Employment Policy Sixth Item On The Agenda Report International Labour Conference:

EMPLOYMENT POLICY - SIXTH ITEM ON THE AGENDA, INTERNATIONAL LABOUR CONFERENCE.,1983 **Monthly Labor Review** ,1949 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews **Affirmative Action** Ockert Dupper,Kamala Sankaran,2014-12-01 Affirmative Action A View from the Global South provides insight into a range of aspects of the affirmative action policies in seven countries from Africa Asia South America and the Middle East In addition to these national perspectives important theoretical concepts and international developments on affirmative action are explored *International Labor Conference* ,1927 **Library Acquisitions List** Martin P. Catherwood Library,1996 **Re-Imagining Labour Law for Development** Diamond Ashiagbor,2019-07-25 The aim of this book is to explore labour law s conceptual and normative narrative If labour law is informed by the wider political and economic landscape within which it operates then given the declining prevalence of the post war model of full employment within a formal welfare state regime what shape does or should labour law assume in response to the transformation of the political economy in countries of the global North Correspondingly what is the proper role to be played by labour law and labour relations institutions in the development process within industrialising countries of the global South where informal employment has long been and remains the predominant form Drawing on the expertise of leading labour law scholars this collection addresses those questions by examining the growth and continued prevalence of informality Offering research that is both empirically grounded and doctrinally astute the book explores the changing character of labour law in the global North and South **The Global Governance of Precarity** Nick Bernards,2018-02-05 Standard employment relationships with permanent contracts regular hours and decent pay are under assault Precarious work and unemployment are increasingly common and concern is also growing about the expansion of informal work and the rise of modern slavery However precarity and violence are in fact longstanding features of work for most of the world s population Lamenting the loss of secure stable jobs often reflects a strikingly Eurocentric and historically myopic perspective This book argues that standard employment relations have always co existed with a plethora of different labour regimes Highlighting the importance of the governance of irregular forms of labour the author draws together empirical historical analyses of International Labour Organisation ILO policy towards forced labour unemployment and social protection for informal workers in sub Saharan Africa Archival research extensive documentary research and interviews with key ILO staff are utilised to explore the critical role the organization s activities have often played in the development of mechanisms for governing irregular labour Addressing the increasingly widespread and pressing practical debates about the politics of precarious labour in the world economy this book speaks to key debates in several disciplines especially IPE global governance and labour studies It will also be of interest to scholars working in development studies and critical political economy *Social Protection and Informal Workers in Sub-Saharan Africa* Lone Riisgaard,Winnie V. Mitullah,Nina

Form,2021-11-24 The promotion of social protection in Sub Saharan Africa happens in a context where informal labour markets constitute the norm and where most workers live uncertain livelihoods with very limited access to official social protection The dominant social protection agenda and the associated literature come with an almost exclusive focus on donor and state programmes even if their coverage is limited to small parts of the populations and in no way stands measure to the needs In these circumstances people depend on other means of protection and cushioning against risks and vulnerabilities including different forms of collective self organizing providing alternative forms of social protection These informal bottom up forms of social protection are at a nascent stage of social protection discussions and little is known about the extent or models of these informal mechanisms This book seeks to fill this gap by focusing on three important sectors of informal work namely transport construction and micro trade in Kenya and Tanzania It explores how the global social protection agenda interacts with informal contexts and how it fits with the actual realities of the informal workers Consequently the authors examine and compare the social protection models conceptualized and implemented from above by the public authorities in Tanzania and Kenya with social protection mechanisms from below by the informal workers own collective associations The book will be of interest to academics in International Development Studies Political Economy and African Studies as well as development practitioners and policy communities

Decent Flexibility Dr Fred C. A. van Haasteren,2017-07-30 Within the context of social law temporary agency work has always been subject of debate The pursuit of more flexible forms of labour is at odds with maintaining decent labour relations For that reason ever since it was established the UN organisation for labour issues ILO has focused on private work placement In its early years it tended to prohibit or severely restrict private work placement but gradually it came to acknowledge that for instance temporary agency work had positive aspects and that a total ban was pointless In 1997 this culminated in ILO convention 181 which was widely supported This did not end the debate on non standards forms of paid work Which forms of work can be considered decent How do they relate to human rights What are the effects of globalisation In the European context too cross border temporary agency work has attracted extensive attention Lastly the Netherlands has its own unique form of public private regulation The guiding principle in this book is whether Convention 181 still has value in this day and age What are the developments in temporary agency work in the social domain How do they relate to the wide range of flexible work forms that are increasingly catching up with temporary agency work Decent flexibility is the challenge Dr Fred van Haasteren 1949 started his career as a scientific associate at the Society and Enterprise Foundation SMO From 1978 onward he worked in the Dutch temporary agency sector In 1982 he became a board member of Randstad Nederland in 1991 he became Vice President of Randstad Holding Among other things he was also President of the platform of European temporary agency employers and of the global temporary agency employer umbrella organisation CIETT He is still a board member of the Dutch Labour Standards Foundation SNA and an independent member of the NCP OECD The social policy pursued by temporary employment agencies has always

been at the centre of his activities **Official Bulletin - International Labour Office** International Labour Organization,1980 **Youth and the Labour Market in Romania** Vasilica Ciucă,Anthony Forsyth,2014-06-12 In order to improve the quality and efficiency of youth employment this book examines the cases of the Romanian labour market and of youth employment performance Recent developments in the labour market participation of young people indicate an accentuation of labour market segmentation and a decrease in job security for young people with the risk of exclusion and marginalization fuelled by longer transition processes towards decent employment This transition may seem clear when one looks at two aspects education and employment The challenge the transition towards employment presents is faced by all regardless of one's level of education as employment security is uncertain The situation young people find themselves in when they finish school and have no job opportunities is a rather delicate one as society offers no safety nets This book as well as others in the ADAPT Labour Studies Book Series explains the challenges young people deal with while playing a vital role within the community they live in As Kafka has been quoted as saying Youth is happy because it has the ability to see beauty Anyone who keeps the ability to see beauty never grows old Therefore young people and those young at heart perform an integral role in society and they must be well integrated to enable their successful engagement within their communities

Record of proceedings ,1993 Class and Social Background Discrimination in the Modern Workplace Angelo Capuano,2025-07-15 This book exposes how inequalities based on class and social background arise from employment practices in the digital age It considers instances where social media is used in recruitment to infiltrate private lives and hide job advertisements based on locality where algorithms assess socio economic data to filter candidates where human interviewers are replaced by artificial intelligence with design that disadvantages users of classed language and where already vulnerable groups become victims of digitalisation and remote work The author examines whether these practices create risks of discrimination based on certain protected attributes including social origin in international labour law and laws in Australia and South Africa social condition and family status in laws within Canada and others The book proposes essential law reform and improvements to workplace policy **European Welfare States and Supranational**

Governance of Social Policy A. Johnson,2005-04-12 Ailish Johnson examines national welfare state regimes of EU Member States and the features of the European Union and the International Labour Organization that encourage cooperation and assure outcomes of supranational cooperation higher than theories of inter state bargaining or social dumping would predict By tracing the development of EU and global social policy from the 1950s to today she identifies policy leaders resisters and passive states She concludes with an analysis of the forms and outputs of supranational social policy and suggests limits of social policy in an enlarged European Union National Union Catalog ,1973 Includes entries for maps and atlases
