Eye Openers A Little Something To Think About:

Things I Wish I'D Known at 13: or Maybe Even Sooner Loujaden Gladys, 2018-08-02 There are things I feel every female should be taught as they grow into young women things they will value their entire lives It would seem like common sense that the most important and especially sensitive things females should know would come from the females closest to them But sometimes that just doesn't happen and the information comes from people you meet on your journey through life I've had some wonderful female mentors teachers friends and role models over the years who've helped me through things only another female can With the use of technology especially cell phones people have lost some basic communication skills over the years Many people don't even like to talk they would rather text or send an email But so much is lost in translation with these methods My belief is that young people truly want to be guided even though they may act like they don't and rebel and fight against it at times But when they don't get this guidance at all or see that adults are reluctant to address certain things or worse avoid any conflict or difficult situations at all by just giving them whatever they want or turning a blind eye teens lose even more respect for adults So I felt the need to find a way to provide some of this guidance in a format that's easy to access understand share and use They are things I would readily communicate to any young woman I'd meet They are things I wish had been shared with me when I was developing into a young woman My goal is to help with the good the bad and some of the in between And also help possibly take away some of the confusion frustration and upsets of the beginning stages of becoming a woman

The Marvelous Pigness of Pigs Joel Salatin, 2016-05-03 From Christian libertarian farmer Joel Salatin a clarion call to readers to honor the animals and the land and produce food based on spiritual principles What on earth is *The Marvelous Pigness of Pigs* It's an inspiring call to action for people of faith a heartfelt plea to heed the Bible's guidance It's an important and thought provoking explanation of how by simply appreciating the marvelous pigness of pigs we are celebrating the Glory of God As a man of deep faith and student of the Bible and as a respected and successful ecological family farmer Joel Salatin knows that God created heaven and earth and meant for all living organisms to be true to their nature and their endowed holy purpose He intended for us to respect and care for His gift of creation not to ravage and mistreat it for our own pleasure or wealth The example that inspires the book's title explains what Salatin means when huge corporate farms confine pigs in cramped

and dark pens inject them with antibiotics and feed them herbicide saturated food simply to increase profits they are not respecting them as a creation of God or allowing them to express even their most rudimentary uniqueness that special role that is part of His design Every living organism has a God given uniqueness to its life that must be honored and respected and too often that is not happening today Salatin shows us the long overlooked ethics and instructions in the Bible for how to eat how to shop how to think about how we farm and feed the world Through scripture and Biblical stories he shows us why it s more vital than ever to look to the good book rather than corporate America when feeding the country and your family Salatin makes a compelling case for Christian stewardship of the earth and how it relates to every action we take regarding our food He also opens our eyes to a common misconception many Christians may have about environmentalism it s not a bad thing and definitely not just the province of secular liberals it s really a very good thing part of heeding God s Word With warmth and with humor but with no less piercing criticism of the industrial food complex Salatin brings readers on a fascinating journey of farming food and faith Readers will not say grace over their plates the same way ever again
