Empire In The Age Of Globalization:

Empire In The Age Of Globalisation (Pul) Ray Kiely, 2007-01-01 Empire in the Age of Globalisation is perfect for students of globalisation and international studies It is a comprehensive critical introduction to the relationship between US hegemony and contemporary globalisation Many introductory textbooks on globalisation tend to be simplistic and conservative This book moves things forward providing a critical review of the globalisation debate Kiely argues that we can only approach a proper understanding of the contemporary world order by linking globalisation to debates on capitalism imperialism and universal human rights He explores US hegemony in this light showing how liberal internationalism cannot be separated from capitalism neo liberalism and US empire building Covering all the major issues from globalisation theory to international economics cultural imperialism and global governance this will be of interest to anyone looking for a refreshing analytical approach Adrift Scott Kuschel, 2009 *British Imperialism and Globalization, C. 1650-1960* Gareth Austin, 2022 Examining the domestic politics of imperial expansion these essays question the role of the Industrial Revolution and British imperial leadership beyond the issue of hierarchy and The Great Divergence This volume brings together leading global economic historians to honour Patrick O'Brien's contribution to the establishment of global economic history as a coherent and respected field in the academy Inspired by O'Brien's seminal work on the British Industrial Revolution as a global phenomenon these essays expand the role of the Industrial Revolution and British imperial leadership beyond the issue of hierarchy and The Great Divergence The change from the protective Atlantic empire 1650-1850 to the free trade empire of the last half of the long nineteenth century is elaborated as are the conscious efforts of the free trade empire to develop markets and market economies in Africa British domestic politics associated with the change and the continuation to the recent politics of Brexit are fascinatingly narrated and documented including the economic rationale for imperial expansion in the first instance The narrative continues to the crises of globalization caused by the world wars and the Great Depression which forced the free trade British Empire to change course Further the effects of the crises and the imperial reaction on the East African colonies and on New Zealand and Australia are examined Given current concerns about the environmental impact of economic activities it is noteworthy that this volume includes the environmental impact of globalization in India caused by the free trade policy of the British free trade empire *A Cultural History of Theatre in the Age of Empire* Peter Marx, 2019-08-08 The 19th century ushered in an unprecedented boom in technology the unification of European nations the building of global empires and stabilization of the middle classes The theatre of the era reflected these significant developments as well as helped to catalyse them Populist theatre and purposebuilt playhouses flourished in the ever growing urban and cosmopolitan centres of Europe and in expanding global networks This volume provides a comprehensive and interdisciplinary overview of the cultural history of theatre from 1800 to 1920 Highly illustrated with 51 images the ten chapters each take a different theme as their focus institutional frameworks social functions sexuality and gender the

environment of theatre circulation interpretations communities of production repertoire and genres technologies of performance and knowledge transmission

The Empire's of J. G. Ballard David Ian Paddy, 2015-08-25 J G Ballard once declared that the most truly alien planet is Earth and in his science fiction he abandoned the traditional imagery of rocket ships traveling to distant galaxies to address the otherworldliness of this world The Empires of J G Ballard is the first extensive study of Ballard's critical vision of nation and empire of the political geography of this planet Paddy examines how Ballard's self-perceived status as an outsider and exile the Sheppertonian from Shanghai generated an outlook that celebrated worldliness and condemned parochialism This book brings to light how Ballard wrestled with notions of national identity and speculated upon the social and psychological implications of the post-war transformation of older models of empire into new imperialisms of consumerism and globalization Presenting analyses of Ballard's full body of work with its tales of reverse colonization psychological imperialism the savagery of civilization estranged Englishmen abroad and at home and multinational communities built on crime The Empires of J G Ballard offers a fresh perspective on the fiction of J G Ballard The Empires of J G Ballard An Imagined Geography offers a sustained and highly convincing analysis of the imperial and post-imperial histories and networks that shape and energise Ballard's fictional and non-fictional writings To what extent can Ballard be considered an international writer What happens to our understanding of his post-war science fictions when they are opened up to the language and logics of post colonialism And what creative and critical roles do the spectres of empire play in Ballard's visions of modernity Paddy follows these and other fascinating lines of enquiry in a study that is not only essential reading for Ballard students and scholars but for anyone interested in the intersections of modern and contemporary literature history and politics Jeanette Baxter Anglia Ruskin University Shanghai made my father Arriving in England after WW2 he was a person of the world who'd witnessed extremes of human experience and remained the outsider observing life from his home in Shepperton 1930s Shanghai Paris of the East was a mix of international sophistication and violence unfettered capitalism and acute poverty American cars martinis and Coca Cola a place marked by death and war It had a profound influence on my father and his imagination Dr Paddy's fascinating book explores my father's fiction within an international context and offers a profound reading of a man who always kept his eyes and mind open to the world Fay Ballard

