The Black Student's Pathway to Graduate Study and Beyond

Evelyn Shepherd W. Farmer, 2023-01-01 *The Black Student's Pathway to Graduate Study and Beyond: The Making of a Scholar* is an informative and ambitious book designed to help Black prospective and current graduate students pursue graduate degrees successfully. The book covers broad topics ranging from admissions policies, standardized tests, networking, mentorship, financial options, qualifying and comprehensive exams, proposal and dissertation writing, publishing, gender and race socialization, and campus culture. This volume is organized into five graduate pathways: Pathway I: Embarking on the Graduate Admissions Process; Pathway II: Confronting Race and Gender Disparities in Graduate Education; Pathway III: Persevering to the Graduate Degree; Pathway IV: Adjusting to the Socialization of Graduate Education; and Pathway V: Preparing for Success Beyond Graduate Education. The book calls Black students' attention to some of the barriers they may encounter along the pathway to a graduate degree. The pathway to success can be linear or nonlinear since students travel different journeys and are at different vectors on the continuum. The primary audience for this book consists of Black prospective and current graduate students, graduate deans, admissions counselors, recruiters, and faculty advisors in both Black and white higher education institutions. The secondary audience includes high school students, guidance counselors, and social and religious organizations. Furthermore, this book can serve as a handy resource for undergraduates who are interested in pursuing a graduate degree.

ENDORSEMENTS This book will be helpful not only for students seeking a meaningful experience in graduate and professional school but perhaps more importantly institutions that desire to create productive pathways for Black students to the advanced degree workplace. The chapters unpack important lived experiences that should be carefully considered.

Jerlando F. L. Jackson, University of Wisconsin-Madison

The Black Student's Pathway to Graduate Study and Beyond: The Making of a Scholar makes key contributions to the extant literature. By underscoring Black graduate students' engagements with Academe, the scholars provide nuanced perspective through an array of contextual lenses, e.g., admissions, race and gender socialization, transition that are endemic to higher education in general and the Historically Black College and University (HBCU) setting in particular. Critical Race Theory is the theoretical framework that provides scaffolding upon which the volume's scholars theorize best practices, strategies, and solutions that are authentic representations of their experiences. The pathway is an appropriate metaphor for this book; the scholars have provided illumination. It is incumbent upon us to initiate the journey.

Renn, 2014-10-13 A pathbreaking study of the critical role women's institutions play in global higher education Educating girls and women is a powerful route to improving societies worldwide When women receive more education literacy rates in children rise maternal and infant death rates drop and women enjoy an increased earning capacity Yet in parts of the

developing world women's education is considered a low priority at best and a dangerous countercultural activity at worst. In Europe and North America the number of women's colleges is shrinking yet women-only institutions are growing in size and number in many other regions of the world where they provide access to female students who are prevented for legal, cultural, religious, or practical reasons from attending coeducational universities. *Women's Colleges and Universities in a Global Context* is the first book to provide a comprehensive comparative analysis of the increasing significance of single-sex higher education institutions for women around the world. Based on Kristen A. Renn's on-site study of thirteen women's colleges and universities in ten different countries (Australia, Canada, China, India, Italy, Japan, Kenya, South Korea, the United Arab Emirates, and the United Kingdom), this timely and provocative volume combines interviews of campus leaders, faculty, and students with extensive online and archival research. Renn provides an overview of each country's political, economic, and educational situation, then explores the theoretical and practical themes she uncovers in their educational institutions for women. In the end, this volume addresses not only the role of women's colleges in their own countries but also what these institutions can teach us that would benefit higher education worldwide.

Communicative Understandings of Women's Leadership Development Elesha L. Ruminski, Annette Holba, 2012-01-01 Communicative Understandings of Women's Leadership Development From Ceilings of Glass to Labyrinth Paths edited by Elesha L Ruminski and Annette M Holba intertwines the disciplines of communication studies leadership studies and women's studies to offer theoretical and practical reflection about women's leadership development in academic organizational and political contexts Women's leadership development exists at the intersection of consciousness raising communication competence and education to increase one's knowledge and practice of leadership which makes the weaving together of these three disciplines important Thus Communicative Understandings of Women's Leadership Development claims a space for women's leadership studies and acknowledges the paradigmatic shift from discussing women's leadership using the glass ceiling phenomenon to what Eagly and Carli 2007 identify as the labyrinth of leadership Recognizing this metaphoric shift is crucial because many women now develop leadership amid the postmodern flux of organizational change hierarchical top down systems are being eroded in lieu of transformational collaborative even improvisational leadership processes Women's leadership studies is emerging as a fruitful interdisciplinary area that reframes the debate about whether we live work and learn within a third wave feminist or post feminist context While this area might include feminist theorizing it also might not emphasize such epistemologies For this reason Ruminski and Holba's edited collection explores and highlights a variety of feminist and non feminist intersections and is thus an important and timely contribution to both marking where we are with women's leadership development in higher education and how women can further develop themselves as leaders
