a reconstruction of a Japanese house and garden Drexler s boundary pushing shows promoted new ideas about architecture and design as modern arts in contemporary society The department s public and educational programs projected a culture of popular accessibility offsetting MoMA s reputation as an elitist institution Drawing on rigorous archival research as well as author Thomas S Hines s firsthand experience working with Drexler Architecture and Design at the Museum of Modern Art analyzes how MoMA became a touchstone for the practice and study of midcentury architecture **Emilio Ambasz** Fulvio Irace,2004
