*Encyclopedia of the World's Endangered Languages* Christopher Moseley, 2008-03-10 The concern for the fast disappearing language stocks of the world has arisen particularly in the past decade as a result of the impact of globalization This book appears as an answer to a felt need to catalogue and describe those languages making up the vast majority of the world's six thousand or more distinct tongues which are in danger of disappearing within the next few decades Endangerment is a complex issue and the reasons why so many of the world's smaller less empowered languages are not being passed on to future generations today are discussed in the book's introduction The introduction is followed by regional sections each authored by a notable specialist combining to provide a comprehensive listing of every language which by the criteria of endangerment set out in the introduction is likely to disappear within the next few decades These languages make up ninety per cent of the world's remaining language stocks Each regional section comprises an introduction that deals with problems of language preservation peculiar to the area surveys of known extinct languages and problems of classification The introduction is followed by a list of all known languages within the region endangered or not arranged by genetic affiliation with endangered and extinct languages marked This listing is followed by entries in alphabetical order covering each language listed as endangered Useful maps are provided to pinpoint the more complex clusters of smaller languages in every region of the world The Encyclopedia therefore provides in a single resource expert analysis of the current language policy situation in every multilingual country and on every continent detailed descriptions of little known languages from all over the world and clear alphabetical entries region by region of all the world's languages currently thought to be in danger of extinction The Encyclopedia of the World's Endangered Languages will be a necessary addition to all academic linguistics collections and will be a useful resource for a range of readers with an interest in development studies cultural heritage and international affairs

**Extinct Languages** Johannes Friedrich, 2021-10-26 A noted linguist examines extinct languages from Egyptian hieroglyphs to the mysteries of as yet undeciphered writings in this scholarly work While certain ancient languages were passed down continuously through the ages many others were ignored for centuries When scholars began to decipher these extinct languages in the early nineteenth century they uncovered previously inaccessible riches of knowledge and history Yet much work remains to be done on undeciphered scripts that continue to tantalize and perplex us today In *Extinct Languages* linguist Johannes Friedrich guides readers through the fascinating world of recovered systems of writing including Egyptian and Hittite hieroglyphs Babylonian cuneiform and others He also explains the methodology and principles behind the deciphering process that will one day crack ancient mysteries such as the Indus Valley script

[One Thousand Languages](#) Peter Austin, 2008 Presents an overview of the living endangered and extinct languages of the world providing the total number of speakers of the language its history and maps of the geographic areas where it is presently spoken or where it was spoken in the past

[When Languages Die](#) K David Harrison, 2008-07-21 It is commonly agreed by linguists and

anthropologists that the majority of languages spoken now around the globe will likely disappear within our lifetime The phenomenon known as language death has started to accelerate as the world has grown smaller This extinction of languages and the knowledge therein has no parallel in human history K David Harrison s book is the first to focus on the essential question what is lost when a language dies What forms of knowledge are embedded in a language s structure and vocabulary And how harmful is it to humanity that such knowledge is lost forever Harrison spans the globe from Siberia to North America to the Himalayas and elsewhere to look at the human knowledge that is slowly being lost as the languages that express it fade from sight He uses fascinating anecdotes and portraits of some of these languages last remaining speakers in order to demonstrate that this knowledge about ourselves and the world is inherently precious and once gone will be lost forever This knowledge is not only our cultural heritage oral histories poetry stories etc but very useful knowledge about plants animals the seasons and other aspects of the natural world not to mention our understanding of the capacities of the human mind Harrison s book is a testament not only to the pressing issue of language death but to the remarkable span of human knowledge and ingenuity It will fascinate linguists anthropologists and general readers

**Cataloguing the World's Endangered Languages** Lyle Campbell, Anna Belew, 2018-02-02 Cataloguing the World s Endangered Languages brings together the results of the extensive and influential Catalogue of Endangered Languages ELCat project Based on the findings from the most extensive endangered languages research project this is the most comprehensive source of accurate information on endangered languages The book presents the academic and scientific findings that underpin the online Catalogue located at [www.endangeredlanguages.com](http://www.endangeredlanguages.com) making it an essential companion to the website for academics and researchers working in this area While the online Catalogue displays much data from the ELCat project this volume develops and emphasizes aspects of the research behind the data and includes topics of great interest in the field not previously covered in a single volume Cataloguing the World s Endangered Languages is an important volume of particular interest to academics and researchers working with endangered languages

