Incarnations of Material Textuality Katarzyna Bazarnik, Izabela Curyłło-Klag, 2014-10-02 *Liberature* coined from the Latin *liber* is simultaneously a movement in contemporary Polish literature and a term referring to literary works that integrate text and material features of the book into an organic whole in accordance with the author's design The present volume collects essays inspired by this theoretical concept first proposed by Polish poet Zenon Fajfer in 1999 but soon picked up and elaborated on by international scholars As noted by the contributing authors preceding Jessica Pressman's idea of bookishness and coinciding with N Katherine Hayles' fundamental writings *liberature* appeared at the end of the 20th century as if to resume and systematize the intuitions and provocative statements of writers concerned with the future of the book It fits into a wider turn towards the recognition of the embodied nature of information in anthropology literary textual media and AI studies Yet its distinctness consists in the fact that it was suggested by a creative writer and that it proposes to see the authorially shaped materiality of writing in terms of a literary genre The essays collected here present the modernist roots and inspirations of *liberature* address the semantics of typography and the question of materiality of literary writing and explore how the abstract body of the printed book is transformed into an experience of embodiment The volume is completed with a reprint of Fajfer's seminal essays with a view to making them more available to English speaking readers

Noise Thinks the Anthropocene Aaron Zwitscher, 2019-02-12 In an increasingly technologized and connected world it seems as if noise must be increasing Noise however is a complicated term with a complicated history Noise can be traced through structures of power theories of knowledge communication and scientific practice as well as through questions of art sound and music Thus rather than

assume that it must be increasing this work has focused on better understanding the various ways that noise is defined what that noise can do and how we can use noise as a strategically political tactic Noise Thinks the Anthropocene is a textual experiment in noise poetics that uses the growing body of research into noise as source material It is an experiment in that it results from indeterminate means alternative grammar and experimental thinking The outcome was not predetermined It uses noise to explain elucidate and evoke akin to other poetic forms within the textual milieu in a manner that seeks to be less determinate and more improvisational than conventional writing Noise Thinks the Anthropocene argues that noise poetics is a necessary form for addressing political inequality coexistence with the nonhuman other the ecological crisis and sustainability because it approaches these issues as a system of interconnected fragments and excesses and thus has the potential to reach or envision solutions in novel ways **Silencing the Sounded Self** Christopher Shultis,2013-11-05 Christopher Shultis observes an intriguing contrast between John Cage s affinity for Thoreau and fellow composer Charles Ives connection with Emerson Although both Thoreau and Emerson have been called transcendentalists they held different views about the relationship between nature and humanity and the artist s role in creativity Shultis explores the artist s sounded or silenced selves the self that takes control of the creative experience versus the one that seeks to coexist with it and shows how understanding this distinction allows a better understanding of Cage Having placed Cage in this experimental tradition of music poetry and literature Shultis offers provocative interpretations of Cage s aesthetic views especially as they concern the issue of non intention and addresses some of his most path breaking music as well as several experimentally innovative written works A Chance Meeting Rachel Cohen,2024-03-19 Weaving a tapestry of creativity and circumstance this lauded chronicle of the many links and serendipitous meetings between giants of American culture from Henry James to Gertrude Stein to Zora Neale Hurston to Marcel Duchamp now includes a new afterword by the author Rachel Cohen s A Chance Meeting is a dazzling group portrait that offers a striking new vision of the making and remaking of the American mind and imagination from the Civil War to the Vietnam War How does the happenstance of daily life become history Cohen shows us describing a series of now boldly now subtly transformative encounters between a wide and surprising range of Americans A young Henry James has his portrait taken by the photographer Mathew Brady Brady who will receive Walt Whitman in his studio and depict General Grant on the battlefield Later W E B Du Bois and his professor William James visit Helen Keller Edward Steichen and Alfred Stieglitz argue about photography and Langston Hughes and Zora Neale Hurston write a play together Throughout Cohen s narrative loops back and leaps forward with supreme agility connecting among others Willa Cather Elizabeth Bishop Marianne Moore Beauford Delaney James Baldwin and Richard Avedon In A Chance Meeting Rachel Cohen offers an abiding account of the continuing challenges and the astonishing achievements of American life A Bibliography of Conceptual Writing yigru zelti,2017-01-27 The first final version of a never ending project a bibliography of conceptual literature not just appropriation based conceptualism but also relatively rigorous forms of flarf

Prior to Meaning Steve McCaffery, 2001 Prior to Meaning collects a decade of writing on poetry language and the theory of writing by one of the most innovative and conceptually challenging poets of the last twenty five years In essays that are wide ranging richly detailed and novel in their surprising juxtapositions of disparate material Steve McCaffery works to undo the current bifurcation between theory and practice to show how a poetic text might be the source rather than the product of the theoretical against which it must be read