History of Universities: Volume XXXIV/1 Ku-Ming Chang, Alan Rocke, 2021 History of Universities XXXIV 1 contains the customary mix of learned articles which makes this publication an indispensable tool for the historian of higher education This volume offers a global history of research education in the nineteenth and twentieth centuries

Transnationale Geschichte Gunilla Budde (Historikerin), Sebastian Conrad, Oliver Janz, 2006 English summary This volume discusses and compares alternative approaches of a trans-national historiography from comparative history to histories of Europe post-colonial studies and global history German description Die Internationalisierung der Geschichtswissenschaft schreitet voran Zunehmend orientiert sie sich an transnationalen Fragestellungen und globalen

Zusammenhang. Dieser Band zieht eine Zwischenbilanz der aktuellen Entwicklung. Vom historischen Vergleich über die europäische Geschichte und die Postcolonial Studies bis zu globalgeschichtlichen Perspektiven stellen die Autoren die wichtigsten Konzepte einer transnationalen Historiographie vor. Daneben werden Felder der Geschichtswissenschaft behandelt, in denen transnationale Perspektiven eine lange Tradition haben wie die jüdische Geschichte, die Intellectual History, die Geschichte multinationaler Unternehmen und die Konsumgeschichte. Oder vergleichende und beziehungsgeschichtliche Fragen, in den letzten Jahren erheblich an Bedeutung gewonnen haben wie die historische Nationalismusforschung, die Arbeitergeschichte, die Geschichte der Zivilgesellschaft oder die Geschichte kollektiver Erinnerungen. Schließlich werden Ansätze wie die Kulturgeschichte oder die Mikrogeschichte, die sich gegen internationalisierende Zugriffe zu sperren scheinen, in ihrer transnationalen Dimension diskutiert.

The First Age of Industrial Globalization Maartje Abbenhuis, Gordon Morrell, 2019-10-17 This book offers an accessible and lively survey of the global history of the age of industrialization and globalization that arose in the wake of the Napoleonic Wars and collapsed in the maelstrom of the First World War. Through a combination of industrialization, technological innovation and imperial expansion, the industrializing powers of the world helped to create an interconnected global space that left few regions untouched. In ten concise chapters, this book relays the major shifts in global power, economics and society, outlining the interconnections of global industrial, imperial and economic change for local and regional experiences, identities and politics. It finishes with an exposé on the catastrophic impact of the First World War on this global system. The First Age of Industrial Globalization weaves together the histories of industrialization, world economy, imperialism, international law, diplomacy and war, which historians usually treat as separate developments and integrates them to offer a new analysis of an era of fundamental historical change. It shows that the revolutionary changes in politics, society and international affairs experienced in the 19th century were interconnected developments. It is essential reading for any student of modern global history.

Globalization Or Empire? Jan Nederveen Pieterse, 2004-08 Is America's cultural, economic and military domination of the world globalization or is it just empire? In this smart, brief book, Pieterse confronts many of the most important issues surrounding this question.

US Imperialism James Petras, 2019-08-28 This book offers a broad and deep examination of the dynamics of US imperialism. Petras analyzes imperialism not only as economic domination, showing that its impact in the world takes many forms, including cultural, political and historical. He points to the disruptive effects it has on other world, regional economies and cultures. Capitalism and imperialism take diverse forms but both are intimately tied to the projection of state power in the service of capital, a strategy designed to advance the geopolitical and economic interests of the US economic elite and ruling class interests that are equated with the US national interest.

The Routledge International Handbook of Globalization Studies Bryan Turner, Robert Holton, 2015-12-22 The second edition of the Routledge International Handbook of Globalization Studies offers students clear and informed chapters on the history of

globalization and key theories that have considered the causes and consequences of the globalization process There are substantive sections looking at demographic economic technological social and cultural changes in globalization The handbook examines many negative aspects new wars slavery illegal migration pollution and inequality but concludes with an examination of responses to these problems through human rights organizations international labour law and the growth of cosmopolitanism There is a strong emphasis on interdisciplinary approaches with essays covering sociology demography economics politics anthropology and history The second edition has been completely revised and features important new thinking on themes such as Islamophobia and the globalization of religious conflict shifts in global energy production such as fracking global inequalities fiscal transformations of the state and problems of taxation globalization and higher education and an analysis of the general sense of catastrophe that surrounds contemporary understandings of the consequences of a global world