**Endangered Languages** Sarah G. Thomason, 2015-04-23 Most of the 7 000 languages spoken in the world today will vanish before the end of this century taking with them cultural traditions from all over the world as well as linguistic structures that would have improved our understanding of the universality and variability of human language This book is an accessible introduction to the topic of language endangerment answering questions such as what is it How and why does it happen Why should we care The book outlines the various causes of language endangerment explaining what makes a language safe and highlighting the danger signs that threaten a minority language Readers will learn about the consequences of losing a language both for its former speech community and for our understanding of human language Illustrated with case studies it describes the various methods of documenting endangered languages and shows how they can be revitalised

**Language Diversity Endangered** Matthias Brenzinger, 2008-08-22 This book presents a comprehensive overview of endangered languages with a

global coverage It features such well known specialists as Michael Krauss Willem F H Adelaar Denny Moore Colette Grinevald Akira Yamamoto Roger Blench Bruce Connell Tapani Salminen Olga Kazakevich Aleksandr Kibrik Jonathan Owens David Bradley George van Driem Nicholas Evans Stephen A Wurm Darrell Tryon and Matthias Brenzinger The contributions are unique in analysing the present extent and the various kinds of language endangerment by applying shared general indicators for the assessment of language endangerment Apart from presenting the specific situations of language endangerment at the sub continental level the volume discusses major issues that bear universally on language endangerment The actual study of endangered languages is carefully examined for example against the ethics and pragmatics of fieldwork Practical aspects of community involvement in language documentation are discussed such as the setting up of local archives and the training of local linguists Numerous case studies illustrate different language shift environments with specific replacing factors such as colonial and religious conquests migrations and governmental language education The book is of interest to students and scholars of linguistics with particular focus on endangered languages and their documentation typology and sociolinguistics as well as to anthropologists and language activists

**Endangered Languages and Languages in Danger** Luna Filipović, Martin Pütz, 2016-10-03 This peer reviewed collection brings together the latest research on language endangerment and language rights It creates a vibrant interdisciplinary platform for the discussion of the most pertinent and urgent topics central to vitality and equality of languages in today's globalised world The novelty of the volume lies in the multifaceted view on the variety of dangers that languages face today such as extinction through dwindling speaker populations and lack of adequate preservation policies or inequality in different social contexts e.g. access to justice education and research resources There are examples of both loss and survival and discussion of multiple factors that condition these two different outcomes We pose and answer difficult questions such as whether forced interventions in preventing loss are always warranted or indeed viable The emerging shared perspective is that of hope to inspire action towards improving the position of different languages and their speakers through research of this kind

**The Oxford Handbook of Endangered Languages** Kenneth L. Rehg, Lyle Campbell, 2018-07-18 The Oxford Handbook of Endangered Languages in 39 chapters is a comprehensive resource on endangered languages It broadens understanding of language endangerment language documentation and language revitalization and in doing so encourages further research and support for endangered languages

**Endangered Languages** Evangelia Adamou, 2024-08-06 A concise accessible introduction to language endangerment and why it is one of the most urgent challenges of our times 58% of the world's languages or approximately 4 000 languages are endangered When we break this figure down we realize that roughly ten percent of languages have fewer than ten language keepers And if one language stops being used every three months this means that in the next 100 years if we do nothing 400 more languages will become dormant In *Endangered Languages* Evangelia Adamou a specialist of endangered languages and a learner of her own community language Nashta offers a sobering look at language endangerment and what is truly lost when a language disappears from usage Combining recent advances from the Western scientific tradition from the fields of linguistics psycholinguistics neurolinguistics language attrition population genetics and natural language processing and insights from Indigenous epistemology theory and ethics Adamou examines a wealth of issues surrounding endangered languages She discusses where endangered languages are found including how they are faring in a digital world why these languages are no longer used and how communities can reclaim languages and keep them strong Adamou also explains the impact of language continuity on community and individual health and well being the importance of language transmission in cultural transmission and why language rights are essentially human rights Drawing on varied examples from the Wampanoag Nation to Wales *Endangered Languages* offers a powerful reminder of the crucial role every language has in the vitality and well being of individuals communities and our world

