Eschatological Relationships and Jesus in Ben F. Meyer, N. T. Wright, and Progressive Dispensationalism Richard Fountain, 2016-07-29 Modern scholars have varied responses to apocalyptic narrative in the Synoptic Gospels Some ignore it others reinterpret it and don't think that Jesus' warning about persecution works in this setting In order to understand apocalyptic in the New Testament we need to understand Jewish apocalyptic and its similarities and differences with Jesus We need to know the key themes and where those themes develop in the Synoptic Gospels *Eschatological Relationships and Jesus* begins by exploring the components of

prophetic and apocalyptic eschatology figurative language history sequence and juxtaposition of ideas and then develops some of the major theological themes in Meyer Wright and Progressive Dispensationalism from the Synoptic Gospels As readers work through Eschatological Relationships and Jesus they begin to see and interpret the various patterns and themes in the eschatological discourses Samples from Mark's Gospel to Matthew and Luke and a table of key eschatological relations makes this study a practical guide to the gospels

One Gospel Nathan N. Hoff, 2023-12-18 Is faith in Messiah necessary to the content of saving faith in the Old Testament as it is in the New While the dispensational tradition has been clear that salvation in every age includes a common object God a common basis Christ's death and a common requirement faith it has not always agreed on the content of saving faith across the testaments Written within the dispensational tradition One Gospel seeks to advance the discussion by looking at Paul's use of the Abraham story in Romans 4 This work contends there is continuity between the Old Testament and the New as illustrated by Abraham and Paul The content of saving faith must always include faith in Messiah who in the progress of revelation is identified as Jesus Christ

Principles of Neurotheology Assoc Prof Andrew B Newberg, 2013-06-28 Neurotheology has garnered substantial attention in the academic and lay communities in recent years Several books have been written addressing the relationship between the brain and religious experience and numerous scholarly articles have been published on the topic some in the popular press The scientific and religious communities have been very interested in obtaining more information regarding neurotheology how to approach this topic and how science and religion can be integrated in some manner that preserves both If neurotheology is to be considered a viable field going forward it requires a set of clear principles that can be generally agreed upon and supported by both the theological or religious perspective and the scientific one as well Principles of Neurotheology sets out the necessary principles of neurotheology which can be used as a foundation for future neurotheological discourse Laying the groundwork for a new synthesis of scientific and theological dialogue this book proposes that neurotheology a term fraught with potential problems is a highly useful and important voice in the greater study of religious and theological ideas and their intersection with science

Hesselgrave, 1994 David Hesselgrave uses the work of ten influential men to describe what is going on in missions Each chapter deals with a different aspect of the use of the Bible in the church and in mission from the study of the Bible to teaching biblical principles to church leaders on the mission field As the first title in the new Evangelical Missiological Society series this textbook is designed for use in addressing Contemporary Issues in Missions Mission Strategy Theology of Mission Survey of Mission Mission Principles and Practices Strategy for World Evangelization Church Planting Church Growth and Contextualization

The Augustinian Alternative Benjamin J. Wood, 2017-07-15 This book's central claim is that a close reading of Augustine's epistemology can help political

theologians develop affirmative accounts of political liberalism This claim is set in a scholarly context that is profoundly hostile to constructive theological readings of liberal culture As a corrective to such antagonism this book suggests that far from being natural opponents Christian communities can work fruitfully with political liberals based on common principles A key component in this argument is the theological reevaluation of the ancient skeptical tradition While the ancient skeptics are habitually treated by scholars as minor characters in the story of Augustine's theological development this volume argues that they played a significant role in shaping both Augustine's theology and the subsequent character of the Augustinian tradition By placing Augustine's reading of the skeptics in dialogue with contemporary culture this book constructs a viable form of liberal Christian politics that is attentive both to his sensitive account of public life and his eschatological vision of the church

Satan's Strategy to Curse Christ's Congregation Dr. Keith A. Sherlin, 2010-09 Dr Sherlin has worked diligently to show the importance of elder rule What he has done is restore us to sound principles that come straight from the Bible His book is a must for every assembly that wants to remain strong rather than go the way of the culture I cannot recommend his book enough Dr Mal Couch In this work the author sets out the biblical case for congregations being ruled by a plurality of Godly men known as elders This work is meticulously footnoted and documented making it an invaluable resource for the layman and scholar alike Dr Andy Woods Keith writes in a manner that is precise and with a fluidity of understanding of current day church leadership The tone of his writing is shared in love and there are no judgmental undertones that permeate his thoughts I would wholly recommend this reading to all who profess Christ as their Lord Pamela Rogers Dr Keith has presented a solid case for authoritative leadership in the church His book is a call for us to return to biblical leadership and be presbyters instead of politicians Dr C V Varnado Do you believe that your local assembly is full of conflict confusion and or compromise Are you familiar with the strategy of Satan and his methods to undermine the grace love and truth of Christ's body This work makes a clear and convincing case that many problems in congregations occur because the body has adopted a flawed foundation of church government and doctrine that is more political than biblical How much or to what degree has Satan made inroads into your spiritual family and leadership body Read and judge for yourself and if necessary seek to apply the prescribed remedy to the problem
