En La Frontera Del Caos:

México Andres Oppenheimer,1996 **Problemas estructurales de la economía mexicana** Alejandro Díaz-Bautista,2003 **México En La Frontera del Caos (NVA Edic) / Mexico: On the Edge of Chaos** Andrés Oppenheimer,2025-02-18 En los años 90 era fácil ver que el torbellino del TLC el levantamiento zapatista y el asesinato de Colosio acercaban la transición democrática en México cosa que ocurrió. Pero muy pocos observaron las graves tendencias que subyacen en ese torbellino. Andrés Oppenheimer fue tal vez el único periodista que en su momento logró verlo y explicarlo justamente en este libro. Detecta que la idiosincrasia priista seguía fuerte y resurgiría que las violencias buscarían otros escenarios que sin reformulaciones económicas los problemas de fondo rebrotarían y que por lo tanto el escenario estaba listo para que surgieran ciertos tipos de liderazgos políticos muy peligrosos. En todo acertó. La cuestión es que esas dinámicas persisten. Con la diferencia de que ahora los riesgos y las complejidades para atajarlos son mayores. Leer esta obra por tanto se convierte en un imperativo para recordar y reaccionar antes de que sea demasiado tarde. Porque con esta reedición Oppenheimer nos recuerda que México de nuevo se encuentra en la frontera del caos. Para desgracia de México la otrora dictadura perfecta se convirtió bajo López Obrador en una dictadura imperfecta. Han pasado casi treinta años desde que escribió México en la frontera del caos y su título ha vuelto a cobrar una vigencia inusitada tras el regreso de casi todos los males que muchos creíamos superados tras el regreso a la democracia en el año 2000. De la Introducción **Drug Wars and Covert Netherworlds** James H. Creechan,2021-12-07 Drug Wars and Covert Netherworlds describes the history of Mexican narco cartels and their regional and organizational trajectories and differences. Covering more than five decades, sociologist James H. Creechan unravels a web of government dependence, legitimate enterprises and covert connections. [Women in Mexican Folk Art](#) Eli Bartra,2013-12-15 The aim of this book is to engender Mexican folk art and locate women at its centre by studying the processes of creation, distribution and consumption as well as examining iconographic aspects and elements of class and ethnicity from the perspective of gender. The author will demonstrate that the topic provides unique insights into Mexican culture and has enormous relevance within and without the country given the fact that much folk art is made for the United States and Europe either in terms of the tourists who buy it on coming to Mexico or that which is exported.

Contemporary Mexican Cinema, 1989-1999 Miriam Haddu,2007 This study contextualizes and evaluates the significance of contemporary Mexican filmmaking focusing on the so-called cine nuevo of 1989-1999. Accordingly, the study is divided into three sections representing the key generic discourses that frame the films' narratives and underlying aims. The first analyzes contemporary Mexican cinema's representation of history on the cinematic screen and the second part of the book examines the rise in the number of women directors, comparing it with the previous lack of female participation within the filmmaking arena. The last section explores the relocation of cinematic geographies in contemporary cinema. *Deja a la estructura hablar* Rodrigo Ramos Jiliberto,2020-12-01 Los mayores desafíos de la humanidad actual se

arraigan en las múltiples e intrincadas relaciones entre nuestra sociedad y el mundo natural. Y a esta complejidad inherente que emerge de las intersecciones de la física con la biología la psicología la sociología y la economía entre otras disciplinas se suma el ser esquivo al razonamiento intuitivo. De ahí la importancia de contar con herramientas teóricas y técnicas que permitan analizar integralmente estos procesos para así poder tomar decisiones fundamentadas en beneficio de todos los humanos y no humanos de este planeta. Este libro ofrece herramientas de la ciencia de sistemas y de la ecología teórica para comprender y abordar diversos procesos y problemas complejos sin requerir de una formación avanzada en matemáticas o ciencias. Por sobre su potencial utilidad este ensayo es una introducción a la modelización y al análisis de sistemas de cualquier naturaleza y una invitación a desarrollar o profundizar el pensamiento sistémico necesario para el diseño de soluciones estructurales a nuestros desafíos contemporáneos.

Complejidad y capital intelectual. Ramírez Rojas Octavio, 2022-01-24. El contenido temático de esta segunda edición del libro *Complejidad y capital intelectual* procesos concomitantes está conformado por las seis partes y los doce temas o capítulos que componen la primera edición actualizados con los dieciséis capítulos que se agregan a esta edición. El contenido temático del libro propone elementos para diseñar líneas de consultoría y acompañamiento gerenciales como para desarrollar investigaciones aplicadas y publicaciones sobre las disciplinas del direccionamiento estratégico y operacional. Estas disciplinas estratégicas y operacionales son de por sí procesos caracterizados por la complejidad en las interacciones y dinámica del capital intelectual de toda organización social y empresarial.