Language Decline and Death in Africa Herman Batibo, 2005-01-01 The aim of this book is to inform both scholars and the public about the nature and extent of the problem of language decline and death in Africa It resourcefully traces the main causes and circumstances of language endangerment the processes and extent of language shift and death and the consequences of language loss to the continent's rich linguistic and cultural heritage The book outlines some of the challenges that have emerged out of the situation

**Atlas of the World's Languages in Danger of Disappearing** UNESCO, Wurm, Stephen Adolphe, Heyward, Ian, 2001-07-17 Close to half of the 6 000 languages spoken in the world are doomed or likely to disappear in the foreseeable future The disappearance of any language is an irreparable loss for the heritage of all humankind This new edition of the Atlas first published in 1996 is intended to give a graphic picture of the magnitude of the problem and a comprehensive list of languages in danger

Endangered Languages Lenore A. Grenoble, Lindsay J. Whaley, 1998-03-26 This book provides an overview of the issues surrounding language loss It brings together work by theoretical linguists field linguists and non linguist members of minority communities to provide an integrated view of how language is lost from sociological and economic as well as from linguistic perspectives The contributions to the volume fall into four categories The chapters by Dorian and Grenoble and Whaley provide an overview of language endangerment Grinevald England Jacobs and Nora and Richard Dauenhauer describe the situation confronting threatened languages from both a linguistic and sociological

perspective The understudied issue of what beyond a linguistic system can be lost as a language ceases to be spoken is addressed by Mithun Hale Jocks and Woodbury In the last section Kapanga Myers Scotton and Vakhtin consider the linguistic processes which underlie language attrition On the Margins of Nations: Endangered Languages and Linguistic Rights Foundation for Endangered Languages. Conference, Joan A. Argenter, R. McKenna Brown, 2004-01-01 *Language Endangerment Is an Important Issue* Corinna Colette Vellnagel, 2011-07 Essay from the year 2011 in the subject Speech Science Linguistics grade Excellent The University of Surrey language English abstract Tarn palk enim ab uo tund Only a handful of people are still able to understand these Livonian words Viitso 1990 Reasons why languages such as Livonian are becoming extinct are manifold and the estimated 7000 languages which are being spoken around the world Colls 2009 p 1 are expected to rapidly shrink in the upcoming decades It is obvious that language extinction and language death have reached an exceptional level in recent years and that the forecast for a striking percentage of the world s dying languages is very high Hale et al 1992 An untold number of languages has already died and the disappearance of languages continues Wurm 1991 p 1 constantly One reason for this loss is the fact that more and more people switch to one of the dominant languages especially English and Deterding 2004 p 27 in consequence miss out on transmitting their endangered indigenous language to their descendents Crystal 2000 The problem of language death has only been discovered in the late 1980 s and it is assumed that within this century 50% of the currently spoken languages will become extinct and that another 40% will be endangered so that their extinction is no longer ne avoidable but only if this trend continues Krauss 1992 Although this estimation might sound very pessimistic it is obvious that a drastic reduction of language diversity is on its way In these premises thoughts about how to countervail the reduction of diversity have come up within the last couple of years Hale et al 1992 Bobaljik et al 1996 Grenoble and Whaley 1998 with one possibility being to respond to the dying of languages by extensively documenting endangered languages before they actually become extinct Considering the extent and the speed in which languages die out the task to document is particularly i **Africa's Endangered Languages** Jason Kandybowicz, Harold Torrence, 2017-07-10 This book examines the endangered languages of Africa from both documentary and theoretical perspectives highlighting the threats of extinction many of them face and the challenges and implications each bring to bear on linguistic theory It focuses on the symbiosis between documentary and theoretical methodologies and its consequences for the preservation of endangered languages both in the African context and more broadly