Encyclopedia of the Age of Imperialism, 1800-1914 Carl C. Hodge,2007-11-30 In 1800 Europeans governed about one third of the world's land surface by the start of World War I in 1914 Europeans had imposed some form of political or economic ascendancy on over 80 percent of the globe The basic structure of global and European politics in the twentieth century was fashioned in the previous century out of the clash of competing imperial interests and the effects both beneficial and harmful of the imperial powers on the societies they dominated This encyclopedia offers current detailed information on the major world powers and their global empires as well as on the people events ideas and movements both European and non European that shaped the Age of Imperialism

From the Inside Out Ryan Kuja,2018-05-22 For the sake of the world we question For the sake of the gospel we examine For the sake of the dignity of the image bearers we serve as well as ourselves we inquire The evolution that has taken place in the world of mission over the last twenty five years has left many Christians asking brutally honest questions about what we do and why we do it Are we doing more damage than good What does it look like to truly love and serve the marginalized in an authentic and effective way What actually is the gospel and is it truly good news In this groundbreaking book Ryan Kuja vividly examines the world of Christian mission as few have seen it With a beautiful balance of storytelling and theological reflection birthed from his own painful and powerful experiences on and off the field from rural villages in South Sudan to major cities across Asia Africa and Latin America Ryan guides us into global mission's past and present revealing where the light and hope lie helping recover a missional future that will usher us into a new era This is mission reimaged for a world recreated from the inside out

Globalization and International Law D. Bederman,2008-06-23 This volume develops a set of provocative themes globalization is not new it is neither legally inevitable nor irreversible and international legal systems and institutions can assert only a special and limited influence on globalizing developments

Confronting Globalization P. Hayden,C. el-Ojeili,2005-06-01 Informed by critical theory the essays in this collection examine the complex dynamics of globalization the challenges that confront democracy justice and rights under globalization and new approaches that seek to contest the

excesses of globalization and promote the struggle for global justice They form a challenging and timely volume that will be essential reading for anyone interested in the normative dimensions of globalization

Empires and Boundaries Harald Fischer-Tiné, Susanne Gehrman, 2008-11-19 Empires and Boundaries Rethinking Race Class and Gender in Colonial Settings is an exciting collection of original essays exploring the meaning and existence of conflicting and coexisting hierarchies in colonial settings With investigations into the colonial past of a diversity of regions including South Asia South East Asia and Africa the dozen notable international scholars collected here offer a truly inter disciplinary approach to understanding the structures and workings of power in British French Dutch German and Italian colonial contexts Integrating a historical approach with perspectives and theoretical tools specific to disciplines such as social anthropology literary and film studies and gender studies Empires and Boundaries Rethinking Race Class and Gender in Colonial Settings is a striking and ambitious contribution to the scholarship of imperialism and post colonialism and an essential read for anyone interested in the revolution being undergone in these fields of study

(Re-)Locating TESOL in an Age of Empire J. Edge, 2006-04-19 Are TESOL professionals now fairly seen as agents of a new English speaking empire Or if they wish to distance themselves from this role are there ways of working and living that would make this differentiation clear An international group of authors put forward their differing proposals for the development of TESOL

Geopolitics and Empire Gerry Kearns, 2009-06-11 Geopolitics and Empire examines the relations between two phenomena that are central to modern conceptions of international relations Geopolitics is the understanding of the inter relations between empires states individuals private companies NGOs and multilateral agencies as these are expressed and shaped spatially This view of the world achieved notoriety as the scientific basis claimed by Nazi ideologists of global conquest However under this or another name similar sets of ideas were important on both sides of the Cold War and now have a renewed resonance in debates over the New World Order of the so called Global War on Terror Geopolitics is a way of describing the conflicts between states as constrained by both physical and economic space It makes such conflicts seem inevitable The argument of the book is that this view of the world continues to appear salient because it serves to make the projection of force overseas seem an inevitable aspect of the foreign policy of states This quasi Darwinian view of international relations makes the pursuit of Empire appear a responsibility of larger and more powerful states Powerful states must become Empires or submit to others seeking something similar In its associations with Empire the study of Geopolitics returns continually to the ideas of a British geographer who never himself used the term Halford Mackinder is the source of many of the ideas of Geopolitics and by examining his ideas both in their original context and as they have been repeatedly rediscovered and reinvented this book contributes to current discussions of the ideology and practices of the US Empire today

Beyond the Spirit of Empire Joerg Rieger, 2013-01-25 How does empire mould human subjectivity for instance and how does it affect the understanding of humans within the whole of creation This title analyzes the global empire in its political and economic dimensions in its
